

NOTICE is hereby given, that a separate building, named Bethesda Chapel, situate in Paradise-place, in the parish of Saint Mary, Nottinham, in the district of Nottingham, being a building certified according to law as a place of religious worship, was, on the 12th day of January instant, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm., IV., cap. 85.

Witness my hand this 15th day of January, 1858.

John Sanders, Superintendent Registrar.

NOTICE is hereby given, that a building named St. Mary's Catholic Chapel, situated at Bacup, in the parish of Whalley, in the county of Lancaster, in the district of Haslingden, being a building licensed and used for public religious worship as a Roman Catholic church exclusively, was on the 15th day of January, 1858, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., c. 85.

Witness my hand this 23rd day of January, 1858.

Thomas Woodcock, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2387. Richard Shiers, junior, of Oldham, in the county of Lancaster, Manufacturer, has given notice at the Office of the Commissioners of his intention to proceed with his application for Letters Patent for the invention of "improvements in the manufacture of velvets."

As set forth in his petition, recorded in the said office on the 15th day of September, 1857.

2397. And Richard Wicks, of No. 21, Phoenix-street, Somers Town, in the county of Middlesex, Builder, has given the like notice in respect of the invention of "improvements in furnaces."

2399. And Abram Seward, and Charles Seward, of Lancaster, in the county of Lancaster, Manufacturers, have given the like notice in respect of the invention of "an improved boiler for heating and keeping up circulation in water."

2402. And John Hathornthwaite Winder, of Sheffield, in the county of York, Manufacturer, has given the like notice in respect of the invention of "improvements in rotary steam engines and pumps."

As set forth in their respective petitions, all recorded in the said office on the 16th day of September, 1857.

2411. And Isaac Louis Pulvermacher, of Paris, in the Empire of France, Engineer, has given the like notice in respect of the invention of "improvements in apparatuses for creating electric currents, chiefly for medical purposes."

As set forth in his petition, recorded in the said office, on the 17th day of September, 1857.

2417. And John May Munro, junr., of Bristol, in the city and county of Bristol, has given the like notice in respect of the invention of "an improved metal wheel-stock."

2420. And Charlotte Delevante, of Kimbolton-place, Brompton, in the county of Middlesex, Spinster, has given the like notice in respect of the invention of "improvements in bouquet holders."

2425. And Thomas Wilson, of Bradmore-house, Chiswick, in the county of Middlesex, has given the like notice in respect of the invention of "an improved boot and shoe-cleaning apparatus."

2426. And David Lichtenstadt, of Castle-street, in the county of Middlesex, Chemist, has given the like notice in respect of the invention of "improvements in the manufacture of pulp, of which paper and other fabrics are composed."

2428. And George Edward Dering, of Lockleys, in the county of Hertford, has given the like notice in respect of the invention of "improvements in laying down electric telegraph cables, in obtaining soundings, and in ascertaining the position of and raising submerged electric telegraph cables and other bodies."

As set forth in their respective petitions, all recorded in the said office on the 18th day of September, 1857.

2435. And Montague Richard Leveson, of No. 12, St. Helens-place, in the city of London, has given the like notice in respect of the invention of "improvements in the preparation of food for cattle."—A communication from Frederick Phillipe Auburton, of Paris, in the Empire of France.

2436. And François Cavalerie, of 39, Rue de l'Echiquier, Paris, in the Empire of France, and 4, South-street, Finsbury, London, has given the like notice in respect of the invention of "improvements in motive power engines."

2439. And William Henry Peake, of Liverpool, has given the like notice in respect of the invention of "improvements in the construction of beams, girders, and bridges."

2442. And John Minnitt, of the town of Nottingham, Tallow Chandler, has given the like notice in respect of the invention of "an improvement in extracting grease from animal refuse resulting from the manufacture of glue and from fellmongers' processes."

As set forth in their respective petitions, all recorded in the said office on the 19th day of September, 1857.

2448. And Elizabeth Burton West, of Kent-terrace, Regent's-park, London, lately of 80, St. Stephen's-green, Dublin, and Eyre-court, county of Galway, Ireland, has given the like notice in respect of the invention of "improvements in the manner of preparing and applying materials used in brewing to that purpose, and in the various processes and apparatus used in connection with the same, and for novel apparatus connected with the same."—A communication.

As set forth in her petition, recorded in the said office on the 21st day of September, 1857.

2453. And Meinrad Theiler, of 1, North-terrace, Westminster-road, London, Mechanic, has given the like notice in respect of the invention of a "direct printing telegraph without relais and local battery."—A communication from Franz Theiler, of Einsiedeln, in Switzerland.

2457. And Hesketh Hughes, of Wellington-street, in the county of Middlesex, Engineer, has given the like notice in respect of the invention of "improvements in machinery for cutting, embossing, and stamping."

As set forth in their respective petitions, both recorded in the said office on the 22nd day of September, 1857.

2463. And Frederick Collier Bakewell, of No. 6 Haverstock-terrace, Hampstead, in the county of Middlesex, has given the like notice in re
