

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for
Inventions.

NOTICE is hereby given, that the petition of William Robert Lake, of the firm of Haseltine, Lake, & Co., Patent Agents, Southampton-buildings, London, praying for letters patent for the invention of "improvements in pegging machinery, and in wire pegs to be used in the manufacture of boots and shoes,"—a communication to him from abroad by Oscar Le Grand Noble, of Chelsea, Michigan, and Treat Timothy Prosser, of Chicago, Illinois, both in the United States of America,—was deposited and recorded in the Office of the Commissioners on the 14th day of March, 1876, and a complete specification accompanying such petition was at the same time filed in the said office.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for
Inventions.

NOTICE is hereby given, that provisional protection has been allowed—

3908. To Edward Augustus Inglefield, Rear-Admiral, F.R.S., and F.R.G.S., &c., Admiral Superintendent of Malta Dockyard, and George Charles Lennox Lenox, of No. 8, Billiter-square, in the city of London, for the invention of "improvements in anchors."

On their petition, recorded in the Office of the Commissioners on the 10th day of November, 1875.

30. To George Edward Webster, of Central-chambers, Market-street, in the town and county of Nottingham, Civil Engineer, for the invention of "improvements in hosiery machines."

On his petition, recorded in the Office of the Commissioners on the 4th day of January, 1876.

76. To Hamilton Geary, of Woolwich, in the county of Kent, a Captain in the Royal Artillery, for the invention of "improvements in effecting the combustion of certain fuels for the generation of steam."

On his petition, recorded in the Office of the Commissioners on the 7th day of January, 1876.

94. To Henry Harding, of Edinburgh, in the county of Mid Lothian, North Britain, Builder, for the invention of "improvements in concrete-building, and in the means or apparatus connected therewith."

On his petition, recorded in the Office of the Commissioners, on the 8th day of January, 1876.

105. To Edwin Powley Alexander, of 14, Southampton-buildings, in the county of Middlesex, Consulting Engineer and Patent Agent, for the invention of "a new or improved boat detaching apparatus."—A communication to him from abroad by Reginald Fairfax Hyde, of Springfield, Massachusetts, in the United States of America.

On his petition, recorded in the Office of the Commissioners on the 10th day of January, 1876.

227. To Allison Owen Swett, Henry Newton Sheldon, and James Rollin Marble Squire, of Boston, in the county of Suffolk, and State of Massachusetts, in the United States of America, for the invention of "improvements in metal turning lathes."—A communication to them from Henry Marcus Quackenbush, a person resident at Herkimer, in the county of Herkimer, and State of New York, in the United States of America.

On their petition, recorded in the Office of the Commissioners on the 20th day of January, 1876.

434. To George Gibson Bussey, of Museum Works, Rye-lane, Peckham, Surrey, for the invention of "improvements in roller skates."

On his petition, recorded in the Office of the Commissioners on the 3rd day of February, 1876.

455. To William George Colechin, C.E., of No. 7, North Broad-street, Warwick, for the invention of "improvements in railway signals."

463. And to David Young, of Swinton, in the county of Lancaster, Gentleman, for the invention of "improvements connected with apparatus for exhibiting and copying pictures by the oxy-hydrogen, or other such light, parts of which are also applicable to making oxygen gas for other purposes."

On both their petitions, recorded in the Office of the Commissioners on the 4th day of February, 1876.

492. To Charles Weightman Harrison, of South Kensington, in the county of Middlesex, Gentleman, for the invention of "improvements in the application of magnetism for the promotion, restoration, and preservation of health."

On his petition, recorded in the Office of the Commissioners on the 7th day of February, 1876.

498. To Andrew Mitchell Torrance, of the firm of Miller, Son, and Torrance, of Cannon-street, in the city of London, for the invention of "improvements in the numerical marking of piece goods and other materials and fabrics sold by length, and in apparatus therefor."

On his petition, recorded in the Office of the Commissioners on the 8th day of February, 1876.

560. To Arnold Budenberg, of the firm of Schäffer & Budenberg, of the city of Manchester, Steam Gauge Manufacturers, for the invention of "improvements in steam pressure vacuum and other gauges."—A communication to him from abroad by Bernhard August Schüffer and Christian Frederick Budenberg, of Buckau, Magdeburg, in the Empire of Germany.

566. And to James Coats, Jr., of Paisley, in the county of Renfrew, for the invention of "improvements in machinery for doubling and twisting yarn and thread."

On both their petitions recorded in the Office of the Commissioners on the 11th day of February, 1876.

570. To George Friend, of Maidstone, in the county of Kent, Architect, for the invention of "improvements in roller skates."

578. And to Jonathan Scharr, of Bradford, in the county of York, for the invention of "an improved composition to be used as a substitute for oil in the preparation of wool for spinning and other manufacturing purposes."

On both their petitions, recorded in the Office of the Commissioners on the 12th day of February, 1876.

608. To Woodford Pilkington, of Kent Lodge, Campbell-road, West Croydon, in the county of Surrey, for the invention of "improvements in the construction of flexible and elastic rods for communicating force in the direction of their length, or sustaining strain transversely thereto."

612. To William Haggett, of Watford, in the county of Herts, for the invention of "improvements in the manufacture of artificial fuel, and in the treatment of the substances of which such fuel is composed, and in the methods of moulding the same into blocks, and of employing the latter for the purposes of combustion."

614. To John Williams, of Hanley, in the county of Stafford, Mineral Water Manufacturer, for the invention of "improvements in bottles for aerated or effervescent liquids, and in stoppers therefor."
