TUESDAY, MAY 12, 1857.

Lord Chamberlain's-Office, May 11, 1857.

NOTICE is hereby given, that Her Majesty's Birthday will be celebrated on Tuesday the 26th instant.

Whitehall, May 12, 1857.

THE following Address of congratulation to the Queen, on the occasion of the Birth of another Princess, having been transmitted to the Right Honourable the Secretary of State for the Home Department for presentation, was presented accordingly to Her Majesty, who was pleased to receive the same very graciously.

To the QUEEN'S Most Excellent Majesty.

The humble and dutiful Address of the London Committee of Deputies of the British Jews, for themselves and for the several Congregations they respectively represent.

Most Gracious Sovereign,

WE humbly and dutifully offer to your Majesty our congratulations on the joyous event of the Birth of another Princess, and of your Majesty's convalescence.

It ever affords us the most heartfelt delight, to assure your Majesty of our affection and loyalty, and that we truly rejoice in every event calculated to promote the happiness of your Majesty and of your Majesty's Illustrious Consort.

On behalf of the Board.

Isaac Foligno, President.

Downing-Street, May 8, 1857.

Downing-Street, May 9, 1857.

The Queen has been pleased to appoint William Stevenson, Esq., to be Governor and Commander-in-Chief in and over the Colony of Mauritius and its dependencies.

Board of Trade, Whitehall, May 11, 1857.

THE Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Minister at Lisbon, transmitting a translation of a Decree abolishing the monopoly on soap, and fixing the duty upon importation, as shewn by the annexed extract:

ART. 1. The monopoly of the manufacture of soap is hereby abolished in all the kingdom and adjacent islands, from the 1st July, 1858, when the present contract expires, and the manufacture and trade of this article will be open to all.

ART. 2. Foreign soap, imported through any of the custom-houses of the kingdom and adjacent islands, shall pay the following duties:

Common soap, of any quantity, one mil reis (4s. 6d.) per 100 lbs.
Savonets, six mil reis (£1 7s.) per 100 lbs.

ART. 3. The impost levied for the amortization of the notes of the Bank of Lisbon, by virtue of the laws of 13th July, 1848, 25th June, 1849, and 20th April, 1850, shall henceforth be at the rate of 12 per cent., payable in cash, upon all the duties levied at the custom-houses of the kingdom and islands, with the exception of those levied at the municipal custom-house of Lisbon, which will only be subject to an impost of 10 per cent., and the fishery tax 5 per cent.

ESTABLISHMENT OF A TURKISH PILOT FLAG.

THE Lords of the Committee of Privy Council for Trade have received, through the Secretary of State for Foreign Affairs, the subjoined copy (translation) of a notice issued by the Turkish Foreign Office, relative to the establishment of a Turkish Pilot Flag.

(Translation.)

"It having been reported that men of war and merchant ships, passing through ports in the dominions of the Sultan, sometimes require the services of a pilot, instructions have been sent to the authorities of all places which are ports, for the harbour masters to take a guardian from the Quarantine, visit the ship, ascertain for what place she requires a pilot, and report it to the proper quarter, in order that a pilot may be immediately procured and sent on board at a remuneration, on exhibition by the ship of whatever nation it may be, coming to an Ottoman port, of a flag similar to the one specially designed for the purpose, of which a copy is herewith sent to your Excellency.

"The Ambassadors of all friendly powers having been requested to make the matter known to ship-masters of their respective nations, and to instruct them to act accordingly when about to ask for a pilot, a similar communication is made to your Excellency."

And Thomas Richardson and Edmund John Jasper Browell, of the Laboratory, Neville Hall, Newcastle-on-Tyne, have given the like notice in respect of the invention of "improvements in treating old or waste railway wood, sleepers, and bearers, and in preparing or preserving wood for railway sleepers and bearers, and other works."

1037. And Joseph and Edmund Ratcliff, Chandelier Manufacturers, trading as copartners, at Nos. 59 and 60, St. Paul's-square, Birmingham, in the county of Warwick, have given the like notice in respect of the invention of "an improved mode or modes of adjusting chandeliers."

1042. And Richard Archibald Brooman, of 166, Fleet-street, in the city of London, E.C., Patent Agent, has given the like notice in respect of the invention of "a method of, and apparatus for, disinfecting alcohol, or for separating essential oils therefrom."—A communication from Henri Breton.

As set forth in their respective petitions, all recorded in the said office on the 13th day of April, 1857.

1119. And Amory Fairbanks Sherman, of the city of Roxbury, in the county of Norfolk, in the State of Massachusetts, in the United States of America, but at present residing in Liverpool, in the county of Lancaster, Civil Engineer, has given the like notice in respect of the invention of "improvements in machinery for the manufacture of ropes, strands for ropes, and for other purposes."

