

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given that—

1693. Peter Armand Le Comte de Fontaine Moreau, of the General Patent Offices, 10, Rue de la Fidélité, Paris, in the Empire of France, and 4, South-street, Finsbury, London, Patent Agent, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "certain improvements in machinery for the manufacture of horse shoe and other nails."—A communication to him from abroad by Messieurs Bernard Courvoisier, Maxime Antoine Ducis, and François Bigoy, persons resident at Lyons, in the Empire of France.

1896. And Charles Ross Bamber, of Jersey, Commander, Royal Navy, has given the like notice in respect of the invention of "a new or improved apparatus for producing the magnesium light."

As set forth in their respective petitions, both recorded in the said office on the 24th day of June, 1865.

1700. And Morris Ashby, of Staines, in the county of Middlesex, Brewer, has given the like notice in respect of the invention of "an improved brewers and distillers' refrigerator, or apparatus for cooling liquids, condensing steam or other vapours."

1701. And Josse Egide Spanoghe, of 11 Rue de l'Equerre, Antwerp, in the Kingdom of Belgium, has given the like notice in respect of the invention of "an improved hydraulic apparatus for producing motive power."

As set forth in their respective petitions, both recorded in the said office on the 26th day of June, 1865.

1710. And Henry Shaw, Printer, of 31, Lorrimer-square, Walworth, Surrey, has given the like notice in respect of the invention of "improvements in the means of, and apparatus for, retarding the velocity of the wheels of railway and other carriages when in motion."

1714. And John Henry Johnson, of 47, Lincoln's-inn-fields, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in cotton gins"—A communication to him from abroad by Frederick Tabor Ackland, Henry George Mitchell, and Mustapha Mustapha, of Zagazig, Egypt.

As set forth in their respective petitions, both recorded in the said office on the 27th day of June, 1865.

1716. And Henry George Fairburn, of St. Luke's, in the county of Middlesex, Engineer, has given the like notice in respect of the invention of "an improved mode of combining and forming small coal or coal dust into lumps, blocks, or otherwise, to be employed for the purposes of fuel."

1727. And William Botham, of Sheffield, in the county of York, Pharmaceutical Chemist, has given the like notice in respect of the invention of "a new and improved food or fluid regulator for feeding bottle and other tubes."

As set forth in their respective petitions, both recorded in the said office on the 28th day of June, 1865.

1731. And John Cox, of Gorgie Mills, in the county of Edinburgh, Glue Maker, has given the like notice in respect of the invention of "improvements in oars, paddles, rowlocks, seats, and fittings, for boats and vessels."

1733. And Alexander Prince, of the Office for Patents, No. 4, Trafalgar-square, Charing-cross, in the county of Middlesex, has given the like notice in respect of the invention of "a new or improved self acting apparatus for distributing the feeding materials in high furnaces."—A communication to him from abroad by Emile Langen, resident at Trois-dorf, in the Kingdom of Prussia.

As set forth in their respective petitions, both recorded in the said office on the 29th day of June, 1865.

1737. And William Schofield, of Heywood, in the county of Lancaster, Manager of the Heywood Gas Works, has given the like notice in respect of the invention of "improvements in the manufacture of gas retorts and other articles made of fire clay, and in furnaces for burning the same, and for other purposes."

1744. And William Hook Davey, of Blundell-street, Caledonian-road, in the county of Middlesex, Engineer and Machinist, has given the like notice in respect of the invention of "improvements in washing machines."

1746. And Louis Faure, of No. 15, Passages des Petites Ecuries, Paris, in the Empire of France, Gentleman, has given the like notice in respect of the invention of "improvements in railway carriages, which improvements are intended to neutralize the destructive effects arising from the collision of trains."

As set forth in their respective petitions, all recorded in the said office on the 30th day of June, 1865.

1747. And George Davies, of No. 1, Serle-street, Lincoln's-inn, in the county of Middlesex, and of the city of Glasgow, North Britain, Civil Engineer and Patent Agent, has given the like notice in respect of the invention of "improvements in knitting machines."—A communication to him from abroad by William Williams Clay, of Philadelphia, Pennsylvania, United States of America.

1749. And James Atkins, of the firm of Robert Walter Winfield and Company, of Birmingham, in the county of Warwick, Merchants and Manufacturers, has given the like notice in respect of the invention of "improvements in the manufacture of certain kinds of metallic tubes and rods, and in ornamenting metallic tubes and rods."

As set forth in their respective petitions, both recorded in the said office on the 1st day of July, 1865.

1758. And George Hurn and Daniel Hurn, of Norwich, in the county of Norfolk, Manufacturers, have given the like notice in respect of the invention of "improvements in the manufacture of mats, matting, and brushes."

1760. And Martin Benson, of 14, Hinde-street, Manchester-square, in the county of Middlesex, Engineer, has given the like notice in respect of the invention of "improvements in steam pumping machines or engines."

As set forth in their respective petitions, both recorded in the said office on the 3rd day of July, 1865.

1770. And Richard Archibald Brooman, of 166, Fleet-street, in the city of London, Patent Agent, has given the like notice in respect of the invention of "a new or improved method of dissolving pitch."—A communication to him from abroad by François Celestin Armelin, of Paris, France.

As set forth in his petition, recorded in the said office on the 4th day of July, 1865.
