

Liverpool, in the county of Lancaster, in the district of Liverpool, being a building certified according to law as a place of religious worship, was, on the 17th day of July, 1858, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 19th day of July, 1858.

*James Echersley*, Superintendent Registrar.

#### Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

**N**OTICE is hereby given, that—

495. Friedrich Ernst Daniel Hast, of Aldermanbury, in the city of London, Merchant, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "an improved mode of manufacturing stearine."—A communication.

As set forth in his petition, recorded in the said office on the 11th day of March, 1858.

520. And Richard Edwards, of 1, Single-street, Canal-road, Mile End-road, London, has given the like notice in respect of the invention of "improvements in preparing and combining materials used in lighting or kindling fires."

526. And Josiah Aked, of Halifax, in the county of York, Manufacturer, and John Crabtree, of the same place, Overlooker, have given the like notice in respect of the invention of "improvements in the arrangement of machinery or apparatus for warping and beaming yarns for weaving."

As set forth in their respective petitions, both recorded in the said office on the 15th day of March, 1858.

533. And George Hall, Ironmonger, of St. John's, in the city of Worcester, of the county of that name, has given the like notice in respect of the invention of "certain improvements in cartridges and gun wads."

As set forth in his petition, recorded in the said office on the 16th day of March, 1858.

550. And Lavington Evans Fletcher, of Upper Norwood, in the county of Surrey, has given the like notice in respect of the invention of "improvements in marine engines and boilers, and their appurtenances."

554. And Sir James Caleb Anderson, of Fermoy, in the county of Cork, Ireland, Baronet, has given the like notice in respect of the invention of "improvements in locomotive and other carriages."

As set forth in their respective petitions, both recorded in the said office, on the 18th day of March, 1858.

563. And Paul François Aerts, of Brussels, in the Kingdom of Belgium, Mechanical Engineer, has given the like notice in respect of the invention of "improvements in the construction of railway rolling stock, and in the lubrication thereof, and other moving parts of machinery."

568. And George Williams, of West Bromwich, in the county of Stafford, Forge and Mill Manager, and Edward Rowley, of West Bromwich aforesaid, Iron Roller, have given the like notice in respect of the invention of "an improvement or improvements in piling iron."

No. 22166.

B

571. And Daniel Evans of No. 15, Railway-terrace, New Town, Stratford, in the county of Essex, has given the like notice in respect of the invention of "an improvement in apparatus for supplying air in streams to furnaces."

574. And John Bramwell, of Buxton, in the county of Derby, Engineer, has given the like notice in respect of the invention of "improvements in apparatus for the prevention of accidents arising from the escape of gas."

As set forth in their respective petitions, all recorded in the said office on the 19th day of March, 1858.

579. And Lambert Cowell, of Adelphi, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in machinery or apparatus for teaching the art of swimming."

585. And Jules Le Franc, of 58, Aldersgate-street, has given the like notice in respect of the invention of "improvements in pressure gauges."—A communication from Jules Rival, residing at Paris.

588. And John Talbot Pitman, of the American and European Patent Offices, 67, Gracechurch-street, London, has given the like notice in respect of the invention of "improvements in the manufacture of soap, and in the apparatus connected therewith."—A communication from Campbell Morfit, of Baltimore, in the State of Maryland, one of the United States of America.

589. And John Talbot Pitman, of the American and European Patent Offices, 67, Gracechurch-street, London, has given the like notice in respect of the invention of "improvements in the mode of preparing and moulding clay into bricks, tiles, pipes, and other similar manufactures."—A communication from a citizen of the United States.

As set forth in their respective petitions, all recorded in the said office on the 20th day of March, 1858.

591. And Edward John Manwaring, of Lee, in the county of Kent, Gentleman, has given the like notice in respect of the invention of "improvements applicable to stereoscopic apparatus."

As set forth in his petition, recorded in the said office on the 22nd day of March, 1858.

600. And Henri Laurent Müller, of Paris, France, Printer, has given the like notice in respect of the invention of "improvements in chromographic printing."

601. And Charles Atherton, of Her Majesty's Dockyard, Woolwich, in the county of Kent, Civil Engineer, has given the like notice in respect of the invention of "improvements in furnaces, fire-grates, and stoves."

603. And William Mould, of Bolton, in the county of Lancaster, Dresser, has given the like notice in respect of the invention of "improvements in machinery or apparatus for preparing and spinning fibrous materials."

607. And Eugène Coulon, of Croisset, near Rouen, France, has given the like notice in respect of the invention of "improvements in preventing the incrustation of steam boilers."—A communication.

As set forth in their respective petitions, all recorded in the said office on the 23rd day of March, 1858.

626. And David A. Hopkins, of Paterson, in the county of Passaic, and State of New Jersey, United States of America, has given the like notice in respect of the invention of "improvements in journal boxes."
