

# The London Gazette.

Published by Authority.

From Monday November 15. to Thursday November 18. 1686.

Leghorne, Octob. 25.

**B**Y a Vessel arrived this week from the *Levant*, we have Letters of the 18th of *September* from *Constantinople*, which say, that on the 11th an Express arrived there with the News of the Surrender of *Napoli di Romania*, and the Defeat of the *Seraski*, who attempted to relieve it: That the 13th an Olac or Messenger arrived from *Hungary*, and the day following another, with that of the taking of *Buda* by Assault; And though all possible care was taken to conceal this ill News, yet it quickly got abroad, and spread a Consternation among all sorts of People, that cannot be expressed. The Gallies and Galiers which our great Duke sent to the Assistance of the *Venetians* this Summer, are returned from the *Levant*, but a Bark, having on Board Captain *Sebini* and 60 Soldiers, which was separated from them in bad weather is not yet arrived; And it's feared she may be fallen into the hands of the Corsairs of *Barbary*.

*Genova*, Octob. 28. The Gally of this Republick, which served in the *Levant* with the Pope's Squadron, is returned hither, the Captain having been presented by his Holiness's Order with a Medal of Gold to the value of 300 Pistols; The inferior Officers had likewise Medals of a lesser value. The Senate have, it's said, commanded a general Review to be made of all their Garisons in order to the making some Reform. We have advice that the Pyrats have lately taken a Barque that was going from hence to the Isle of *Corsica*. The Senate have given the Government of that Island to Signior *Agostino di Franodi*, who is accordingly upon his departure thither.

*Lenze*, Novemb. 2. This week sailed several Vessels with Provisions, and the new raised Men which lately arrived at the *Lido*, for the *Mrea*; And another Convoy is preparing, which will be ready in few days. The Senate having resolved to raise several new Regiments against the next Campaign, they have begun to give out Commissions

for that purpose. We have Advice from *Dalmatia*, That the Proveditor-General *Cornaro* continued at *Spalatro*, to observe the Enemy, who seemed to have some design in hand.

*Sambor*, Octob. 22. We have not yet received a particular Relation of the Victory which the Forces of this Crown obtained the 4th of this month against the *Turks* and *Tatars*; And it's feared the Courier that was sent with it, is fallen into the hands of the *Tatars* of *Camniec*, who are continually abroad in small Parties, and have of late taken several Prisoners; In the mean time we have Advice that the Army is come back to *Sniatyn*, and that the Forces are going to separate, to enter into their Winter-quarters.

*Danzick*, Nov. 6. The last letters from *Poland*, tell us that the Campaign was ended on that side; that the Forces were going into their winter quarters, and that the King was on his return to *Sambor*. It's said that his Majesty has resolved to call a Dyet to meet at *Warsaw* about the middle of *January*. They write from *Moscow*, that the *Czars* will have a great Army in the Field the next Summer against the *Tatars*.

*Copenhagen*, Novemb. 1. The King of *Denmark* has, since his return hither from *Holstein*, sent the *Sieur de Leliencroon* to *Vienna*, and the Count *de Reventan* to the Court of *France*; It is said that his Majesty intends to make some new Levies, and to have a considerable Squadron of Ships, at Sea in the Spring.

*Ratibonne*, Nov. 11. The several Colledges of the Dyet have, upon the Memorials of the Deputies of *Mecklenburg* and *Lawenborg*, complaining that those Countries are charged by some of the Neighbouring Princes with Quarters for their Troops, contrary to the Constitutions of the Empire, resolved humbly to represent the same to the Emperor, and to pray his Imperial Majesty to give such Orders thereupon, that not only the Countries above-mentioned, but all the other States of the Empire, which lie at present under the like burthen, may be forthwith freed from it, without being obliged to give any money in lieu thereof. We are told from *Municke*, that above 200 *Turkish* Prisoners had been brought thither, many of which were Officers and persons of some consideration among the *Turks*. The last Letters from *Vienna* are of the seventh instant they given an account of the surrender of *Sybor* and of the march of the Prince of *Baden* towards the Bridge of *Essecke*. These are some advices which say the *Turks* had upon the approach of the Imperialists abandoned the Fortress of *Darda*, and burnt part of the said Bridge; which we hope our next will confirm.

*Strasbourg*, Novemb. 4. The *Sieur de Vauban*, Ingenier General of *France*, arrived here
