Jos. W. Terry, General Manager.

Patent Law Amendment Act, 1852.
Office of the Commissioners of Patents for
Inventions.

NOTICE is hereby given, that—

2264. Horatio Stead, of the firm of Elkanah Hoyle and Sons, of Halifax, in the county of York, Millwrights, and Henry Gledhill, of the same place, Stuff-Finisher, have given notice at the Office of the Commissioners of their intention to proceed with their application for letters patent for the invention of "improvements in finishing textile fabrics, and in the means or apparatus employed therein."
- As set forth in their petition, recorded in the said office on the 18th day of September, 1860.
2289. And John Henry Taylor, of Lee-terrace, Blackheath, in the county of Kent, a Captain in the Merchant Service, has given the like notice in respect of the invention of "improved apparatus for lowering ships boats, and disengaging same from the tackles."
2290. And Victor Hippolyte Laurent, of Plancherles-Mines, Département de la Haute Saone, France, Engineer, has given the like notice in respect of the invention of "improvements in machinery or apparatus for forging nails, screws, bolts, rivets and railway spikes."
2292. And John Cash and Joseph Cash the younger, both of the city of Coventry, Manufacturers, have given the like notice in respect of the invention of "an improvement in the manufacture of frillings to be applied to wearing apparel."
2296. And Thomas Richardson, of Newcastle-upon-Tyne, Manufacturer, and Manning Prentice, of Stowmarket, Suffolk, Manufacturer, have given the like notice in respect of the invention of "improvements in treating phosphoric matters, and in obtaining products therefrom."
- As set forth in their respective petitions, all recorded in the said office on the 20th day of September, 1860.
2310. And Thomas Fallows, of Farnworth, near Bolton-le-Moors, in the county of Lancaster, Spindle Maker, and Richard Wild, of Bolton-le-Moors aforesaid, Ironmonger, have given the like notice in respect of the invention of "improvements in fasteners for window sashes."
2312. And John Tomlinson, of the town and county of the town of Nottingham, Police Constable, has given the like notice in respect of the invention of "improvements in fire-engines."

2315. And John Jephson Rowley, of Rowthorne near Chesterfield, Derbyshire, has given the like notice in respect of the invention of "improvements in machinery for cutting or clipping hedges."
2316. And Joseph Henry Tuck, of Great George-street, Westminster, has given the like notice in respect of the invention of "improvements in air pumps, and in machinery for actuating the same."
- As set forth in their respective petitions, all recorded in the said office on the 22nd day of September, 1860.
2324. And Josiah Vavasseur, of 28, Gravel-lane, Southwark, in the county of Surrey, Engineer, has given the like notice in respect of the invention of "improvements in machinery for rolling or polishing leather."
- As set forth in his petition, recorded in the said office on the 25th day of September, 1860.
2335. And Walmsley Hargreaves, of Crawshaw Booth, near Rawtenstall, in the county of Lancaster, Gentleman, has given the like notice in respect of the invention of "improvements in machinery or apparatus for washing woven fabrics."
2336. And Charles Burn, of Delahay-street, Westminster, Civil Engineer, has given the like notice in respect of the invention of "improvements in the tram-rails of street railways to prevent horses slipping thereon."
2337. And Charles Burn, of Delahay-street, Westminster, Civil Engineer, has given the like notice in respect of the invention of "an improved tram-rail for street railways."
- As set forth in their respective petitions, all recorded in the said office on the 26th day of September, 1860.
2357. And John Alexander Callander, of Springfield House, near Ryde, in the Isle of Wight, has given the like notice in respect of the invention of "an improved method of hanging doors."
- As set forth in his petition, recorded in the said office on the 28th day of September, 1860.
2361. And Alphonse Delesalle, of Lille, in the Département of the Nord, in the Empire of France, Manufacturer, has given the like notice in respect of the invention of "means and apparatus used in steam engines for expelling out of the cylinders the condensed water, and to employ this water for the alimentation of boilers."
