

lain's Office, St. James's Palace, before twelve o'clock, two clear days before the Levees, a card with his name written thereon, and with the name of the Nobleman or Gentleman by whom he is to be presented. In order to carry out the existing regulation that no presentation can be made at a Levee excepting by a person actually attending that Levee, it is also necessary that a letter from the Nobleman or Gentleman who is to make the presentation, stating it to be his intention to be present, should accompany the presentation card above referred to, which will be submitted to The Queen for Her Majesty's approbation. It is Her Majesty's command that no presentations shall be made at Levees, except in accordance with the above regulations.

It is particularly requested, that in every case the names be *very distinctly written* upon the cards to be delivered to the Lord Chamberlain, in order that there may be no difficulty in announcing them to His Royal Highness.

The State apartments will be open for the reception of Company coming to Court at one o'clock.

BRADFORD,
Lord Chamberlain.

AT the Council Chamber, Whitehall, this 18th day of February, 1868.

By the Lords of Her Majesty's Most Honourable Privy Council.

PRESENT,

Lord President,
Lord Robert Montagu,
Mr. Cave.

To the Guardians of the Poor of all Unions and Parishes, to all Public Vaccinators, and to all others whom it may concern.

THE Lords and others of Her Majesty's Most Honourable Privy Council (of whom the Vice-President of the Committee of the said Privy Council on Education is one) acting under the authority of the Vaccination Act of 1867, and all other authorities in this behalf, do hereby make and issue the following Regulations, in addition to those already in force, for securing the efficient performance of Public Vaccination, and in respect of the Re-Vaccination of persons who apply to be re-vaccinated, that is to say :

I.—Places and Times for Vaccination under Contract.

1. Except where the Privy Council, for reasons brought to its notice, sees fit in regard of any particular District to sanction a system of domiciliary Vaccination, every Vaccination-District shall have in it at least one public Station appointed for the performance of the Vaccinations under Contract; and where any such Station has been provided for a District, no person resident within two miles thereof, and not being an inmate of the workhouse, shall be Vaccinated under Contract elsewhere than at such Station, unless the Vaccinator in the particular case be of opinion (which, if so, he is hereby required to note in his register), that, for some special reason, the person whom he purposes to vaccinate cannot properly be vaccinated at the Station.

2. Except under special authorisation from the Privy Council as aforesaid, or in so far as may be expedient at times when there is immediate danger of Small-pox, Vaccination under Contract shall not be appointed to be performed at any Station oftener than once a week.

3. And in any future Contract concerning a Vaccination-District which is partly or wholly within a town, there shall not, except under special authorisation as aforesaid, be appointed within the town more than a single Station for the performance of the Vaccinations of the District.

II.—Vaccination Districts in Towns.

No part of the Metropolis, or of any City or Municipal Borough, or Town Corporate, or other Town, shall, in respect of any future Contract, form by itself, or with any rural place, a separate District for Vaccination, except with the approval of the Privy Council, unless it contain an estimated population of at least 25,000 persons, or else be as much of the Metropolis, City, Borough, or Town, as is for purposes of Vaccination under the control of one Board of Guardians.

III.—Office of Public Vaccinator.

After the expiration of the month of June next, no two or more persons shall be allowed to act severally as Vaccinators under Contract in any one and the same part or district of any Union or Parish.

IV.—Re-Vaccination.

The performance of Re-Vaccination by the Public Vaccinator on persons applying to him for that purpose, shall be limited in each case by the following conditions:—(1) that, so far as the Public Vaccinator can ascertain, the applicant has attained the age of 15 years, or, if during any immediate danger of Small-pox, the age of 12 years, and has not before been successfully re-vaccinated; and (2) that, in the Public Vaccinator's judgment, the proposed Re-Vaccination is not for any sufficient medical reason undesirable; and (3) that the Public Vaccinator can afford Vaccine Lymph for the purpose without in any degree postponing the claims which are made on him for the performance of Primary Vaccination in his District.

Arthur Helps.
