LOCAL GOVERNMENT ACT.

ERRATUM.—BROMYARD.

In the Order settling the Boundaries of the Special Drainage District of Bromyard in the Gazette of 13th June, 1871, page 2746, in the eighth and ninth lines of the description of the boundaries, for the words "along the boundary fence of," read "across."

SCHOOL OF NAVAL ARCHITECTURE, &c.

Admiralty, June 20, 1871.

THE Lords Commissioners of the Admiralty hereby give notice, that the arrangements for the admission of persons, not already in the Government service, to the Royal School of Naval Architecture and Marine Engineering, as Admiralty Pupils, will, for the present year, be as follows:—  
Candidates must not be less than 18 or more than 21 years of age, and must have served at least two years in private shipbuilding or engineering establishments, or must give satisfactory proof that they have in some way been so connected with shipbuilding or engineering operations as to become well-grounded in the elementary principles and practice thereof.

The pupils will be selected by competitive examination, the subjects for which, and numbers of marks assigned for each, are as follows:—

	Mark.
Pure mathematics, including arithmetic, mensuration, geometry (plane and descriptive), plane trigonometry, and the elements of the differential and integral calculus ... ..	2,500
Applied mathematics, including mechanics and hydrostatics ... ..	1,000
Practical shipbuilding, including laying-off (for shipwright candidates only) ...	2,500
Practical marine engineering (for engineer candidates only) ... ..	2,500
French ... ..	500
Elements of physics and chymistry ...	750
English grammar and composition ...	750
Geography and history ... ..	750

No candidate will be admitted who does not obtain at least two-thirds of the full number of marks in the two first-named subjects, and three-fifths of the full number, either for practical shipbuilding or marine engineering.

The last four subjects, although counting in the competition, will not be considered obligatory.

The candidates who may be selected will be treated, while attached to the school, in all respects as the Admiralty pupils; they will receive wages the same as dockyard apprentices, commencing at 1s. 6d. per day for six days per week for first year, and increasing yearly 3d. per day till it reaches 2s. per day; and in addition a subsistence

allowance of 3s. per day for seven days per week while away from their homes, either at the school or in the dockyards.

Seven months of each year—viz., from October till May—will be devoted to study at the school, and the remaining five months to actual work and the acquirement of practical knowledge in the dockyards.

It is to be understood that the Admiralty make no engagement to employ these pupils after the completion of their course of study; and they must rely on their own worth, as educated naval architects, for obtaining employment in their subsequent career.

The number of such pupils to be selected this year is one shipwright and one engineer.

Persons desirous of competing must forward their names, with a certificate of birth, and on the grounds on which they consider themselves practically qualified, enclosing proper certificates to that effect to the Secretary of the Admiralty, not later than the 11th July.

The candidates should also state whether they wish to be examined as engineers or shipwrights.

The examination will take place on the 18th July and three following days.

By command of their Lordships,  
*G. Shaw Lefevre.*

#### NOTICE TO MARINERS.

FUNCHAL BAY.

##### *Position of Wreck off Loo Rock.*

WITH reference to Notice to Mariners No. 24, dated 30th April, 1869, respecting the position of a red buoy placed on a wreck off Loo Rock, Funchal Roads:—

Information has been received of the exact position of the wreck: she lies in 22 fathoms water, S.  $\frac{1}{2}$  W., about  $3\frac{1}{2}$  cables from the stone sentry-box on the east end of Loo Rock.

As the anchors of several vessels have been lost by fouling the wreck, and the red buoy marking it is not always in position, Mariners are cautioned accordingly.

*Geo. Henry Richards*, Hydrographer.  
Hydrographic Office, Admiralty, London,  
19th June, 1871.

This notice affects the Admiralty Chart of Funchal Bay, No. 1689.
