A. M. ATTREE,
By order of the Board.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

710. John Fowler, junior, of No. 28, Cornhill, Engineer, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in apparatus used when ploughing, tilling, or cultivating land by steam power."

As set forth in his petition, recorded in the said office on the 3rd day of April, 1858.

726. And Louis Tétar van Elven, of Clapham-road, in the county of Surrey, Engineer, has given the like notice in respect of the invention of "improvements in apparatuses for raising and lowering weights and bodies."

732. And Charles Henry Chadburn, of Liverpool, in the county of Lancaster, Optician, has given the like notice in respect of the invention of "improvements in pressure-gauges."

736. And Bernard Blanché, of Bordeaux, in the Empire of France, and of 32, Essex-street, Strand, London, Merchant, has given the like notice in respect of the invention of "using Malacca and Manilla cane instead of whale-bone."

As set forth in their respective petitions, all recorded in the said office on the 6th day of April, 1858.

740. And Etienne Pierre Sibille, of 11, Conduit-street, Regent-street, London, has given the like notice in respect of the invention of "a new apparatus for warming or cooling atmospheric air, water, and all liquids of a similar density to it, warming them to the degree of heat necessary for their transformation into steam."

743. And William Armand Gilbee, of No. 4, South-street, Finsbury, London, Patent Agent, has given the like notice in respect of the invention of "an improved machine for corking bottles."—A communication.

745. And William Armitage, of Farnley Iron Works, and Henry Lea, both of Farnley, near Leeds, in the county of York, have given the like notice in respect of the invention of "certain improvements in the manufacture of iron."

750. And James Doherty, of Edinburgh, in the county of Mid-Lothian, North Britain, Foreman Tailor, has given the like notice in respect of the invention of "improvements in buttons or dress fastenings."

As set forth in their respective petitions, all recorded in the said office on the 7th day of April, 1858.

756. And George Edward Taylor, of Oatlands, Leeds, has given the like notice in respect of the invention of "improvements in machinery for raising the pile of cloths."