1123. And John Chanter and David Annan, of Bow, in the county of Middlesex, have given the like notice in respect of the invention of "improvements in furnaces when moveable fire bars are used."

As set forth in their respective petitions, both recorded in the said office on the 21st day of April, 1857.

1143. And Matthew Dunnett, of Glasgow, in the county of Lanark, North Britain, Manufacturer, has given the like notice in respect of the invention of "improvements in embroidering or sewing, and in machinery or apparatus connected therewith."

As set forth in his petition, recorded in the said office on the 23rd day of April, 1857.

1224. And George Tomlinson Bousfield, of Loughborough-park, Brixton, in the county of Surrey, has given the like notice in respect of the "improvements in collapsible boats and pontoons."—A communication from Nathan Thompson, junior, of Brooklyn (Eastern District), King's County, New York, United States of America.

As set forth in his petition, recorded in the said office on the 30th day of April, 1857.

And notice is hereby further given, that all persons having an interest in opposing any one of such applications are at liberty to leave particulars in writing of their objections to such application, at the said Office of the Commissioners, within twenty-one days after the date of the Gazette in which this notice is issued.

Errata in Gazette of Friday.

1149. For "grain," read "grains."

1165. For, "Samuel Walmsley," read "Samuel Walmsley."

*The Treasury, New South Wales,
27th January, 1857.*

THE following Notices are published for general information.

Stuart A. Donaldson.

**DESCRIPTION OF THE LIGHTHOUSE
AT CAPE MORETON**

The Lighthouse at Cape Moreton is situated in—

Lat..... 27° 0' 3"} By Flinder.
Long. 153° 26' 30"} }

And

Lat..... 27° 2' 54"} By Yule.
Long. 153° 28' 46"} }

It is a white stone tower, 67 feet in height, including the lantern, and shows a white revolving light of the first class, on all points of the horizon seaward, having intervals of 70 seconds between the brightest points.

The light consists of 21 catoptric lamps, on three faces of 7 lamps each, placed in three rows, the upper one containing 2 lamps, the middle 3, and the lower 2.

The lighthouse stands on the summit of the eastern projection of the north-east part of Moreton Island, and a little more than a mile distant from the north extreme of the Island, bearing N.W. by compass.

The centre of the light is 391 feet above the sea at high-water, and its estimated range is 26½ nautical miles.

The following magnetic bearings are taken from the lighthouse:—

Flinder's Rock,—N. ¼ E. 3¼ miles.

Buoy A,—W. by N.

Light vessel,—W. ¼ N.

Variation of compass,—9¼° E.

J. C. WICKHAM.

Government Resident.

*Sailing directions for the North Channel into
Moreton Bay.*

Cape Moreton is the north-eastern point of Moreton Island, and is visible from a ship's deck at the distance of eight leagues.

When first seen from the southward, it appears to be detached, as the land which connects it with the higher parts of the island is very low.

The lighthouse is a conspicuous object on the summit of the Cape.

With the exception of Flinder's Rock, which bears N. ¼ E. from lighthouse, and N.N.E. 3 miles distant from the north projection of the Cape, there does not appear to be any out-lying danger.

Vessels entering Moreton Bay by the north channel should, in coming from the southward, pass about a mile from the north projection of the Cape, and steer W. ¼ N. until the N.W. extreme of the bushes at point Camboyuro is on with "Ship Patch" and bears S. by E.

The light vessel will then bear a little to the southward of S.W. by W., and the lighthouse E. by S. ¼ S.; the depth will then be 7 fathoms at low water, and the black buoy at A (*vide chart*) will bear about S.W. ¼ W. a mile and a third distant.

The Glass House Hills will be seen (in clear weather) as on the sketch, with the highest (Burwa) bearing W. 4° S., but too far distant to be used as a leading mark.

From this point, a course about a degree to the southward of W.S.W. will carry a ship about ¼ of a mile to the northward of the light vessel;

stand on this course until the light vessel is on with Mount Tempest (the highest part of Moreton Island), bearing S. 38° E., you will then be to the westward of the east banks, and may steer a course S.E. ½ S. for Moreton Island, or with Mount Tempest a quarter of a point open on the port bow, keeping a look-out for the effect of the tide on the ship's course. The light vessel may be passed on either side; she is moored S. by W. 3 cables distant from the N.W. shoulder of the eastern banks. The breadth of the channel between the east and west banks is about ¾ of a mile, and the banks are plainly discernible from a slightly elevated position.

There is good anchorage for nearly a mile from the light vessel, in a north westerly direction, in from 4 to 5 fathoms, where an anchor may be safely dropped in the event of wind or tide failing, or in the event of a vessel reaching thus far before dark, as it would not be safe to proceed further in the absence of daylight.

