

Somerset House, London, January 29, 1859.

NOTICE. - By order of the Commissioners of Inland Revenue, the place for the receipt of Corn Returns at Long-Sutton, in Grantham Collection, is now at the Market House, Long-Sutton.

Thos. Dobson, Assistant Secretary.

NOTICE is hereby given, that a separate building, named Ebenezer, situated at Thomas-town in the parish of Merthyr Tydfil, in the county of Glamorgan, in the district of Merthyr Tydfil, in the counties of Glamorgan and Brecon, being a building certified according to law as a place of religious worship, was, on the 24th day of January, 1859, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 27th day of January, 1859.

Frank James, Superintendent Registrar.

Whiston Rectory, January 17, 1859.

NOTICE is hereby given, that in pursuance of the powers and provisions in that behalf, contained in an Act passed in the fifty-sixth year of the reign of His late Majesty King George the Third, intituled "An Act for inclosing lands in the parish of Whiston, in the county of York," application is intended to be made at the General Quarter Sessions of the Peace, to be holden in and for the West Riding of the said county of York, at Pontefract, on the 4th day of April now next ensuing, to have two persons, named and appointed by the justices then and there assembled, to be (together with a third person, to be named and chosen by such two persons) arbitrators or referees for inquiring into and ascertaining, in manner directed by the said Act, the average price of a Winchester bushel of good marketable wheat, within the said county of York, for the seven years then last past.

W. HOWARD, Rector of Whiston.

In the Matter of letters patent for Great Britain, dated the 26th day of February, 1857, granted to Walter Macfarlane, of Glasgow, in the county of Lanark, North Britain, Engineer, for his invention of "improvements in moulding or manufacturing cast iron pipes."

NOTICE is hereby given, that Walter Macfarlane, of Glasgow, in the county of Lanark, North Britain, Engineer, has applied by petition to the Commissioners of Patents, according to the statute in that case made and provided, for leave to enter a disclaimer and memorandum of alteration of parts of the specification of the said letters patent.

*Henry Ward, No. 51, Lincoln's-inn-fields,
Agents for the said Walter Macfarlane.*

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2126. Theodore Byron Hubbell, of Regent-street, in the city of Westminster, Gentleman, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "an improvement in hooped petticoats."—A communication.

2127. And John Hope, of the State of Rhode Island, of the United States of America, has given the like notice in respect of the invention of "an improved calico printing roller."

2129. And Thomas Howe, of Millwall, Poplar, has given the like notice in respect of the invention of "improvements in smiths' forges."

As set forth in their respective petitions, all recorded in the said office on the 22nd day of September, 1858.

2140. And Daniel Grant, of Ludgate Hill, in the city of London, Printer, has given the like notice in respect of the invention of "improvements in colour-printing presses."

As set forth in his petition, recorded in the said office on the 23rd day of September, 1858.

2146. And Henry Henson Henson and William Frederick Henson, both of 38, Parliament-street, in the city of Westminster, have given the like notice in respect of the invention of "improvements in waterproofing leather woven fabrics, fibrous, and other materials, and also of rendering them fire-proof, or partially fire-proof."

2147. And Rudolph Bodmer, of 2, Thavies-inn, Holborn, in the city of London, has given the like notice in respect of the invention of "an improved apparatus for preventing explosion in steam boilers."—A communication.

2150. And George Leedham Fuller, of Lombard-street, in the city of London, Civil Engineer, has given the like notice in respect of the invention of "improvements in steam engines."

As set forth in their respective petitions, all recorded in the said office on the 24th day of September, 1858.

2161. And William Lander, of the city of Bristol, Engraver, has given the like notice in respect of the invention of "improvements in engraving and printing for the purpose of ornamenting china and earthenware."

As set forth in his petition, recorded in the said office on the 27th day of September, 1858.

2164. And Edwin Lewthwaite, of Halifax, in the county of York, Clock and Watch Maker, and George Ambler, of Queenshead, near Halifax aforesaid, Clock and Watch Maker, have given the like notice in respect of the invention of "improvements in clocks, watches, chronometers, and other timepieces."

2165. And Benjamin Jones, Iron Founder, of the city of York, has given the like notice in respect of the invention of "improvements in press wheel rollers or clod crushers, which improvements are also applicable to rollers for crushing, bruizing, and pulverizing roots and other substances."

As set forth in their respective petitions, both recorded in the said office on the 28th day of September, 1858.

2172. And George Tomlinson Bousfield, of Loughborough-park, Brixton, in the county of Surrey, has given the like notice in respect of the invention of "improvements in apparatus for and in the manufacture of paper bags and other similar articles."—A communication.

As set forth in his petition, recorded in the said office on the 29th day of September, 1858.

2203. And Louis A. Normandy, junior, of 67, Judd-street, London, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in the manufacture of sulphate of copper."—A communication.

As set forth in his petition, recorded in the said office on the 4th day of October, 1858.
