Grundkal and Finngrund Light Vessels.

THE Royal Marine Department at Stockholm has given notice, that from the opening of the navigation of the Sea of Aland in spring, until it is closed by ice in autumn, the following signals will be exhibited at Understen Lighthouse, to make known to passing ships by day, should the Grundkal and Finngrund light vessels not be lying at their respective stations.

A black-painted double cone (a basket, sharp pointed at either extremity) shown over a red

painted globe (a basket ball), signifies that neither of the above light vessels are at their stations. The black painted double cone shown alone, signifies that the Finngrund light vessel is not at her station; and the red painted globe shown alone, that the Grundkal light vessel is not at her station. When no signal is exhibited, it is to be understood that both light vessels are at their respective stations. Understen lighthouse is in lat 60° 16' 15" N., long. 18° 55' 20" East of Greenwich.

Also, that a red painted globe will be hoisted at Svartklubb lighthouse station, in lat. 60° 10' 20" N., long. 18° 50' E., should it be known at that station that the passage called the Oregrund Grepen, is beset with drift or fast ice. Also, that in order to prevent confusion, the two sunken rocks, Engelska and Lansmans, lying in the northern part of the Oregrund Grepen, will henceforth be marked as follows:—the Engelska with a red painted beacon surmounted by a red ball; and the Lansmans with a black painted beacon surmounted by two black balls.
