TUESDAY, SEPTEMBER 26, 1865.

AT the Council Chamber, Whitehall, the 22nd day of September, 1865.

By the Lords of Her Majesty's Most Honourable Privy Council.

PRESENT,

Lord President.
Duke of Somerset.
Earl of Clarendon.
Earl de Grey and Ripon.
Mr. Secretary Cardwell.
Mr. H. A. Bruce.

WHEREAS by an Act passed in the session of the eleventh and twelfth years of Her present Majesty's reign, chapter one hundred and seven, intituled "An Act to prevent until the 1st day of September, 1850, and to the end of the then next session of Parliament, the spreading of contagious or infectious disorders amongst sheep, cattle, and other animals," and which has since been from time to time continued by divers subsequent Acts, and lastly by an Act passed in the session of the twenty-eighth and twenty-ninth years of the reign of Her present Majesty, chapter one hundred and nineteen, it is (amongst other things) enacted that it shall be lawful for the Lords and others of Her Majesty's Privy Council, or any two or more of them, from time to time, to make such Orders and Regulations as to them may seem necessary for the purpose of prohibiting or regulating the removal to or from such parts or places as they may designate in such Order or Orders, of sheep, cattle, horses, swine, or other animals, or of meat, skins, hides, horns, hoofs, or other part of any animals, or of hay, straw, fodder, or other articles likely to propagate infection; and also for the purpose of purifying any yard, stable, outhouse, or other place, or any waggons, carts, carriages, or other vehicles; and also for the purpose of directing how any animals dying in a diseased state, or any animals, parts of animals, or other things seized under the provisions of the said Act, are to be disposed of; and also for the purpose of causing notices to be given of the appearance of any disorder among sheep, cattle, or other animals, and to make any other Orders or Regulations for the purpose of giving effect to the provisions of the said Act, and again to revoke, alter, or vary any such Orders or Regulations; and that all provisions for any of the purposes aforesaid in any such Order or

Orders contained shall have the like force and effect as if the same had been inserted in the said Act; and that all persons offending against the said Act shall for each and every offence forfeit and pay any sum not exceeding twenty pounds, or such smaller sum as the said Lords or others of Her Majesty's Privy Council may in any case by such Order direct:

And whereas a contagious or infectious disorder now prevails among the cattle of Great Britain, which is generally designated the "cattle plague," and may be recognized by the following symptoms:—

"Great depression of the vital powers, frequent shivering, staggering gait, cold extremities, quick and short breathing, drooping head, reddened eyes, with a discharge from them, and also from the nostrils, of a mucous nature, raw-looking places on the inner side of the lips and roof of the mouth, diarrhoea or dysenteric purging:"

And whereas several Orders, dated respectively the 24th of July, the 11th, 18th, and 26th of August, 1865, have been made under the authority of the said Acts by the Lords of Her Majesty's Privy Council, with a view to check the spreading of the said disorder:

And whereas it is expedient to consolidate and amend the said Orders:

Now, therefore, the Lords of Her Majesty's Privy Council do hereby, by virtue of, and in exercise of the powers given by, the said Act, so continued as aforesaid, order as follows:—

1. This Order shall extend to all parts of Great Britain.

2. The said Orders dated respectively the 24th of July, the 11th, 18th, and 26th of August, 1865, are revoked, with the exception of so much of the said Order of the 24th of July, 1865, as empowers the Clerk of Her Majesty's Privy Council to appoint Inspectors within the limits of the Metropolitan Police District, provided that such revocation shall not affect any appointment made, or any act done, or penalty recoverable, under any Order hereby revoked.

3. In this Order the word "animal" shall mean any cow, heifer, bull, bullock, ox, calf, sheep, lamb, goat, or swine; and the word "Inspector" shall include any Inspector appointed under this Order, or under any of the said revoked Orders.

4. Whenever the Local Authority, as herein-after defined, shall be satisfied of the existence of

the said disorder in, or have reason to apprehend its approach to, the district over which his or their jurisdiction extends, it shall be lawful for such Local Authority, if he or they shall think fit, from time to time to appoint one or more Veterinary Surgeon or Surgeons, or other duly qualified person or persons, to be an Inspector or Inspectors, for the purpose of carrying into effect, the rules and regulations made by this Order, within the district for which he or they shall have been appointed. And the same authority may, from time to time, revoke such appointment.

