29 AND 30 VICT., CAP. 90, SEC. 35.

IN compliance with an application duly made to me, in pursuance of the provisions of "The Sanitary Act, 1866," by the Local Board for the district of the township of Southwick, in the

county of Durham, I, the Right Honourable Gathorne Hardy, one of Her Majesty's Principal Secretaries of State, do hereby declare and give notice (such notice to be published in the London Gazette), that the enactments of the 35th section of "The Sanitary Act, 1866," are in force within the district of the township of Southwick, in the county of Durham.

Given under my hand at Whitehall, this 29th day of August, 1867.

(Signed) *Gathorne Hardy.*

**NOTICE TO MARINERS.**

(No. 42.)—UNITED STATES.

*Shoal Westward of George's Bank.*

THE United States Government has given notice, that a dangerous shoal has been discovered lying to the westward of George's Bank, in the track of vessels bound from Europe to the United States.

This shoal—named the *Cultivator Shoal*—extends in a S.E. and N.W. direction, and is upwards of five miles in length, with broken spots of eight and nine fathoms' water, and three fathoms on the shoalest part, with hard sand bottom.

The shoalest part is in lat. 41° 38' N., and long. 68° 11' West of Greenwich.

On approaching the shoal, the water suddenly decreases from 50 to 14, 9, and 10 fathoms, and then to 6; but in nearly all weather, during daylight, the ripple or breakers on the shoal can be seen in time to avoid them.

A buoy has been placed on the shoal in nine fathoms' water.

*Nantucket Shoals.*

Also, that on a part of the Nantucket Shoals, north of Phelp's Bank, is a shoal, named *Lott's Breakers*, in lat. 40° 56' N., long. 69° 20' 7" West of Greenwich, on which there is 6½ fathoms' water.

This shoal can be seen from a distance of two miles in the daytime; and when the tide runs at its full strength, small breakers show themselves.

**WEST INDIES.**

*Lighthouse on Castle Island—Crooked Island Passage.*

Notice is hereby given, that the lighthouse which has been in the course of erection on Castle Island, at the southern entrance of the Crooked Island Passage, is now completed and ready for the reception of the lantern, which will shortly be sent out from England; previous to the exhibition of the light, mariners are informed of the completion of the building, as it forms an excellent day-mark for the Crooked Island Passage.

By command of their Lordships,  
*Geo. Henry Richards*, Hydrographer.  
Hydrographic Office, Admiralty London,  
13th August, 1867.

This Notice affects the following Admiralty Charts:—North Atlantic, Nos. 2059 and 2061; Halifax to Delaware, No. 2670; Bay of Fundy to Long Island, No. 2492; Nantucket Shoals to Block Island, No. 2890; West Indies, Sheet II., No. 393; Cuba Island, Eastern Part, No. 2580. Also West India Lights List, No. 70, and West India Pilot, Vol. II., page 449.
