

Act, 1845;" The Companies Clauses Consolidation Act, 1845;" and "The Companies Clauses Act, 1863;" "The Waterworks Clauses Act, 1847 and 1863;" and "The Lands Clauses Consolidation Acts Amendment Act, 1860," or some parts thereof respectively.

And notice is hereby further given, that plans and sections in duplicate, showing the lines, situation, and levels of the said proposed works, and the lands in or through which the same are to be made and maintained and intended to be taken, or which may be taken for the purposes aforesaid, or for the purposes of the said intended Act, together with a book of reference to such plans, containing the names of the owners or reputed owners, lessees or reputed lessees, and occupiers of such lands, and also a copy of this notice as published in the London Gazette, will be deposited for public inspection on or before the thirtieth day of November next with the Clerk of the Peace for the county of Berks, at his office in Abingdon, in the said county, and that a copy of so much of the said plans, sections, and book of reference as relates to each parish in or through which the said works are proposed to be made or maintained, and also a copy of this notice as published in the London Gazette, will be deposited for public inspection on or before the said thirtieth day of November next, with the parish clerk of such parish, in his place of abode. Printed copies of the said intended Act will be deposited in the Private Bill Office of the House of Commons, on or before the twenty-third day of December next.

Dated this twenty-first day of October, one thousand eight hundred and sixty-seven.

W. F. Blandy, Reading, Berks, Solicitor for the Bill.

Gregory, Rowcliffe, Rowcliffe, and Rawle,
8, Parliament-street, Westminster, Parliamentary Agents.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given that—

1737. William King, of Woodside, Finchley, in the county of Middlesex, Plumber, has given notice at the Office of the Commissioners of his intention to proceed with his application for Letters Patent for the invention of "improvements in apparatus for communicating between the guard and driver and passengers and guard of a railway train."

As set forth in his petition, recorded in the said office on the 14th day of June, 1867.

1747. And John Onions, of Devon-place, Newport, in the county of Monmouth, Engineer and Ironfounder, has given the like notice in respect of the invention of "improvements in the manufacture of iron and steel."

1756. And William Robert Lake, of the "International Patent Office," No. 8, Southampton-buildings, Chancery-lane, in the county of Middlesex, Consulting Engineer, has given the like notice in respect of the invention of "improvements in saws and saw-teeth."—A communication to him from abroad by Ira Stillman Brown, Charles Noyes Brown, and John Mason Gross, all of Providence, Rhode Island, United States of America.

1757. And George Clark, of No. 29, Arundel-street, Strand, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in guns, projectiles, and cartridges, and in the construction of the same." As set forth in their respective petitions, all recorded in the said office on the 15th day of June, 1867.

1759. And Richard William Barnes, of the city of Manchester, in the county of Lancaster, Civil Engineer, has given the like notice in respect of the invention of "improvements in metallic pens and pen-holders conjointly."

1762. And Charles Denton Abel, of No. 20, Southampton-buildings, Chancery-lane, in the county of Middlesex, Patent Agent, has given the like notice in respect of the invention of "an improved apparatus for utilizing the power spent in stopping or retarding the motion of carriages and other vehicles and machinery, as also the power produced by carriages and other vehicles when moving down inclines."—A communication to him from abroad by Jules Péan, of Sillé le Guillaume, in the Empire of France, Merchant.

1765. And Joseph Welch, of Redditch, in the county of Worcester, Watch Maker, has given the like notice in respect of the invention of "improvements in swivels for fishing tackle, and for other purposes."

1769. And George Tomlinson Bousfield, of Loughborough-park, Brixton, in the county of Surrey, has given the like notice in respect of the invention of "improvements in indicating time by time keepers."—A communication to him from abroad by Otto Peez, a person resident at Mainz.

As set forth in their respective petitions, all recorded in the said office on the 17th day of June, 1867.

1777. And William Fairley, of Loughor, near Llanelly, Carmarthenshire, has given the like notice in respect of the invention of "an improved mechanical arrangement for preventing over-winding in shafts of coal and other mines." As set forth in his petition, recorded in the said office on the 18th day of June, 1867.

1792. And Ann Littlejohns Panter, of 10, Pakenham-street, Gray's-inn-road, has given the like notice in respect of the invention of "an improved seat for babies or young children." As set forth in her petition, recorded in the said office on the 19th day of June, 1867.

1804. And Heinrich Gottlieb Bernhard Röber, of 3, Frankfurter-strasse, Braunschweig, has given the like notice in respect of the invention of "improvements in the construction of safety box slides."

As set forth in his petition, recorded in the said office on the 20th day of June, 1867.

1808. And John William Perkins, of 32, Great St. Helens, in the city of London, and county of Middlesex, has given the like notice in respect of the invention of "improvements in stills for petroleum, paraffine oil, tar, turpentine, and like bodies."

1810. And Henry Oram, of Lark-hill, in the parish of Bury, and county of Lancaster, has given the like notice in respect of the invention of "improvements in machines for sewing and stitching."

As set forth in their respective petitions, both recorded in the said office on the 21st day of June, 1867.
