4. Article 21 of The Contagious Diseases (Animals) Order of August, 1869, is hereby revoked.

Transit of Animals by Sea.

5. With respect to places used for animals on board vessels, the following regulations shall have effect from and after the thirty-first day of July, one thousand eight hundred and seventy:—

- (1.) Every such place shall be divided into pens by substantial divisions.
- (2.) Each pen shall not exceed nine feet in breadth, or fifteen feet in length.
- (3.) The floor of each pen shall have proper battens or other foot-holds thereon.
- (4.) Every such place, if inclosed, shall be ventilated by means of separate inlet and outlet openings, of such size and position as will secure a proper supply of air to the place in all states of weather.

6. Between each first day of November and the next following thirtieth day of April, (both days inclusive,) freshly shorn sheep shall not be carried on the deck of a vessel.

7. When sheep are carried on the deck of a vessel, proper gangways shall be provided either between or above the pens in which the sheep are carried.

8. From and after the thirty-first day of October, one thousand eight hundred and seventy, animals landed from a vessel shall, on a certificate of an Inspector appointed by the Privy Council in that behalf, certifying to the effect that the foregoing regulations, or some or one of them, have not or has not been observed in the vessel, be detained, under the supervision of the Commissioners of Her Majesty's Customs, at the landing-place, or in lairs adjacent thereto, until the Privy Council otherwise direct.

Cleansing and Disinfecting of Vessels.

9. Every vessel used for carrying animals shall, after the close of each voyage, and before any fresh cargo is taken on board, be cleansed and disinfected in manner following:—

- (1.) By the sweeping out of the hold and every other part of the vessel used for animals, and the effectual removal therefrom of all dung and litter, and of all ashes, sand, sawdust, and other matter with which animals or their droppings have come in contact:
- (2.) Then by the thorough washing of the same parts of the vessel with water:
- (3.) Then by the application to the sides, floor, and ceiling of the hold and to every other part of the vessel with which animals or their droppings have come in contact, of a coating of limewash made by mixing good freshly burnt lime with water, and containing in each gallon of limewash either one-fifth of a pint of commercial carbolic acid, or one-fifth of a pint of commercial cresylic acid, or four ounces of fresh dry chloride of lime, such limewash to be prepared immediately before use.

The sweepings of the vessel shall be well mixed with quicklime and effectually removed from contact with animals.

Transit of Animals by Railway.

12. From and after the thirty-first day of December, one thousand eight hundred and seventy, every truck used for carrying animals on a railway shall be provided with spring buffers, and the floor thereof shall have proper battens or other foot-holds thereon.

13. From and after the thirtieth day of June, one thousand eight hundred and seventy, a railway company shall not allow any truck used for carrying animals on their railway to be overcrowded so as to cause unnecessary suffering to the animals therein.

14. Between each first day of November and the next following thirtieth day of April, (both days inclusive,) trucks used for carrying on a railway sheep freshly shorn and unclothed shall be covered and inclosed so as to protect the sheep from the weather, but shall be properly ventilated.

Cleansing and Disinfecting of Pens and Vehicles.

- (2.) Then by the thorough washing of the pen, carriage, truck, horse-box, or vehicle with water:
- (3.) Then in case of a pen, carriage, or truck, by the application to the floor and to all parts above the floor with which animals or their droppings have come in contact, of a coating of limewash made by mixing good freshly burnt lime with water, and containing in each gallon of limewash either one-fifth of a pint of commercial carbolic acid, or one-fifth of a pint of commercial cresylic acid, or four ounces of fresh dry chloride of lime, such limewash to be prepared immediately before use.

The sweepings of the pen, carriage, truck, horse-box, or vehicle shall be well mixed with quicklime and effectually removed from contact with animals.