Camboyuro Point is bold of approach and may be passed at a cable's length distant; stand past it until the extreme of the bushes bears north, and then steer south until the "Ship Patch," (sand slope) at Tangalooma Point bears E.N.E. a mile and three quarters distant, when a S.W. ¼ S. course may be steered to an anchorage off the bar of the River Brisbane, in 4 and 4½ fathoms muddy bottom;—the highest trees on "Mud Island" bearing east.

A direct course S.W. by S. to an anchorage off the bar may be steered from Cowan Cowan, by passing to the westward of the Middle Bank off Tangalooma, but as the distance off shore can be more correctly estimated by passing to the eastward of it, the track shewn in the plan had better be adopted until a buoy is placed on the Middle Bank.

The Middle Bank bears W. by S. ½ S., and is two and a half miles distant from "Ship Patch."

The shore between Cowan Cowan and Tangalooma, is fronted by a narrow bank, upon parts of which there is not more than four or five feet water; the south part of this bank is about a mile off shore, inside which there is anchorage which may be gained by passing between it and the "Ship Patch."

There is good anchorage in Yule's Road, off the watering place, about a quarter of a mile from the shore, in 10 or 12 fathoms water, where wood and water can be easily obtained.

Whalers would find this a most convenient place for taking on board either of these articles; the water is supplied by a never failing stream into the bay, and wood can be cut within fifty yards of high-water mark. An anchorage may be taken in 5 and 6 fathoms water on the bank, opposite the Pilots' Station, and more out of the strength of the tide; but the distance from the watering place would be considerably increased.

The soundings on the chart are reduced to the lowest water at spring tides; the rise is from three to seven feet; strong south-easterly winds cause the greatest rise, and during the prevalence of strong westerly winds in the winter; the range of tide is at times scarcely perceptible. The general set of the tide is the flood to the south, and the ebb to the north, but in some places the direction of the stream is varied by the shoals.

In the channel, between the east and west banks, the first of the ebb sets strong to the N.E. over the banks, after half-tide it takes a northerly direction, and latterly about N.N.W. It runs E.N.E. through Freeman's Channel.

Coasters and steamers drawing twelve feet water may use Freeman's Channel with safety,

by keeping about a quarter of a mile off the sandy beach on the north shore of the island; they should not stand to the southward until Cowan Cowan is well open of the extreme of the sandy point at Camboyuro.

In going out by Freeman's Channel a course should be kept to the northward past Camboyuro, until the north extreme of Cape Moreton is open to the northward of the sandy beaches, but the eye is the best guide for this channel.

As Moreton Island is entirely of sandy formation, the banks nearest to the shore are constantly undergoing changes in size and position, therefore it would not be prudent for a stranger to attempt this channel without having a pilot on board.

The ship channel should on all occasions be used by large ships; there is a safe channel through the eastern banks, with seldom less than four fathoms water, which is generally used by steamers and other coasters, but should not be taken by a stranger. As the eastern limit of the north bank has not been ascertained, it will be advisable for vessels coming from the northward, that Mount Tempest should not be brought to bear to the eastward of S. by E. until the lighthouse bears E.S.E., a ship will then be on the channel course, and may steer W. $\frac{1}{2}$ N., and follow the foregoing directions.

The soundings in the channel between the east and north banks will decrease gradually from 7 to 5 fathoms, and after rounding the light vessel will increase to 10 and 12 fathoms, and there will not be less water until *abreast* of Tangalooma Point.

From the Pilot Station to some distance beyond Cowan Cowan, the water is much deeper, and varies from 15 to 20 fathoms.

Ships making Cape Moreton late in the evening will find safe anchorage from 2 to 3 miles inside the north extreme of Cape Moreton, and about a mile and a half off shore, in 6 fathoms water.

The bearings are magnetic. The light vessel has done away with the necessity for the chequered buoy at B, but in the event of her being temporarily removed that buoy will supply her place. The light vessel will shew a double light at night, namely, two vertical lights, with an intervening space of about 5 feet.

J. C. Wickham, Capt. R.N.,
Government Resident.

NOTICE TO MARINERS.

THE Light will be exhibited at the Lighthouse on Cape Moreton, for the first time, on Saturday evening, the 14th February, of which all persons interested are requested to take notice.

Stuart A. Donaldson.

Master of the Rolls.

Thursday the 7th day of May, in the twentieth year of the reign of Her Majesty, Queen Victoria, 1857; in the Matter of the Joint Stock Companies' Winding-up Acts, 1848 and 1849, and of the Nantlle Vale Slate Company.

Extract.

HIS Honour doth order that the said Nantlle Vale Slate Company be absolutely dissolved as from this day, and wound up by the Judge to whose Court this matter is attached, under the provisions of the Joint Stock Companies' Winding-up Acts, 1848 and 1849.
