

"ing of Vestry or other Meetings in Churches, and for regulating the appointment of Vestry Clerks," as relates to the providing of a Room for the purpose of holding Vestry and other Meetings for the transaction of any business of, or relating to, the said parish, shall forthwith be applied to and be put in force within the said parish of Saint Martin.

ARTICLE 2. That a copy of this Order shall be published in the London Gazette.

Given under our hand and seal of office, this twenty-third day of December, in the year one thousand eight hundred and fifty-seven.

E. P. Bouverie, President.

Courtenay, Secretary.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2277. Robert Whittam, of Accrington, in the county of Lancaster, Engraver, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in machinery or apparatus for ruling upon metallic rollers or cylinders for printing calico and other materials."

As set forth in his petition, recorded in the said office on the 29th day of August, 1857.

2296. And Ephraim Taylor, of Blackburn, in the county of Lancaster, Mechanic, has given the like notice in respect of the invention of "improvements in looms."

As set forth in his petition, recorded in the said office, on the 1st day of September, 1857.

2300. And Thomas Hardcastle, of Bradshaw, near Bolton-le-Moors, in the county of Lancaster, Bleacher, Dyer, and Printer, has given the like notice in respect of the invention of "improvements in machinery for washing textile fabrics and fibrous substances."

2303. And James Petrie, of Rochdale, in the county of Lancaster, Engineer, has given the like notice in respect of the invention of "improvements in apparatus for regulating the admission of air to furnaces."

As set forth in their respective petitions, both recorded in the said office on the 2nd day of September, 1857.

2304. And George Frederick Parnell, of the parish of Hoxton, in the county of Middlesex, Warehouseman, has given the like notice in respect of the invention of "improvements in the construction of hooks and eyes."

2309. And Harry Inskip, of Hertford, in the county of Hertford, Seed Crusher, has given the like notice in respect of the invention of "improvements in fire arms."

As set forth in their respective petitions, both recorded in the said office on the 3rd day of September, 1857.

2310. And John Yuil Borland, of the city of Manchester, in the county of Lancaster, Machinist, has given the like notice in respect of the invention of "improvements in machinery for preparing, spinning, winding, and doubling fibrous materials."

2312. And Prosper Bernard Godet, of Paris, France, Gentleman, has given the like notice in respect of the invention of "improvements in stereoscopes."

2314. And Charles William Ramié, of Camberwell, in the county of Surrey, has given the like notice in respect of the invention of "improvements in constructing the permanent ways of railway."

As set forth in their respective petitions, all recorded in the said office on the 4th day of September, 1857.

2323. And John King, of Cannon-street, in the city of London, has given the like notice in respect of the invention of "improvements in the manufacture of boots and shoes, and in machinery for that purpose."—A communication.

2327. And Peter Armand Le Comte de Fontaine Moreau, of London, Paris, and Brussels, Patent Solicitor, has given the like notice in respect of the invention of "an improved time-keeper dial, shewing the exact time in different countries."—A communication.

As set forth in their respective petitions, both recorded in the said office on the 5th day of September, 1857.

2328. And Spilsbury Butler, of Birmingham, in the county of Warwick, Manufacturer, has given the like notice in respect of the invention of "a new or improved hearse."

2331. And Thomas Goodchild, of Guildford, in the county of Surrey, Architect and Surveyor, has given the like notice in respect of the invention of "improvements in stoves and fire-places."

2332. And William Lewis and William Henry Lewis, of the City and State of New York, United States of America, have given the like notice in respect of the invention of "improvements in plate-holders or frames for photographic cameras."

2336. And Uriah Scott, of Camden Town, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "improvements in boots and shoes, applicable in part to shoes for horses."

As set forth in their respective petitions, all recorded in the said office on the 7th day of September, 1857.

2342. And John Marland, of Fernlee Vale, Saddleworth, in the county of York, has given the like notice in respect of the invention of "an improvement in the manufacture of cop tubes."

As set forth in his petition, recorded in the said office on the 8th day of September, 1857.

2350. And Edward Lavender, of 30, Aston-street, Limehouse, in the county of Middlesex, has given the like notice in respect of the invention of "an improvement in distilling products from coal."

As set forth in his petition, recorded in the said office on the 9th day of September, 1857.

2362. And James Harrison, of No. 4, Red Lion-square, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in apparatus for producing cold by the evaporation of volatile liquids in vacuo."

2363. And William Crofts, of Lenton-terrace, Park Side, Nottingham, has given the like notice in respect of the invention of "improvements in the manufacture of various weavings in bobbin net or twist lace machinery."

2364. And Gustav Brüninghaus, of Dortmund, in the Kingdom of Prussia, has given the like notice in respect of the invention of "improvements in the treatment of iron ore (crude iron) for the production of iron and steel."

As set forth in their respective petitions, all recorded in the said office on the 10th day of September, 1857.
