

A *fixed red* light is exhibited from the end of Sandridge jetty; a *fixed green* light from the end of Sandridge railway pier; and a *fixed red* light from the end of the old jetty at Williams Town. All three lights are visible seaward at a distance of 3 miles.

[All bearings are magnetic. Variation $5\frac{1}{2}^{\circ}$ E. in 1858.]

By command of their Lordships,
John Washington, Hydrographer.
Hydrographic Office, Admiralty, London,
1st October, 1858.

This notice affects the Admiralty Plan of Port Phillip, No. 1171; and Australia Lights List, published in September, 1858, Nos. 94, 95, 96, and 97.

NOTICE TO MARINERS.

(No. 68.) MEDITERRANEAN SEA—ISLAND OF MALTA.

Fixed Lights, Valletta Harbour,

THE Superintendent of Ports at the Island of Malta has given notice, that on after the 1st day of November, 1858, two *fixed red* vertical lights will be exhibited, at an elevation of 55 and 80 feet respectively above the level of the sea, from the white circular tower, 41 feet high, standing S.S.E. $\frac{3}{4}$ E. 23 yards within the north-west angle of Fort Ricasoli, at the entrance of Valletta great harbour.

The lights will be visible in clear weather at a distance of 4 miles, and will illuminate seaward from E. $\frac{1}{2}$ N., round northerly and up the harbour, to S.W. by W. $\frac{3}{4}$ W., or in the direction of the mark buoy off Senglea Point, when bearing S. $\frac{1}{4}$ E. they will lead just clear of the mark buoy off St. Elmo point; and by keeping them in sight when proceeding up the harbour, they will lead clear of St. Angelo and Senglea points.

[All the bearings are magnetic. Variation $13\frac{1}{4}^{\circ}$ W. in 1858.]

By command of their Lordships,
John Washington, Hydrographer.
Hydrographic Office, Admiralty, London,
4th October, 1858.

This notice affects the following Admiralty Charts—Mediterranean Sea, General Chart, No. 2158; Maltese Islands, No. 194; and Valletta Harbours, No. 195.

NOTICE is hereby given, that a separate building, named the Primitive Methodist Chapel, situate at Swan-street, in the parish of Loughborough, in the county of Leicester, in the district of Loughborough, being a building certified according to law as a place of religious worship, was, on the 12th day of October, 1858, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 13th day of October, 1858.
Jno. Coates, Superintendent Registrar.

In the Court for the Relief of Insolvent Debtors at Calcutta.

In the Matter of the Asiatic Marine Insurance Office.

NOTICE is hereby given, that by an order made in the matter, bearing date the 7th day of August last, it is ordered that such of

the creditors of the said Asiatic Marine Insurance Office, as have not already come in and proved their debts, do come in and prove their several claims against the said Asiatic Marine Insurance Office, on or before the 1st Saturday in the month of March, 1859.—4th September, 1858.

Denman and Hatch, Attorneys for the Official Assignee, Calcutta.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

1271. Alexandre Manbré, of Rathbone-place, in the county of Middlesex, Brewer, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "an improved method of preparing malt and other grain, and in extracting the saccharine matter therefrom, whether for the purposes of brewing, distilling, or otherwise."

1275. And George Hadfield, Varnish Manufacturer, of Carlisle, in the county of Cumberland, has given the like notice in respect of the invention of "improvements in the protection of carboys or other vessels and packages."

As set forth in their respective petitions, both recorded in the said office on the 5th day of June, 1858.

1278. And John Jephson Rowley, of Rawthorne, near Chesterfield, has given the like notice in respect of the invention of "improvements in apparatus for applying lime, soot, and other matters to turnips and other crops, and manure to land."

As set forth in his petition, recorded in the said office on the 7th day of June, 1858.

1301. And Edward Clarke Grimshaw, of Denton, in the county of Lancaster, Block-Turner, has given the like notice in respect of the invention of "improvements in furnaces and steam boilers."

1304. And John Easterbrook, of the firm of Easterbrook and Allcard, of Sheffield, in the county of York, Tool Manufacturers, has given the like notice in respect of the invention of "an improvement in ratchet braces."

1305. And Philibert Dumont, of Southwark-square, Borough, in the county of Surrey, Gentleman, has given the like notice in respect of the invention of "improved implements for distributing or applying powder."

1307. And Henry Rollinson, of Stepney, in the county of Middlesex, has given the like notice in respect of the invention of "an artificial fuel."

1308. And Thomas Robinson, of Manchester, in the county of Lancaster, Brass Founder, and Heth Ogden, of the same place, Engineer, have given the like notice in respect of the invention of "improvements in safety lamps, and in apparatus connected therewith."

As set forth in their respective petitions, all recorded in the said office on the 9th day of June, 1858.

1319. And James Stead Crosland, of Ashton-under-Lyne, in the county of Lancaster, Engineer, has given the like notice in respect of the invention of "certain improvements in steam engines."
