(Copy.)

**NOTICE TO MARINERS.**

It is hereby brought to public knowledge—

That the floating beacons in the Sound this year, as usual, will be removed on the 21st instant, provided drift ice does not make it necessary to remove them before that time.

That the number of floating beacons during this winter will be 13, five more than there has been formerly, and placed as follows:

At the north-east end of the Stubben—

A floating beacon, having a black pole, with two brooms tied upwards, instead of the buoy Nr. 7.

At the east side of the Stubben; called Stubben Tail—

A floating beacon, with one broom tied upwards, on a black pole, like the one placed there during the summer season.