5. Subject to the powers herein reserved to the Clerk of Her Majesty's Privy Council, the Local Authority within the City of London, and the liberties thereof, shall be the Lord Mayor; in any municipal borough in England or Wales, the Mayor; in any Petty Sessional Division in England or Wales (exclusive so far as relates to the jurisdiction of the Inspector of so much of the said division as lies within the limits of a municipal borough for which an Inspector has been appointed), the Justices acting in and for such Petty Sessional Division. The Local Authority in any burgh or town in Scotland which is subject to the jurisdiction of a Provost or other Principal Magistrate, shall be the Provost or such Principal Magistrate; and, in any other place in Scotland not within the jurisdiction of such Provost or other Principal Magistrate, the Justices of the County in Sessions assembled.

6. Every Inspector shall from time to time report to the Local Authority by which he is appointed, the steps taken by him for carrying into effect the regulations prescribed by this Order; and the Local Authority shall certify, in such manner as may be directed by one of Her Majesty's Principal Secretaries of State, the number of days that such Inspector has actually been engaged in the performance of his duty, and the number of miles travelled by him while thus engaged.

7. Every Inspector shall furnish the Lords of the Council with such information in regard to the said disorder, as their Lordships may, from time to time, require.

8. Every person having in his possession, or under his custody, any animal labouring under the said disorder, shall forthwith give notice thereof to the Inspector of the district within which such person resides, or if no Inspector shall have been appointed for the district within which such person resides, then to the Officers hereinafter named, according to the place of residence of the person obliged to give notice; that is to say: within the Metropolitan Police District, to the said Clerk of the Privy Council; within the City of London and the liberties thereof, to the Lord Mayor; within any other borough, burgh, or town subject to the jurisdiction of a Mayor, Provost, or other Principal Magistrate, to such Mayor, Provost, or other Principal Magistrate; elsewhere in England, to the Clerk of the Justices acting in and for the Petty Sessional Division; and elsewhere in Scotland, to the Clerk of the Peace of the county.

9. Every Inspector shall have power to enter upon and inspect any premises or place in which any animal or animals may be found within the district for which he is appointed, and to examine and inspect, whenever and wherever he may deem it necessary, any animal within such district.

10. Every Inspector shall have power within his district to seize and slaughter, or cause to be seized and slaughtered, and to be buried, as hereinafter directed, in any convenient place, any animal labouring under the said disorder.

11. Every Inspector shall have power within his district to cause to be cleansed and disinfected, in any manner which he may think proper, any premises in which animals labouring under the said disorder have been, or may be, and to cause to be disinfected, and if necessary destroyed, any fodder, manure, or refuse matter, which he may deem likely to propagate the said disorder. And every owner or occupier of such premises shall obey any order given by such Inspector for that purpose.

12. Every Inspector shall have power within his district to direct that any animal which he suspects to be labouring under the said disorder, shall be kept separate from animals free from the said disorder. And every person having in his possession, or under his custody, such animal shall obey any order given by such Inspector for that purpose.

13. Every person having in his possession, or under his custody, any animal labouring under the said disorder, shall, as far as practicable, keep such animal separate from all other animals, and shall not, if the animal be within a district for which an Inspector has been appointed, remove the same from his land or premises, without the license of the Inspector.

14. No person shall send or bring to any fair or market, or expose for sale, or send or carry by any railway, or by any ship or vessel coastwise, or place upon, or drive along, any highway or the sides thereof, any animal labouring under the said disorder.

15. No person in any district for which an Inspector has been appointed shall, without the licence of the Inspector, send or bring to or from market, or remove from his land or premises, any animal which has been in the same shed or stable, or has been in the same herd or flock, or has been in contact with any animal labouring under the said disorder.

16. No person shall place, or keep, any animal labouring under the said disorder in any common or unenclosed land, or, if the animal be in a district for which an Inspector has been appointed, in any field or pasture, where, in the judgment of the Inspector, such animal may be likely to propagate the said disorder.

17. All animals having died of the said disorder, or having been slaughtered on account thereof, shall be buried with their skins, and with a sufficient quantity of quick-lime, or other disinfectant, as soon as practicable, and shall be covered with at least five feet of earth, or shall, in districts for which an Inspector has been appointed, with the consent of the owner, be otherwise disposed of, in manner directed by the Inspector.

