(Signed) *Richard Assheton Cross.*

*India Office, April 8, 1874.*

THE Secretary of State for India in Council gives notice that he will be prepared to receive, on Thursday, the 30th April instant, at or before twelve o'clock, Tenders for a Loan of £3,000,000, on security of stock to be created under the provisions of an Act of the present session of Parliament, and to bear interest at the rate of four pounds per cent. per annum, payable half-yearly at the Bank of England, on the 5th April and the 5th October in each year.

The stock not to be redeemable until the 10th October, 1888, but to be redeemable at par on or after that day, upon one year's previous notice having been given in the London Gazette by the Secretary of State for India in Council.

The books of the stock will be kept at the Bank of England, where all assignments and transfers will be made. No stamp duties whatsoever will be charged on the transfers.

The tenders to be for the whole or any part of such loan, but not for sums of less than £500 stock, and to state what amount of money will be given for every £100 of the said stock. Tenders at a price including fractions of a shilling other than sixpence will not be accepted. Tenders by the same person at various prices must be made out and delivered separately. Each separate tender is to be delivered in, sealed, at the Chief Cashier's Office, Bank of England, and the amount of stock subscribed for to be written on the outside of the tender.

A deposit of £5 per cent. upon the amount of stock tendered for must, at the same time, be paid at the same Office, to be returned in the event of the tenders not being accepted, and parties tendering must be careful not to enclose the deposit in the sealed tender.

So much of the amount tendered and accepted, to be paid at the Bank of England on account of the Secretary of State for India in Council, on Thursday, the 7th May, 1874, as, when added to the deposit paid on the tenders being delivered, will leave eighty pounds for every one hundred pounds of stock, to be paid as under, viz. :—

£30 per cent. on Tuesday, the 2nd June, 1874 ;

£30 per cent. on Tuesday, the 30th June, 1874 ;

£20 per cent. on Tuesday, the 28th July, 1874 ;

but parties who so desire may pay up in full, and will be allowed a discount at the rate of four pounds per cent. per annum upon the anticipated payments.

The dividend payable on the 5th October, 1874, to be a six months' dividend upon the capital amount of stock contracted for on the said 30th April.

In the event of the receipt of tenders (at or above the minimum price to be fixed by the Secretary of State for India in Council on the 30th April), for a larger amount than that proposed to be raised, the tenders, at the lowest price accepted, will be subject to a *pro rata* diminution. No allotment will be made of a less amount than £50.

Due notice will be given when the scrip certificates are ready, and these will be delivered only to the parties entitled, or to their order, at the Chief Cashier's Office at the Bank of England.

For each instalment after payment of the first, which is due on the 7th of May, 1874, a proportional amount of stock will be created for the contributors. The stock for the first instalment, including the deposit, to be created at the same time with that which will be due on the last.

No tender will be received after twelve o'clock on the said 30th day of April, nor unless upon a printed form, which must not be enclosed in an envelope.

Forms of tender may be obtained at the Chief Cashier's Office, Bank of England, or of Mr. Hubert Scott, the Broker to the Secretary of State for India in Council, 16, Throgmorton-street, London, E.C.

## NOTICE TO MARINERS.

## DIRECTIONS FOR KURRACHEE HARBOUR.

*Lighthouse.*

**L**ATITUDE of Lighthouse on Manora Point, 24° 47' 21" N.

Longitude 66° 58' 15" E.

The light is a "fixed" one, 120 feet above the sea level, visible in clear weather, 16 miles.

In the hazy weather, prevalent during the south-west monsoon, about 7 miles.

*Note.*—It is hoped that this light will be shortly replaced by a dioptric light of the second order, for which designs have been submitted.

*Tides.*

High water, full and change, 10H. 30M.

Average rise and fall—spring tides, 9 feet 6 inches.

Average rise and fall—neap tides, 3 to 4 feet.

*Average Depth of Water on the Bar at High Water.*

Spring tides, 28 feet.

Neap tides, 25 to 26 feet.

*Draught of Vessels entering or leaving Port.*

Vessels with a draught not exceeding 21 feet can now enter and leave port without any difficulty or delay during all seasons of the year.

During the fair season, from *October to 15th May*, vessels of the largest class with a draught not exceeding 24 feet, can now enter and leave the harbour. Fixed moorings will be placed for such vessels.

*Approaches.*

Ras Muari (or Cape Monze), distant 18 miles W.  $\frac{1}{4}$  N. from the western entrance to Kurrachee, is high and bold of approach. Ships during the

south-west monsoon season should make this headland, running to the eastward for Manora Point, keeping it (Manora Point) on any bearing to the north of east.

Masters of ships should endeavour to make the port at daylight, and can with safety approach to within from 1 to 2 miles distance from the light-house, keeping it on any bearing from north-east to north, and heave to for a pilot.

#### *Time of Tide for entering Port.*

Sailing vessels should enter port on the ebb tide.

Steamers can enter either on flood or ebb, and stand at once into port.

Masters of ships should not, under any circumstances, attempt to enter the harbour without a pilot.

#### *Harbour Improvements.*

The harbour works are nearly completed, and have proved most successful, both as regards deepening the entrance channel and enlarging interior accommodation for shipping.

Among the extensive works executed, a breakwater has been built, running out from Manora Point in a south by east direction to a distance of 1,500 feet into 6 fathoms of water; this affords complete shelter to the channel over the bar during the south-west monsoon.

Also, a channel has been opened through the bar with a depth of 19 feet at low-water spring tides, 300 feet in breadth (to be widened to 500 feet); the channel is marked with buoys, and these, on entering, should be kept on port side, about 100 feet.

*Note.*—Every facility will be afforded (during the fair season only) for mail steamers to enter port during the night. A "red light" will be placed at the end of the breakwater, and a light will be shown on the west side of the channel. A mail steamer arriving off the port at night and requiring a pilot, should fire "two guns."
