SANITARY ACT, 1866.

29 and 30 Vict., cap. 90, sect. 35.

IN compliance with an application duly made to us in pursuance of the provisions of "The

Sanitary Act, 1866," by the Trustees and Local Board for the town and district of Workington, in the county of Cumberland, such Trustees and Local Board being the Nuisance Authority for the said town and district, we the Local Government Board, do hereby declare and give notice, that the enactments of the 35th section of "The Sanitary Act, 1866," are in force within the said town and district.

Given under our Seal of Office, this 6th day of October, 1871.

L. S.

(Signed) James Stansfeld,
President.

NOTICE TO MARINERS.

(No. 72.)—GULF OF ST. LAWRENCE—ANTICOSTI ISLAND.

Flashing Light on South Point.

THE Government of the Dominion of Canada has given notice, that a light is now exhibited from a lighthouse recently erected on Bagot's Bluff, three-quarters of a mile from the south point of Anticosti Island.

The light is a *flashing* white light, showing a flash *every twenty seconds*, elevated 75 feet above the level of the sea, and in clear weather should be seen from a distance of 14 miles.

The illuminating apparatus is catoptric or by reflectors.

The tower, a white wooden building, is hexagon shaped and 50 feet high. Position, lat. 49° 4' N., long. 62° 15' W.

Steam Fog Whistle at South Point Lighthouse.

Also, that a steam fog whistle has been placed 100 yards east of the lighthouse, on South Point, Anticosti Island, and in thick or foggy weather it will be sounded for *ten seconds* in *every minute*, thus making an interval of 50 seconds between each blast.

In calm weather the whistle would probably be heard 15 miles.

NEW BRUNSWICK—NORTH COAST.

Revolving Light on Cape Magdalen.

Also, that a light is now exhibited from a lighthouse recently erected on Cape Magdalen, in the Gulf of St. Lawrence.

The light is a *revolving* light, showing *red and white* at intervals of *two minutes*; it is elevated 147 feet above the level of high water, and in clear weather the red light should be seen from a distance of 15 miles, and the white light 20 miles.

The illuminating apparatus is catoptric or by reflectors.

The tower, a white wooden building, is 54 feet high. Position, lat. 49° 15' 40" N., long. 65° 19' 30" W.

Flashing Light on Cape Chatte.

Also, that a light is now exhibited from a lighthouse on the north-west point of Cape Chatte, in the Gulf of St. Lawrence.

The light is a *flashing* white light, showing a flash *every thirty seconds*, it is elevated 110 feet above the high water level, and in clear weather should be seen from a distance of 18 miles.

The illuminating apparatus is catoptric or by reflectors.

The tower, a square wooden building 37 feet high, is painted white, and is attached to the keeper's dwelling. Position, lat. 49° 5' 50" N., long. 66° 45' 50" W.
