Windsor, August 15.

THE following Addreffes have been Presented to the King, which His Majesty received very Graciously.

To the King's most Excellent Majesty,

The humble Address of the Mayor, Deputy-Recorder, Aldermen, Bayliffs, and Burgesses of the Corporation of New Windsor.

**W**E Your Majesties most Obedient Loyal Subjects, being highly sensible of God's great Goodness and Mercy to us, in placing Your Majesty upon the Throne of Your Royal Progenitors; making Your Subjects happy under the Government of so Great and Prudent a King; do render our humble and hearty Thanks to God Almighty for the same, and to You (Great SIR,) for Your Gracious Declaration of Indulgence; by which You have made all Your Subjects easie in the free Exercise of their Religion, as well as secure in the Enjoyment of their Properties.

And we do assure Your Majesty, that we are, and ever will be, ready to serve Your Majesty with our Lives and Fortunes, as becomes Loyal Subjects, and True Sons of the Church of England.

To the King's most Excellent Majesty,

The humble Address of the Grand Jury for the County Palatin of Durham, at the Assizes held there the One and twentieth day of July, 1687.

May it please Your Majesty,

**W**E Your Majesties most Dutiful and Obedient Subjects, being highly sensible of Your Majesties Princely Care in preserving our Rights, Properties, and Liberties, as appears in Your Majesties late Royal Declaration; do think our selves obliged upon this opportunity, to return our most humble Thanks to Your Majesty: And withal, to assure Your Majesty, that we shall always endeavour to maintain Your Crown and Dignity; and shall for ever pray for the Preservation of Your Majesty, and the continuance of Your Reign, in Health, Wealth, Peace, and Prosperity.

**Batavia, Decemb. 12.** The Old King of Bantam was removed about a month since from the Custody he was under at the Town of Bantam; for there having been several disturbances raised by the endeavours of some to set him at Liberty, though to the disadvantage of those concerned in it: And the Young King therefore fearing that the many provocations he meets with upon this account, may tempt him to abate off and lessen the respect he owes to his Father; it has been thought advisable, that the Old King should be carried to Batavia, who was accordingly conducted hither with a formal Solemnity, where he is now lodged in the Castle with his Wives and some Slaves.

**Vienna, August 10.** We have no fresher Advices from the Army than the 10th of the last month;

from whence it is concluded, that the Duke of Lorraine is forming a design which is to be kept secret till its execution. An Express arrived this morning sent from Prince Lewis of Baden, reports, That the Turkish Army is all on this side of the Drave; and encamped as regularly as if they had been instructed by the ablest Masters of Europe; so that there was no great prospect of attacking them in their Retrenchments; though before he was come a League from the Army, he heard great and continued Shooting, which he knew no reason for, unless there should be some Engagement. It is believed, that General Veterani may be arrived before *Apria* with the Regiments of *Picolomini*, *St. Croix*, *Hannner*, *Herbeville*, and *Dervin*; and that something may be attempted on that side. The Duke of Mantua was at Buda the 31st past, waiting the return of a Courier that he had sent to the Duke of Lorraine before he set forward for the Army. *Hamburg, Aug. 2.* The King of Denmark sent a Letter last week to this Senate, Citing the whole Body, and six of them by Name, to appear before his Majesty's Court of Chancery at *Gluckstadt*, there to answer to what should be objected against them: Copies of the said Letter have been sent to the Elector of Brandenburg and the House of Lunenburg. We hear, that the *Sieur Hope*, Envoy from the States of the United Provinces, to the Elector of Brandenburg in his Passage to that Court, had been successful in clearing up some points that might otherwise have occasioned a misunderstanding between the the House of Lunenburg and the said Elector.

**Amsterdam, August 18.** We have this account of the Cargo of 7 of the East-India Ships lately returned, whose Names are the *Helder*; the *Arms of Alcmær*, *Princeland*, and *Langewijk*; all for the Chamber of Amsterdam; the *Schoonwaai* for the Chamber of Zealand; the *Voorschotten* for the Chamber of Delft; and the *Cronenburg* for the Chamber of Rotterdam; from *Bergale*, the Coast of *Cormondel*, and *Ceylon*; which parted thence in December, 1686, and January, 1687; laden with 1500466 pounds of Black-pepper, 1382607 l. of Salt Peter, 210100 l. of *Siam's* Sapan-wood, 213839 l. of *Caleatour's*-wood, 198080 l. of Cinamon, 13976 l. of preserved Ginger, 60020 l. of Tin, 112595 l. of raw Bengal Silk, 24½ l. of Silk of Huissies, 151½ l. of stitching and sowing Silk, 19726 l. of *Florette* Yarn, 12795 of Cotton-Yarn, 6003 l. of Sealing-Wax, 102 l. of *Lacker*, 22800 l. of *Cardamums*, 112730 l. of *Cauris* of *Bouffies*, 112760 l. of *Indigo* of several sorts, 817 Caps of Oyl of *Camphire*; 24000 pieces of Taffeta's; 234 pieces of Commerbands with Gold Flowers, 42 pieces of Cuffen Stuffs, 2000 pieces of *Lhymenia's*; 4000 pieces of *Golga's*, 497 pieces of *Souffies*, 1599 pieces of Taffeta's of *Foula*, 1632 pieces of Silk Stuffs of divers sorts, 331 pieces of Gold, Silver, and Silk Stuffs, 500 pieces of *Mouris* of several sorts, 57160 pieces of *Salampores*, 12800 pieces of *Parcattees*, 8174 pieces of *Malle-molehs*, 9459 pieces of *Calloes* of *Bengall*, 11862 pieces of *Dourias*, 4172 pieces of *Hummums*, 932 pieces of *Sannqes*, 320 pieces of *Dongarees*, 1000 pieces
