From **Monday** November 1. to **Thursday** November 4. 1686.

*Naples, Octob. 15.*

**T**He Gallies of the Great Duke of *Tuscany*, which served against the *Turks* this Summer, arrived the last week at *Pozzuolo*; the Admiral *Gaudi*, accompanied with his principal Officers, came ashore to visit our Vice-Roy the Marquis *del Carpio*, which his Excellency returned, and made him a Present of fresh Provisions; The 13th these Gallies sailed again for *Leghorne*. The Pope's Gallies passed by without stopping in this Port. Those of *Maltha* are likewise gone home.

*Venice, Octob. 26.* We have advice by several Vessels arrived from the *Levant*, that Captain-General *Morofini* sailed the 2d of the last Month from *Napoli di Romania* with the Fleet of this State, taking his course towards the *Archipelago*, where he has already set several of the Islands under Contribution. We are informed by the same way, that some *Venetian* Men of War coming before *Malvasia*, the Garrison, which were 250 Men, upon the first Summons surrendered the place, conditioning to be transported to *Patrasso*. Some Gentlemen who were returned hither from the *Navarin*, confirm the account we had of the death of Signior *Fafrin della Riva*, *Proveditore-General* of *Napoli di Romania*, and that Signior *Gaspar Bragadin* had succeeded him in that Government; and farther tell us, that they left General *Coningmarke* ill of a Fever; and that the Prince of *Brunswicke* was likewise not well, but that he was notwithstanding gone with the Auxiliary Forces of *Lunenburg* and *Saxony* to *Zant*, where they are to winter; The Ships that transported them thither, being commanded by Signior *Pezzani*, have Orders to go and cruize in the Seas of *Safeno*, which are very much infested with *Pyrats*. It is reported that the Captain-General has taken a Castle in the Isle of *Scio*, in which were 200 *Turks*, and that he intends to possess himself of some other Fortresses in those Seas, to cut off the communication between the Islands of the *Archipelago* and the Kingdom of *Candia*. Several Officers are now here who offer to raise Regiments in *Germany* and *Italy* for the Service of this State against the next Campaign, some of which are treating with by order of the Senate.

*Genoua, Octob. 21.* The Pope's Gallies are arrived at *Civita Vecchia*; and the Gally of this State that served with them this Summer is returned hither. The Master of a vessel arrived from *Alexandria* reports, that before his departure from thence the Garrisons of *Navarin* and *Modon* arrived there, and had greatly increased the consternation that was among those People. That the Bassa of *Alexandria* had received fresh Orders from the Port, to raise what Men he could, and to send them to the *Morea*, but that all his endeavors to satisfy the Grand *Vizier* in this particular, were very unsuccess-

ful, not having been able to raise in a very considerable time above 500 Men, and that each of these few, several had deserted; and that the Garrisons of *Navarin* and *Modon* had been sent to serve in *Candia*.

*Lisbone, Octob. 7.* The King of *Portugal* has declared to his Council of State, his resolution to demand in Marriage the Princess of *Niamburg*, and to send the Count *de Villar Mayor* in the quality of his Ambassador to the Elector Palatin her Father, for that purpose.

*Lemberg, Octob. 18.* This week arrived here an Express from the Army, with the news of the Victory which the *Poles* obtained the 4th Instant against the *Turks* and *Tartars*; of whom it's said above 6000 were killed upon the place, and 300 taken prisoners, among which were several of their Principal Officers. Prince *James* was engaged in the hottest of the action, and took one of their chief Commanders prisoner with his own hand; of the *Poles* there were about 1500 killed in this occasion, and among these divers Persons of quality; but what was said of the Prince of *Courland's* being of the number of the slain, proves a mistake. His army was encamped the 12th Instant not far from a place called *Peschani*, between the *Niefter* and the *Pruith*.

*Vienna, Octob. 27.* The Duke of *Lorraine* is expected here in few days; The last Letters from *Buda* told us he was gone from thence towards *Graz*. Of the Troops his Highness brought with him to *Pest*, the Foot were put into *Buda* to reinforce that Garrison, and the Horse and Dragoons were sent under the command of General *Veterani* to joyn the Imperial Forces before *Segedin*, upon the advice his Highness had received that the Seraskier *Achmet* Bassa was marching with a Body of *Turks* and *Tartars* to relieve that place. The Letters from the Imperial Camp commanded by Prince *Louis* of *Baden*, of the 18th Instant, give an account, that having with some difficulty passed the *Drave*, by reason it was extremely swelled by the Rains, they arrived the 15th before *Five Churches*; That the same day they lodged themselves in the Town, and when these Letters came away, were advanced to the foot of the Ramparts of the Castle, in which they had made two breaches, so that we doubt not but our next advices will bring the news that this place is surrendered, or taken by Assault. They write from *Croatia* that Count *Joseph de Rabata*, Governor of *Carelstadt* was marched with 2000 Men towards the Frontiers of *Dalmatia*, to hinder the design of 6000 *Turks*, who, he was informed, were drawn together to make an incursion into the Territories of the Republick of *Venice*. The Republick of *Ragusa* have sent Deputies hither to pray the Emperor to receive them under his Protection, and to include them in the Peace, which his Imperial Majesty shall make with the Port, that so they may be delivered
