Warsaw, Novemb 16.

**T**HE Forces of this Crown are gone into their Winter-Quarters, which are so ordered that they may quickly draw together, and form a Body to oppose the Tartars, who it's not doubted will take the first opportunity of Weather to make their usual Incursions. The breaking up of the Provincial Dyets in several places with great discontents, makes us fear the General Dyet that is appointed to meet here the 27th of the next month will have no better success. In the meantime Orders have been sent for the reassembling the little Dyets in those Palatinates, where they have not yet chosen the Deputies they are to send to the General Dyet. The last Letters from *Fawarow* inform us, That the King had received an account, by an Express from *Vienna*, of the Conference that had been held with the Turkish Ambassadors at *Plottendorf*, and that his Majesty had thereupon called the Senators together to consult with them concerning the Answer he is to send to the Court at *Vienna* on that Subject. They write from *Moscow*, That great Preparations are making there for the next Campaign; and that they have posted above 50000 Men in the new Forts built on the River *Marava*, to secure their Frontiers against the Incursions of the Tartars.

*Vienna, Novemb. 28.* The Marquis *d'Obizzi*, who is named by the Emperor to go in the Quality of his Envoy Extraordinary to several Princes of *Italy*, will part from hence the next Week; and about the same time the Baron *Zierowski* will begin his Journey to *Poland*, to be present at the Meeting of the General Dyet of that Kingdom. The Imperial Regiments which are marching from *Hungary* towards the Empire, are arrived in the Neighborhood of *Neubausel*, where they will refresh themselves for some days, and then continue their March through *Moravia* and *Bohemia*. The Council of War has met, to examine the Conduct of Count *Maximilian* of *Staremburg*, late Governor of *Philipsbourg*, in the defence of that place; but they have not

as yet made their Report to the Emperor. We hear from *Sclavonia*, That General *Picolomini* was drawing a Body of Troops together upon the advice he had received that the Turks were on their March to attack the Imperialists in their Winter-Quarters. The Count *de Hofkirgen* is made Governour of *Semandria* and the Frontiers of *Servia* and *Bulgaria*, in the place of Major-General *Heustler*, who is gone with two Imperial Regiments to reinforce the Blockade of *Great Waradin*. The Envoy from the Elector of *Brandenburg* has given the Emperor fresh assurances of his Electoral Highness's Resolution to employ all his Forces for the Defence of the Empire.

*Ratisbonne, Novemb. 29.* His Imperial Majesty has signified to the Assembly here, his sending of Ten Regiments into the Empire, and that he will send Ten Regiments more, if there be Occasion, besides the new Levies that are making, which there seems to be great necessity of, the French being advanced into the middle of *Franconia*, where they have ruined the Town of *A. Spach*, and demanded Contributions from *Nuremberg*, to be paid in five days on pain of Military Execution. The Bishoprick of *Aichstas* hath submitted to 15000 Crowns Contribution, the Bishop being retired to *Ingolstat* in *Bavaria*. The States of the Circle of *Bavaria* hold their Assembly still at *Wasserbourg*, and have given their consent to the raising of 6000 Men.

*Liege, Decemb. 8.* Our new Levies go on here with Success, there being 600 Men Lified within these three days. In the mean time the French Minister uses all his Endeavours to engage these Countreys in a Dependence on the King his Master. The 4th instant he received an Express from *France*, whereupon he demanded an Audience of our Prince to require him to desist from going on with the new Levies, or accepting the 300000 Crowns which the States have consented to in order to enable him to oppose his Enemies, and that he should declare himself immediately upon these two points otherwise he was to expect to be treated with the greatest rigour by the French Troops entering into his Countrey; but these Menaces will not slacken our Diligence to provide for our Safety.

*Francfort, Decemb. 8.* The Troops of *Saxony* are posted at *Achaffembourg*; part of them are sent over the *Meyn*. A Regiment of Foot of *Cassel* marched two days since by this place, to reinforce the Garrison of *Hocht*. The Elector of *Saxony* hath given the Command of his Army to General *Fleming*, and is gone himself through *Franconia* to the Court of *Bavaria*. The Duke of *Hanover* returned home yesterday, being accompanied by the Generals *Chauvet* and *Bandevoitz*, with three Regiments, which are to quarter in the Country of *Fuchsfeldt*. The Garrison of *Frankendal* arrived here yesterday. The French demand

demand 3000 Crowns for the Ransom of the Bells at Manheim.

*Hamburg, Decemb. 7.* We hear from *Stockholm*, That the the King of *Sueden* intends to keep all this Winter 14 or 15000 Men in *Schonen*; and that a considerable Body of Men will be likewise Quartered about *Gottenburg*. They write from *Stade*, That the 6000 *Suedes* which are to pass into the Service of the States-General of the United Provinces would begin their March in few days. We are told from *Copenhagen*, That the Count de *Chiverny*, Ambassador of *France* at that Court, had had his Audiences of Leave; and that his Successor, the *Sieur de Martangis*, arrived there the 24th of the last Month. Our Ships from *Moscow* are arrived in the *Elbe*.

*Cologne, Decemb. 10.* The Letters from *Baden* in *Switzerland* of the 28th past give an account, That the Cantons had at the late Dyet resolved to take the four Forest Towns and the City of *Constance* under their Protection, into which last place they had put a good Garison, and that to support this Resolution they would form an Army of 30000 men; and if that was not sufficient, of 60000. That they had actually commanded all their Subjects now in the Service of *France* not to serve against the Empire, upon pain of Death and Confiscation of Goods. In all appearance the Confederates Troops will in a short time oblige the French to quit the Palatinate and the Electorates of *Mayence* and *Cologne*, but in the mean time these Countreys are miserably destroyed.

*Whitehall, Decemb. 16.* His Majesty returned hither this Evening in very good Health. His Highness the Prince of *Orange* came to *Windsor* on Friday last; from whence he has sent the *Sieur de Zulestein* to His Majesty, who has likewise sent the Earl of *Feversham* to his Highness, to invite him to *St. James's*.

At the Court at *WHITEHALL*,  
the 16th day of *December*, 1688.