18. During the continuance of the "cattle plague" within the said City of London, or that part of the Metropolitan Police District which is under the jurisdiction of the Metropolitan Board of Works, no animal shall be brought or sent to the Metropolitan Cattle Market, or any other market within the said City or the said part of the Metropolitan Police District, except for the purpose of being there sold for immediate slaughtering; and every such animal, as soon as sold, shall be marked for slaughter, in the manner in which cattle are ordinarily marked for slaughter in the Metropolitan Cattle Market.

19. Whenever any local authority, as hereinbefore defined, declares, by notice published in any newspaper circulating within his, or their jurisdiction, that it is expedient that animals, as hereinbefore defined, or some specified description thereof, shall be excluded from any specified market or fair within that jurisdiction, for a time

to be specified in such notice, it is hereby ordered, that after the publication of such notice, it shall not be lawful for any person to bring or send such animals or description thereof into such market or fair: provided always, that this clause of this Order shall not, unless renewed by a further Order, be in force after the expiration of three calendar months from the date of this Order.

20. Every person offending against this Order shall, in pursuance of the said Act, for every such offence forfeit any sum not exceeding twenty pounds, which the Justices before whom he or she shall be convicted of such offence may think fit to impose.

COMMITTEE OF COUNCIL ON EDUCATION.

*Science and Art Department, South
Kensington Museum.*

THE Lords of the Committee of Council on Education, have received from the Imperial Commissioners for the Universal Exhibition to be held in Paris, in 1867, the General Regulations and Classification of which the following is a translation :—

GENERAL REGULATIONS.

*Discussed on 7th July, 1865, and approved by
Imperial Decree of the 12th July, 1865.*

SECTION I.

GENERAL ARRANGEMENTS AND SYSTEM OF CLASSIFICATION.

ARTICLE 1. The Universal Exhibition to be held at Paris in 1867, will be open for the reception of works of art, and of the products of agriculture and industry of all nations.

It will be held in a temporary building on the Champ de Mars. Around the Exhibition building a park will be formed for the reception of cattle and other live animals, and plants, as well as for those constructions and objects which cannot be exhibited in the main building.

The Exhibition will open on the 1st of April, 1867, and will close on the 31st October following.

ART. 2.—The Universal Exhibition of 1867, is placed under the direction of the Imperial Commission nominated by the decree of the 1st February, 1865.

The General Commissioner appointed by the same decree, is charged with carrying out the decisions of the Imperial Commission.

ART. 3.—In every department of the French empire the Imperial Commission will establish, before the 25th August, 1865, a local committee, whose duty it will be :

1. To make known throughout the whole extent of the department the measures relative to the organization of the Exhibition, and to distribute the forms of *demands for space* and other documents issued by the Imperial Commission ;

2. To point out, before the 31st October, 1865, the principal artists, agriculturists, and manufacturers whose productions would seem specially calculated to contribute to the success of the Exhibition ;

3. To promote, in the manner stated in Article 29, the exhibition of the agricultural products of the department ;

4. To appoint a Commission of learned men, agriculturists, manufacturers, overseers, and other persons with special knowledge, to make a careful study of the Exhibition, and to publish a report upon the means of applying in the department the lessons which the Exhibition may have taught ;

5. To create, by collecting subscriptions, by association, or by any other means, a fund for the purpose of enabling the overseers, husbandmen and mechanics, of the department to visit and study the exhibition, and to pay the expenses of publishing the above-mentioned report.

ART. 4.—The Imperial Commission will make the necessary arrangements with the Ministers of War and of Marine, for obtaining a proper representation of the products of Algeria and of the French Colonies in the Universal Exhibition.

ART. 5.—The Commissioners appointed by the various foreign governments to direct the part which their respective countrymen will take in

the Universal Exhibition are in direct communication with the Imperial Commission relative to the exhibition of the works of art and other productions of their country. Consequently, the Imperial Commission will not correspond with foreign exhibitors. Products sent by a foreign exhibitor, can only be admitted through the medium of the foreign Commission which represents him.

The foreign Commissioners will also provide as they may see fit for the carriage, the reception, the arrangement, and the return of the productions of their countrymen. They must, however, conform to the regulations laid down by the Imperial Commission.

