

Somerset House, London, March 8, 1861.

NOTICE.—By order of the Commissioners of Inland Revenue, the place for the receipt of Corn Returns at Newport, in the Isle of Wight Collection, will, in future, be in Crocker-street, Newport.

Thos. Dobson, Secretary.

Inland Revenue Office, Somerset House, London, March 11, 1861.

The Commissioners of Inland Revenue hereby give notice, that a Warehouse belonging to Mr. John Shaw, situate in High-street, Hull, in Hull Collection, has been approved as a General Warehouse for the deposit therein of British Spirits.

By the Board,

Thos. Dobson, Secretary.

NOTICE is hereby given, that a separate building, named George-yard Chapel, situate in George-yard, Lowgate, in the parish of Saint Mary, in the county of the town of Kingston-upon-Hull, in the district of Hull, being a building certified according to law as a place of religious worship, was, on the 6th day of March, 1861, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 7th day of March, 1861.

Jno. Jos. Thorney, Superintendent Registrar of the District of Hull.

NOTICE is hereby given, that a separate building, named Ebenezer Chapel, situated at Combmartin Town, in the parish of Combmartin, in the county of Devon, in the district of Barnstaple, being a building certified according to law as a place of religious worship, was, on the 6th day of March, 1861, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 7th day of March, 1861.

John Barry, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2630. Edmund Keogh Dwyer, of Pimlico, in the county of Middlesex, Gentleman, has given notice at the office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in machinery for doubling, creasing, and folding cloth."

2631. And Frederick Henry Elliott, of the Strand, in the county of Middlesex, Mathematical Instrument Maker, has given the like notice in respect of the invention of "an improved case for aneroid barometers for marine purposes."

As set forth in their respective petitions, both recorded in the said office on the 27th day of October, 1860.

2646. And Alexander Southwood Stocker, of Wolverhampton, in the county of Stafford, Manufacturer, has given the like notice in respect of the invention of "improvements in the manufacture of horse and other shoes, and in the machinery or apparatus to be employed therein, part of which improvements are also applicable to metal boot heels and various other articles."

2649. And Michael Henry, of 84, Fleet-street, in the city of London, Patent Agent, has given the like notice in respect of the invention of "an improved method of manufacturing railway wheel tyres and other articles of steel."—A communication to him from abroad by Pierre Sabatier and Nicolas Theophile Deyeux, of 33, Boulevard Saint Martin, Paris.

As set forth in their respective petitions, both recorded in the said office on the 29th day of October, 1860.

2660. And William Bull, of Great George-street, Westminster, has given the like notice in respect of the invention of "improvements in the permanent way of railways, and in connection therewith."

2662. And Louis Martin, of No. 6, Tenison-street, York-road, Lambeth, in the county of Surrey, and Oliver Penfold, of No. 4, Blackmoor-street, Drury-lane, in the county of Middlesex, have given the like notice in respect of the invention of "improvements in the manufacture of candles."

2666. And James Anderson, of Belfast, in Ireland, and of 23, Billiter-street, in the city of London, Felt Manufacturer, has given the like notice in respect of the invention of "improvements in the manufacture of felt, and in the mode of applying the same to railways and to other uses."

As set forth in their respective petitions, all recorded in the said office on the 31st day of October, 1860.

2671. And E. Freeman Prentiss, of the city of Philadelphia, in the United States of America, Manufacturing Chemist, has given the like notice in respect of the invention of "improvements in the combination of chemical materials for scouring, bleaching, and dyeing wool, cotton, silk, and other materials."

2673. And William Edwards, of the city of Manchester, Engineer, has given the like notice in respect of the invention of "a self acting apparatus for regulating and adjusting the pressure of gas and other fluids."

2674. And William Edward Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "an improved mode of preparing or insulating electric conductors for telegraphic purposes, either on land or under water."—A communication to him from abroad by Messrs. Claes Van den Nest and Co., of Menin, in the Kingdom of Belgium.

As set forth in their respective petitions, all recorded in the said office on the 1st day of November, 1860.

2679. And Jules Chaumonnot-Delaroithière, of 2, Rue St. Appoline, Paris, France, and of 4, South-street, Finsbury, London, England, a Mechanician, has given the like notice in respect of the invention of "some improvements in stocking-frames."

2684. And James Leonard and Bernard Lorentz, of Skinners-place, Size-lane, in the city of London, have given the like notice in respect of the invention of "improvements in the manufacture of ornamented woven fabrics when chenille is employed."

2685. And George Hamilton, of 3, Royal Exchange, in the city of London, has given the like notice in respect of the invention of "improvements in locks."
