WILLIAM A. G. YOUNG, Acting Colonial Secretary.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2469. Charles Pinn, of Friars Green, in the parish of Holy Trinity, and of Queen-street, in the parish of St. David's, in the city of Exeter, has given notice at the office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "an improved apparatus for preventing waste of water in dwelling houses and other buildings where water is supplied by pipes."

As set forth in his petition, recorded in the said office on the 19th day of September, 1871.

2470. And John Owen, of Bowdon, in the county of Chester, has given the like notice in respect of the invention of "improvements in the construction of high pressure filters."

As set forth in his petition, recorded in the said office on the 20th day of September, 1871.

2483. And John Neilson, of the firm of "J. and W. Neilson," Founders and Enamellers, of Glasgow, in the county of Lanark, North Britain, has given the like notice in respect of the invention of "improvements in the enamelling of metal articles, and in the means and apparatus or mechanism therefor or connected therewith."

2485. And William Robert Lake, of the firm of Haseltine, Lake, and Co., Patent Agents, Southampton-buildings, London, has given the like notice in respect of the invention of "improved methods of cutting the soles and other parts of boots and shoes, and apparatus therefor."—A communication to him from abroad by Joseph Woodley, of Quebec, Canada, Boot and Shoe Manufacturer.

2486. And Charles Henry Gardner, of West Harding-street, Fetter-lane, in the city of London, Manufacturer, has given the like notice in respect of the invention of "improvements in apparatus for holding parcels and other articles while being tied or otherwise acted on, and in the means of securing parcels."—A communication to him from abroad by Marie Amelia Mauger, of Reade-street, New York, in the United States of America.

2488. And Charles Henry Gardner, of West Harding-street, Fetter-lane, in the city of London, Printing Machine Manufacturer, has given the like notice in respect of the invention of "improvements in composing and distributing type, and in type and other apparatus employed therein."—A communication to him from abroad

by Victor Eugene Mauger, of Reade-street, New York, in the United States of America. As set forth in their respective petitions, all recorded in the said office on the 21st day of September, 1871.

2494. And Edward Thomas Hughes, of the firm of Hughes and Son, Patent Agents, 123, Chancery-lane, London, has given the like notice in respect of the invention of "improvements in lubricators for steam engines."—A communication to him from abroad by James Harper, of the city and county of New Haven, State of Connecticut, United States of America.

2496. And Théodore Defflis, of Rue Richer, Paris, has given the like notice in respect of the invention of "improvements in glass lights."—A communication to him from abroad by Victor Eugene Mauger, of the city, county, and State of New York, one of the United States of America.

2498. And Charles Atwood Hardy, of Philadelphia, in the United States of America, but at present of Sheffield, in the county of York, Augustus Edward Stayner, of Halifax, Nova Scotia, in the Dominion of Canada, at present of Sheffield aforesaid, and Jonathan Harrison, of Eastwood, in the county of Nottingham, have given the like notice in respect of the invention of "improvements in picks, hammers, axes, adzes, and similar tools."

2502. And William Edward Gedge, of No. 11, Wellington-street, Strand, in the county of Middlesex, Patent Agent, has given the like notice in respect of the invention of "an improved machine or apparatus for cleansing grain."—A communication to him from abroad by Charles Vigreux, of 37, Boulevard Bonne-Nouvelle, Paris, France, Miller.

2503. And William Edward Gedge, of No. 11, Wellington-street, Strand, in the county of Middlesex, Patent Agent, has given the like notice in respect of the invention of "a combined shoe and gaiter."—A communication to him from abroad by Pierre Marie Le Goffie, Printer, and Leon Emmanuel Jouan, junior, Bootmaker, both of 37, Boulevard Bonne-Nouvelle, Paris, France.

As set forth in their respective petitions, all recorded in the said office on the 22nd day of September, 1871.

2511. And James Verity, of No. 1, Carlton-road, Kentish Town, in the county of Middlesex, has given the like notice, in respect of the invention of "improvements in the construction of chimneys for gas burners, and oil, and other lamps, and in reflectors and protectors for the same."