ART. 6.—Foreign Commissioners are requested to place themselves as soon as possible in relation with the Imperial Commission, and to depute some person to represent them.

The duty of this representative will be to arrange the questions which refer to foreign exhibitors, and particularly those relative to the allotment of the whole space among the various countries, and to the manner in which each foreign section shall be arranged in the Exhibition building and in the Park.

ART. 7.—In order to facilitate the division of the space allotted to each country between the various classes of objects enumerated in Article 11, the Imperial Commission will place at the disposal of the representatives for their guidance, the plan of the arrangement of the French section of the Exhibition building, drawn on a scale of two millimètres to a mètre (1 in. to 41.6 ft. or $\frac{1}{41.6}$). This plan shows the arrangement of the glass cases and counters suitable for each class of objects, as well as the shape, height, and other dimensions of the courts intended for each class. An analogous plan of arrangement showing the manner in which the portions of the Exhibition building allotted to each foreign country will be subdivided, is to be transmitted to the Imperial Commission, before the 31st October, 1865.

Plans in detail, on a scale of two centimètres to the mètre, (1 in. to 4.16 ft., or $\frac{1}{4.16}$), showing the place allotted to each exhibitor and to each separate stall are also to be forwarded with the list of exhibitors, by each Foreign Commission, before the 31st January, 1866, in order that in arranging the interior of the Exhibition building the Imperial Commission may be able to take into consideration the wants of each country.

ART. 8.—Each foreign country may claim, for the formation of a special park, the portion of the Champ de Mars adjoining the space allotted to it in the Exhibition building. The representative of each foreign Commission will settle with the General Commissioner the plan of the paths for the circulation of the public, and of the earth-works, which will be executed at the cost of and under the direction of the Imperial Commission.

Each representative will also arrange with the General Commissioner so as to leave at the disposal of the Imperial Commission the portions of the ground which may be in excess of the wants of his countrymen, or to obtain an additional piece of ground from the portions to which other representatives may have given up their claim.

In order to facilitate as much as possible the arrangements of the foreign exhibitors in the portions of the park allotted to them, the Imperial Commission will place at the disposal of the representatives for their guidance the plans adopted by the French exhibitors for arranging the animals, plants, model cottages, &c. (Appendix A.)

ART. 9.—An official catalogue of the products of all the foreign countries will be drawn up, showing the place which they occupy either in the Exhibition building or in the park. This catalogue will contain two alphabetical lists, one of the exhibitors, the other of the products exhibited. Foreign Commissioners are requested to send the information necessary for the preparation of the catalogue before the 31st January, 1866.

ART. 10.—Those States which can only be represented in Paris in 1867 by a small number of exhibitors, and which are besides in a similar geographical position, are requested to concert together so as to insure a methodical grouping of the products of an analogous nature.

The Imperial Commission will place at the disposal of the representatives of the Commissions of those States the plans which have been prepared, with a view to harmonize the advantages of such a grouping with the fundamental rule of national representation. In the event of these plans being approved, the Imperial Commission requests the Commissioners of those same States to appoint in Paris for each group an agent, whose duty it will be to carry them out. The architects and officers of the Imperial Commission will afford assistance gratuitously to these agents.

ART. 11.—In each section assigned to the exhibitors of the same country, the objects will be divided into 10 groups and 95 classes; viz.:

1st Group.—Works of art (Classes 1 to 5).

2nd Group.—Apparatus and applications of the liberal Arts (Classes 6 to 13).

3rd Group.—Furniture and other articles intended for dwelling houses (Classes 14 to 26).

4th Group.—Clothing (including fabrics), and other articles worn on the person (Classes 27 to 39).

5th Group.—Products (raw and manufactured) of mining (Classes 40 to 46).

6th Group.—Instruments, and processes of the common arts (Classes 47 to 66).

7th Group.—Food (fresh and preserved) in various states of preparation (Classes 67 to 73).

8th Group.—Live products and examples of agricultural establishments (Classes 74 to 82).

9th Group.—Live products and examples of horticultural establishments (Classes 83 to 88).

10th Group.—Objects exhibited with the special purpose of improving the physical and moral condition of the people (Classes 89 to 95).

The objects which are included in these groups are given in detail in the System of Classification (Appendix A) annexed to these Regulations.

