The registry of county courts' judgments was established to afford to traders a ready means of ascertaining the solvency of parties, and to enable executors and administrators to discover what judgment debts they are bound to satisfy.

In the registry can be found the name, address, and occupation of every party against whom a judgment has been recorded since March, 1847, in any of the county courts throughout England and Wales, for £10 and upwards, and which remains unsatisfied at the time the search is made.

#### INSOLVENCY.
