

293. To James Lee Norton, of No. 38, Belle Sauvage-yard, Ludgate-hill, in the city of London, for the invention of "improvements in beating, stretching, and drying fabrics, and in the apparatus employed therein, part of which apparatus is also applicable for thrashing linseed."—The result partly of a communication from abroad, made to him by William Aldon, of 28, Boulevard Bonne Nouvelle, Paris, in the Empire of France, and partly of invention and discovery made by himself.
295. To John Greenwood, of Portland Mills, Bradford, in the county of York, Worsted Spinner, for the invention of "improvements in means or apparatus for preparing and combing wool and other fibres."
297. And to James Webster, of Birmingham, in the county of Warwick, Engineer, for the invention of "improvements in gas fittings."
- On their several petitions, recorded in the Office of the Commissioners on the 4th day of February, 1862.
299. To Daniel Gallafent, of 15, Stepney Causeway, in the county of Middlesex, Engineer, for the invention of "certain improvements in the mode or modes of generating or producing elastic vapours to be used as a motive power."
300. To William Edward Taylor, of Enfield, near Accrington, in the county of Lancaster, Cotton Spinner and Manufacturer, for the invention of "certain improvements in carding engines."
301. To John King, of Chadshunt, in the county of Warwick, Farmer, for the invention of "improvements in lubricators for lubricating the moving parts of machinery."
302. To Edward Fisher Smith, of Dudley, in the county of Worcester, Agent, and Thomas Swinnerton, of Dudley aforesaid, Blast Furnace Manager, for the invention of "improvements in the manufacture of coke, and in kilns or ovens for the manufacture of coke."
303. To John Browning, of the Minories, in the city of London, Optician, for the invention of "improvements in aneroid barometers."
304. To Henry Ashworth, of Littleborough, in the county of Lancaster, Manufacturer, for the invention of "certain improvements in machinery or apparatus employed in spinning cotton, and other fibrous substances."
305. To Edward Harrison, of Oldham, in the county of Lancaster, Schoolmaster, for the invention of "a certain compound, or certain compounds, to be used as a substitute for gunpowder."
307. To Jesse Lee of Church-gate, in the borough of Leicester, Engineer, for the invention of "improvements in traction engines."
308. To John Bellamy Payne, of Chard, in the county of Somerset, Engineer and Lace Manufacturer, for the invention of "improvements in the treatment or preparation of hemp, flax, and other analogous fibrous substances for spinning."
309. And Alfred Vincent Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Mechanical Draughtsman, for the invention of "an improvement in fire arms."—A communication to him from abroad, by Caleb Hannum Bradley and Gideon Miles, of West Chester, Pennsylvania, United States of America.
310. To Charles Calow, of Newton Heath, near Manchester, in the county of Lancaster, Pattern Maker, and John William Hirst, of the city of Manchester aforesaid, Machinist, for the invention of "improvements in slide valves, for steam engines and other similar purposes."
312. To James Pitkin, of Clerkenwell, in the county of Middlesex, Philosophical Instrument Maker, for the invention of "an improvement in aneroid barometers."
314. To Robert Shortrede, of Brighton, in the county of Sussex, Colonel in Her Majesty's Indian Army, for the invention of "improvements in the construction of ships of war with armour plates."
316. To Michael Henry, of 84, Fleet-street, in the city London, Patent Agent, for the invention of "improvements in obtaining and applying motive power, and raising and forcing fluids, and in apparatus employed therein."—A communication to him from abroad by Louis Coignard, of 33, Boulevard Saint Martin, Paris, France.
318. To Edward Taylor Bellhouse, of Manchester, in the county of Lancaster, Engineer, and William John Dorning, of the same place, Engineer, for the invention of "improvements in the construction of hydrostatic presses, suitable for packing and compressing cotton and other materials."
320. And to John Tonkin the younger, of Pool, in the parish of Illogan, in the county of Cornwall, for the invention of "improvements in the manufacture of gunpowder."
- On their several petitions, recorded in the Office of the Commissioners on the 6th day of February, 1862.

Erratum in Gazette of 7th February.

179. For "veneering," read "renewing."

In Chancery.

In the Matter of the Joint Stock Companies Winding-up Acts, 1848 and 1849, and 1857; and in the matter of the Wheal Anne Mining Company.

NOTICE is hereby given, that a Petition for the dissolution and winding up of the above-named Company, was, on Saturday, the 8th day of February, 1862, presented to the Master of the Rolls, in England, by James Brecknock Palmer, of Hebron Cottage, *Grove-lane, in the parish of Camberwell, in the county of Surrey, Gentleman, a Shareholder in the said Company (omitted in the last Gazette)*; and it is expected such petition will be heard before the Master of the Rolls, on Saturday the 22nd day of February, 1862; and any person desirous to oppose the making of an Order absolute for the dissolution and winding up of the said Company, under the said Acts, should appear at the time of hearing by himself or his counsel for that purpose; and a copy of the petition will be furnished to any contributory of the said Company requiring the same by the undersigned, on payment of the regulated charge for the same.

*Fredk. Wm. Snell*, Solicitor for the Petitioner, No. 1, George-street, Mansion-house, London.

On their several petitions, recorded in the Office of the Commissioners on the 5th day of February, 1862.