In order to avail itself of any suggestions that may be made by the French exhibitors and the Foreign Commissioners, the Imperial Commission reserves to itself the right to resolve, in the successive editions of this document, all doubtful questions to which this first publication may give rise.

ART. 12.—No work of art, or object exhibited in the Exhibition building or in the Park may be drawn, copied, or reproduced in any manner whatever, without the authority of the exhibitor who is the author of it. The Imperial Commission reserves to itself the right to authorize the taking of general views of the Exhibition.

ART. 13.—No work of art or object exhibited may be removed before the close of the Exhibition without the special authority of the Imperial Commission.

ART. 14.—Neither French nor foreign exhibitors will have to pay any rent for the space occupied by them in the Exhibition; but all costs incurred for fittings and decoration in the Exhi-

bition building and in the Park must be borne by them.

ART. 15.—Frenchmen and foreigners, by the act of becoming exhibitors, thereby bind themselves to adhere to these Regulations.

ART. 16.—The Imperial Commission will correspond with the *Préfets* and other authorities of the French empire through the President or the General Commissioner.

ART. 17.—All communications relative to the Exhibition are to be addressed to *M. le Conseiller d'Etat, Commissaire-Général de l'Exposition Universelle de 1867, à Paris*.

Letters need not be prepaid within the jurisdiction of the French Post Office.

SECTION II.

SPECIAL ARRANGEMENTS RELATIVE TO WORKS OF ART.

ART. 18.—Works by French and foreign artists, executed since the 1st January, 1855, will be received for exhibition.

ART. 19.—The following will not be received :

1. Copies, including those which reproduce a work in a manner different to that of the original ;

2. Oil paintings, miniatures, water-colour paintings, pastels, designs and cartoons for stained glass and frescoes, without frames ;

3. Sculpture in unbaked clay.

ART. 20. The Imperial Commission will decide, with the assistance of a special jury, respecting the admission of works by French artists.

The composition and nomination of this jury, and the formalities with which Frenchmen will have to comply in requesting permission to send a work of art to the Exhibition, will be explained by regulations to be published hereafter ; these regulations will make known how works of art are to be transmitted and received.

ART. 21.—The Imperial Commission will make known to the persons concerned, before the 1st January, 1867, its decisions respecting the admission of works of art.

ART. 22.—The number and nature of the rewards that may be given in respect of works of art, as well as the constitution of the international jury who will be called upon to act as judges, will be decided hereafter.

SECTION III.

SPECIAL ARRANGEMENTS RESPECTING THE PRODUCTS OF AGRICULTURE AND INDUSTRY.

CHAPTER I.

ADMISSION AND CLASSIFICATION OF PRODUCTS.

ART. 23.—All the products of agriculture and industry will be admitted into the Exhibition with the exceptions and limitations mentioned in the following Article.

ART. 24.—Detonating, explosive, and other substances of a dangerous nature will not be admitted.

Spirits and alcohols, oils and essences, corrosive substances, and generally substances which may affect injuriously other products exhibited, or incommode the public, will only be received in strong vessels, specially adapted for the purpose, and of small dimensions.

Percussion caps, fireworks, lucifer matches, and other similar articles can only be received when made in imitation and deprived of all inflammable ingredients.

ART. 25.—Exhibitors of products of an unwholesome and disagreeable nature will be bound to conform at all times to such measures of safety as may be prescribed to them.

The Imperial Commission reserves to itself the right to cause the removal of any products, whether French or foreign, which by their nature or their bulk might appear injurious, unsuitable, or incompatible with the objects of the Exhibition.

ART. 26.—Before the 15th August, 1865, the Imperial Commission will notify to the Foreign Commissions the amount of space allotted to each of them for the display of the productions of their respective exhibitors.

Before the 25th August, 1865, the Imperial Commission will publish, in a tabulated form, the amounts of space allotted in the French portion of the Exhibition building to each of the first 73 classes enumerated in Article 11.

ART. 27.—After the publication of this document French exhibitors carrying on the trades comprised in the same class are requested to come to an understanding among themselves relative to a common plan of arrangement of the space which will have been allotted to their class. If they should agree upon the selection of the exhibitors which this allotment can accommodate, and upon the amount of space which shall be assigned to each, they will nominate one or more representatives who will place themselves into communication with the Imperial Commission, submit their plan and list of exhibitors for its approval, and generally act as the representatives of the common interests of these exhibitors.

