John Bury, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2309. Richard Couchman, of Noble-street, St. Martin's le Grand, in the city of London; Manufacturer, has given notice at the Office of the Commissioners of his intention to proceed with his application for Letters Patent for the invention of "improvements in articles or instruments

for supporting, holding, or carrying parasols, bags, watches, ornaments, or other articles or appendages."

As set forth in his petition, recorded in the said office on the 19th day of September, 1863.

2322. And Anne Abbey Downes, of Stonnall, in the county of Stafford, Spinster, has given the like notice in respect of the invention of "improvements in artificial teeth."

2323. And Goudchaux Alcan, of Chaumont, in the Empire of France, Gentleman, Administrator of the personal estate and effects of the late Emile Alcan, of King-street, in the city of London, Merchant, deceased, has given the like notice in respect of the invention of the said Emile Alcan of "improvements in shears for cutting metal threads, wires and rods, applicable also for gauging wires."—A communication to him from abroad by Leon Gauchez, of Brussels, Belgium.

As set forth in their respective petitions, both recorded in the said office on the 21st day of September, 1864.

2333. And Joseph Renshaw and John Haworth, both of the city of Manchester, Machinists, have given the like notice in respect of the invention of "improvements in machinery for stretching woven fabrics."

As set forth in their petition, recorded in the said office on the 22nd day of September, 1863.

2343. And William Galloway and John Galloway, both of Manchester, in the county of Lancaster, Engineers, have given the like notice in respect of the invention of "improvements in lubricating journals of revolving shafts and axles, and in the apparatus employed for that purpose."

2345. And Walter Gibb, of Eccles, in the county of Lancaster, Spinner and Manufacturer, and James Holland, of the same place, Manager, have given the like notice in respect of the invention of "improvements in looms for weaving."

2346. And William Thomas Eley, of the firm of Eley, Brothers, of Gray's-inn-road, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in the manufacture or construction of ball cartridges."

As set forth in their respective petitions, all recorded in the said office on the 23rd day of September, 1863.

2350. And Adolphe Ernest Ragon, of Caroline-street, Bedford-square, in the county of Middlesex; has given the like notice in respect of the invention of "improved machinery or apparatus for stirring or mixing various ingredients or materials to a pasty consistence, the said machinery being especially adapted to the manufacture of bread and other articles of food."—A communication to him from abroad by Charles Constant Simonet de Changy, of Arras, in the French Empire.

2351. And William Woofe, of the city of Gloucester, Agriculturalist, has given the like notice in respect of the invention of "improvements in implements for tilling the soil, and in means of drawing ploughs, and other implements for tilling through the land."

2357. And John Sturgeon, of Leeds, in the county of York, Consulting Engineer, has given the like notice in respect of the invention of "improvements in machinery for cutting and boring coal and rocks."

As set forth in their respective petitions, all recorded in the said office on the 24th day of September, 1863.
