

whose shares have not been paid in India, have been received, and that payment of shares will commence at this Office on the 24th October next, and will be continued daily between the hours of eleven and two.

Soldiers serving should apply through their Commanding Officers, and pensioners through the Staff Officers of Pensioners of their districts.

All persons should state clearly the name of the Officer or soldier on whose account the prize is claimed, together with the rank and regimental number borne at the time of the capture of Banda or Kirwee in 1858.

Notice is also given, that immediately upon the receipt of the Rolls of the remaining corps, a notification similar to the present will be made.

T. T. Pears, Major-General,
Military Secretary.

NOTICE is hereby given, that an agreement authorized by 18 and 19 Vict., c. 63, s. 13 for the dissolution of a Friendly Society, called the Young Englishman's Conservative Society, held at the George Inn, Tewkesbury, in the county of Gloucester, was transmitted to the Registrar of Friendly Societies in England on the 28th day of September, 1867.

John Tidd Pratt, Registrar of Friendly Societies in England.
London, 28th day of September, 1867.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given that—

1457. Henry Peel, of the firm of Bairstow Brothers and Company, of Ovenden, near Halifax, in the county of York, Machine Makers and Ironfounders, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in looms for weaving lastings and serdge-de-berries, applicable also for weaving other fabrics."

As set forth in his petition, recorded in the said office on the 17th day of May, 1867.

1487. And Thomas Metcalf, of Newton Heath near Manchester, in the county of Lancaster has given the like notice in respect of the invention of "improvements in burning all hydro-carbon oils, such as creosote, petroleum, paraffin oil, shale oil, gas tar, and other similar products capable of being used as fuel."

1488. And John Bottomley, of Laister Dyke, near Bradford, in the county of York, Hotel Proprietor, has given the like notice in respect of the invention of "improvements in looms for weaving."

1489. And Thomas McComas, of Old Broad-street, in the city of London, has given the like notice in respect of the invention of "improvements in raising sunken vessels."—A communication to him from abroad by Samuel William Maquay, of the borough of Footscray, near the city of Melbourne, in the county of Bourke, in the Colony of Victoria.

1497. And Valentine Barford, of Market-hill, St. Neot's, in the county of Huntingdon, and John Skerman, of Equesbury, in the same

county, have given the like notice in respect of the invention of "improvements in boilers for boiling or steaming roots, and for heating water for other purposes."

1500. And David Thomson, of 3, Old-street, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in steam rollers for rolling roads, and in pitch chains for working the same, and for other purposes."

As set forth in their respective petitions, all recorded in the said office on the 20th day of May, 1867.

1501. And John Owens, of Salford, in the county of Lancaster, Machinist, has given the like notice in respect of the invention of "improvements in the manufacture of pile and other fabrics."

1509. And Charles Henry Thurnham, of No. 47, Chichester-villas, Kilburn, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in the construction and application of certain mechanical arrangements to be adapted as a self-acting and ink supplying writing apparatus or fountain pen."

1511. And William Frederick Henson, of New Cavendish-street, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "an improvement in rails for railways."

1515. And Oscar Wassermann, Engineer, and Johann Heinrich Herbst, Proprietor, of Call, in the Kingdom of Prussia, have given the like notice in respect of the invention of "improvements in refining lead."

As set forth in their respective petitions, all recorded in the said office on the 21st day of May, 1867.

1526. And William Edward Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "improvements in portable photographic apparatus."—A communication to him from abroad by Henry Cook, of the Chaussée d'Antin, Paris, in the Empire of France.

1528. And Alfred Augustus Hely, of Manbey-grove, in the county of Essex, Gentleman, and John Marshall, of Trafalgar-road, Greenwich, in the county of Kent, Civil and Mechanical Engineer, have given the like notice in respect of the invention of "improvements in machinery for obtaining pressure."

As set forth in their respective petitions, both recorded in the said office on the 22nd day of May, 1867.

1531. And Meinrad Theiler, sen., Richard Theiler, Meinrad Theiler, jun., Telegraph and Scientific Instrument Makers, of 156, Barnsbury-road, Islington, Middlesex, have given the like notice in respect of the invention of "improvements in telegraphic instruments and electric clocks."

1532. And Charles William Siemens, of No. 3, Great George-street, Westminster, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in the means and apparatus employed for conveying telegraphic dispatches, letters, and other light articles, through tubes."—Partly the result of a communication made to him from abroad by Dr. Werner Siemens, of Berlin, in the Kingdom of Prussia, and partly of an invention and discovery made by himself.