ART. 28. In default of such spontaneous action provided for in the preceding Article, the municipal authorities of centres of manufactures, the chambers of commerce, the consultative chambers of arts and manufacture, artistic and industrial societies, agricultural societies and meetings, are requested to urge the producers in their districts to act in concert.

ART. 29.—The departmental committees (Art. 3) will receive from the Imperial Commission, and will communicate to the consultative chambers of agriculture, and to the agricultural societies and meetings of the department, the plans adopted for the representation of the agriculture of the various districts of France, in order that they may co-operate in carrying out these plans. They will especially request these societies and meetings to prepare collective exhibitions of types of animals and plants, and models of farm buildings and agricultural works.

The local committees of a large agricultural district will, as far as possible, act in concert, so as to display, without useless repetitions, the characteristic features of the agriculture of the district.

ART. 30.—The application for space having reference to the arrangements described in Articles 27, 28, 29, will be made by the representatives of the exhibitors who have been acting in concert, or by those of the societies and bodies who have taken the initiative in the matter. For this purpose, the representatives will cause each exhibitor to fill up and sign in duplicate, an application for space. These applications are to be addressed to the General Commissioner at Paris (Art. 17).

ART. 31.—Every plan of arrangement prepared either by the exhibitors of the same class acting spontaneously together, or at the instigation of local committees, municipal authorities, chambers of commerce, consultative chambers, agricultural societies or bodies, artistic or industrial societies, will be approved by the Imperial Commission,

provided that no objections are raised, and that the general rules and requirements of the Exhibition have been observed.

ART. 32.—The displays thus originating from a common agreement, will consist of separate and distinct exhibitions, unless it suit all those joining in the plan to make a collective display in which, without naming the exhibitors, all the products of a locality or district will be exhibited together.

ART. 33.—In the event of exhibitions carried out in accordance with Articles 27, 28, and 29, producers having any reclamations to make are to address them direct to the General Commissioner, who will submit them to the Imperial Commission.

ART. 34.—In those cases in which the combinations suggested in Articles 27, 28, and 29 have not been carried out, each of the exhibitors will fill up and sign two forms of application for space (Art 30). Both these applications are to be forwarded to the General Commissioner at Paris (Art. 17).

ART. 35.—Applications for space, objections, and all documents relating thereto are to be transmitted to Paris before the 31st October, 1865.

After that date no application or objection can be entertained except by a special resolution of the Imperial Commission.

ART. 36.—Exhibitors of apparatus requiring the use of water, gas, or steam are to state, when sending in their application for space, what amount of water, gas, or steam will be necessary. Those who wish to exhibit machines in motion are to state at what speed each of these machines is to be driven and the motive power which it will require.

ART. 37.—Committees will be appointed by the Imperial Commission for the nine groups of agriculture and industry (Art. 11), to advise respecting each application for space, and the objections mentioned in Article 33.

The Imperial Commission alone can decide the admission of exhibitors.

ART. 38.—Each French exhibitor will receive before the 31st December, 1865, an *exhibitor's bulletin* (or ticket) showing his rotation number, the dimensions of the space granted to him, and the address which is to be affixed to the packages he may send.

CHAPTER II.

DESPATCH, RECEPTION, AND PLACING OF GOODS IN THE EXHIBITION BUILDING AND IN THE PARK.

ART. 39.—The cost of packing and carriage of the goods sent to the Exhibition and of the goods which have been exhibited there is to be borne by the exhibitors, both to and fro.

ART. 40.—French packages containing goods intended for the Exhibition are to be marked with the letters E. U. surrounded by a circle (EU); they

are to bear in addition the rotation number of the exhibitor and the direction specified in the exhibitor's bulletin (Art. 38).

The way-bill which accompanies the package is also to contain the name of the exhibitor, the rotation number, and the direction.

The sender will affix on two sides of the package the labels which the Imperial Commission will take care to transmit to him for this purpose in duplicate.

ART. 41.—The Imperial Commission will not interfere in any way between the contractors for the carriage of packages and the exhibitors in respect of the despatch and the reception of the goods.

The exhibitors must therefore, either personally or by their agents, see to the transmission and reception of the packages, and verify their contents.

If neither the exhibitor nor his agent be present to receive the packages on their arrival at the Exhibition, the carrier is bound to remove them immediately.

ART. 42.—Packages from foreign countries must be marked in such a way as to show distinctly from whence they come. The Imperial Commission will make arrangements with the Foreign Commissioners in order that these packages may be transmitted in accordance with the regulations specified in Article 40 for French packages; on this point, however, the Foreign Commissioners will adopt the course which they may consider most advisable.

ART. 43.—French and foreign goods will be received into the Exhibition from the 15th January, 1867, up to the 10th March following, inclusive.

These dates may, by special arrangement, be anticipated for objects difficult to place, or deferred for objects of great value.

ART. 44.—The Exhibition is constituted a bonded warehouse.

Foreign goods intended for the Exhibition will be admitted into France, under bond, up to the 5th March, 1867, by the following ports and frontier towns:

Dunkirk, Lille, Valenciennes, Feignies, Jeumont, Vireux, Givet, Longwy, Thionville, Forbach, Wissembourg, Strasbourg, Saint-Louis, Pontarlier, Bellegarde, Saint-Michel, Nice, Marseilles, Cette, Le Pertuis, Hendaye, Bayonne, Bordeaux, Nantes, Saint Nazaire, Granville, Havre, Dieppe, Rouen, Boulogne, Calais.

ART. 45.—The Imperial Commission will issue special instructions relative to the period when the materials for the buildings, as objects for exhibition, the separate parts of machines and apparatus, heavy and cumbersome articles, and those which require masonry or special foundations, are to be brought into the precincts of the Exhibition.

Such works are to be performed by the exhibitors and at their own cost, in accordance with the plans submitted by them for the approval of the Imperial Commission.

ART. 46. The Imperial Commission will supply gratuitously the water, gas, steam, and motive power for the machines admitted under the Regulation contained in Article 36. This motive power will, except in special cases, be transmitted by a horizontal main shaft, the diameter and the number of revolutions per minute of which will be made known by the Imperial Commission before the 31st December, 1865.

The exhibitors will have to furnish driving pulleys on the main shaft, connecting pulleys, and intermediate shafting for the purpose of regulating the proper speed of the apparatus, as well as the belts necessary for each of these motions.

Steam engines which require to be supplied with steam from their own boilers cannot be shown in the Exhibition building, and special directions will therefore be issued respecting them.

ART. 47.—All other expenses, such as the employment of workmen in the building, the reception and opening of packages, the removal and charge of packing cases, the construction of counters, stages, glass and other cases, &c., the

placing of goods in the Exhibition building and in the Park, the decoration of the stalls, and the return of the goods, are to be borne by the exhibitors, French as well as foreign.

ART. 48.—The arrangement and decoration of the stalls in the French section of the Exhibition building and of the Park can only be executed in conformity with the general plan, and under the superintendence of the officers of the Imperial Commission.

The Imperial Commission will point out to exhibitors who may apply, contractors for the execution of their work and for the removal and custody of their cases; but they are at liberty to employ any contractors or workmen they may think fit.

ART. 49.—The various stalls and fittings may be erected in the Exhibition as fast as the buildings are completed; they must be commenced at latest on the 1st December, 1866, and must be ready for the reception of goods before the 15th January, 1867.

ART. 50.—The passages reserved outside the exhibiting space being strictly calculated for the purpose of circulation, packages and empty cases are not allowed to remain therein.

Cases must, therefore, be unpacked as fast as they are received. The Imperial Commission will direct its own officers to unpack for the exhibitors, and at their risk and peril, the cases left in the passages intended for circulation.

From the 11th to the 28th March, 1867, the goods already unpacked and placed in the stalls, are to be arranged and displayed for exhibition. The 29th and 30th March are reserved for the purpose of a general cleaning. A review of the whole Exhibition will take place on the 31st March.

The Imperial Commission will take all measures necessary to have the Exhibition complete in all its parts by the 28th March. It will, therefore, dispose of all those portions of space which, on the 14th January, 1867, are not occupied by stalls ready for the reception of goods, and of all those stalls which, on the 10th March, do not contain goods enough to fill them.

ART. 51.—Immediately after they have been unpacked, the cases that have been used for the carriage of the goods either in France or from abroad, are to be removed by the exhibitors or their agents. If they should fail to do this without delay, the Imperial Commission will remove the cases and packing, and will not be in any way responsible for their preservation.

ART. 52.—Special instructions will be published hereafter for the organization and arrangement of the products and objects for exhibition which are to be placed in the Park.

CHAPTER III.

GENERAL ADMINISTRATION AND POLICE ARRANGEMENTS.

ART. 53.—The name of the producer will be affixed to the goods exhibited. The name of the retailer who usually acts as his agent may be added with the producer's consent.

The Imperial Commission will, when required, make arrangements for the exhibition of goods under the name of the retailer, when they are not sent for exhibition by the producer.

ART. 54.—Exhibitors are requested to insert after their own names or the names of their firms, the names of those persons who have contributed in a special manner to the merit of the products exhibited, either as inventors or designers, or by

some process of manufacture, or by some remarkable skill in the workmanship.

ART. 55.—The cash price of the objects exhibited and the place where they may be purchased may be stated. This information must be given upon all objects included in Class 91. In all the classes, the prices, if stated, must be adhered to by the exhibitor as respects the buyer, under penalty of exclusion from competition.

Objects sold may not be removed before the close of the Exhibition without the special permission of the Imperial Commission.

ART. 56.—The Imperial Commission will take every means to preserve from damage the articles exhibited, but it will not hold itself in any way responsible for any loss by fire, or for any accident, damage, or injury, great or small, which may happen to them, from whatever cause it may arise. Exhibitors must take upon themselves the expense of insurance if they should see fit to avail themselves of that precaution.

The goods exhibited will be watched by the necessary staff, but the Commission will not be responsible for any thefts or embezzlements which may be committed.

ART. 57.—A special notice posted in the Exhibition building and in the Park will make known the staff appointed to organize the interior of the building. It will also contain the names of the officers whose duty it will be to give assistance to the exhibitors, and to watch over the security of the Exhibition.

ART. 58.—A ticket will be delivered to each exhibitor, which will give him free admission to the Exhibition. This ticket will not be transferable. If it should be proved that the exhibitor has lent or given his ticket to some other person, it will be forfeited without prejudice to further proceedings at law.

To secure the carrying out of this regulation, the ticket of admission must be signed by the holder, who will have to enter the Exhibition by certain prescribed doors only, and he may be required to establish his identity by signing his name in a book to be kept for that purpose.

ART. 59.—Exhibitors will be allowed to have their goods taken care of by the agents they may select, but they must be approved by the Imperial Commission.

Personal tickets of free admission will be given to these agents under the conditions laid down in the foregoing Article.

An exhibitor's agent can only receive one ticket of admission whatever number of exhibitors he may represent.

ART. 60.—Exhibitors or their agents must not solicit visitors to make purchases; they will confine themselves to answering enquiries, to handling the address cards, prospectuses, and lists of prices which they may be asked for.

ART. 61.—The Imperial Commission will fix hereafter the prices of admission to be paid by visitors in order to be admitted into the Exhibition.

ART. 62.—An International Jury for making the awards will be formed, divided into nine groups, corresponding with the nine groups of the products of agriculture and industry enumerated in the system of classification. (Art. 11, and Appendix A).

The number, the nature, and the various grades of the awards, as well as the constitution and functions of the jury, whose duty it will be to apportion them, will be published hereafter.

ART. 63.—The objects will be studied and experiments conducted under the direction of the members of the jury, and of a scientific, agricul-

tural, and industrial commission, appointed by the Imperial Commission. A report of the facts of general interest brought under notice by their labours will be published.

ART. 64.—Conferences may be held and demonstrations given in the various parts of the Exhibition. Courses of lectures and readings may, in addition, be delivered in a room built for that purpose. These various means of imparting information can only be used by those who have personally obtained the authority of the Imperial Commission.

CHAPTER IV.

CLOSING OF THE EXHIBITION AND REMOVAL OF THE GOODS.

ART. 65.—Immediately after the close of the Exhibition, the exhibitors must begin to pack and remove their goods and fittings.

This operation must be completed before the 30th November, 1867.

After that date, the goods, cases, and fittings which may not have been taken away by the exhibitors or their agents, will be removed and deposited in a public warehouse at the cost and risk of the exhibitors. The objects which, by the 30th June, 1868, may not have been removed from that warehouse, will be publicly sold, and the net proceeds of the sale will be applied to some work of charity.
