

Mildred's-court, in the city of London, intend to apply to the Board of Trade, on or before the 21st day of December next, for a Provisional Order under "The Electric Lighting Act 1882," for the following powers and purposes or some of them (that is to say):—

1. To authorise the Company to produce, store, supply, and sell electricity, electric currents, and other like agency (all in this notice called electricity) for public and private purposes as defined by the Electric Lighting Act, 1882, within the following area, which is hereinafter called the area of supply (that is to say):

So much of the parishes of St. Marylebone and St. George, Hanover-square, situated in the county of Middlesex, or in the city of Westminster, or within the liberty thereof, as is included within the boundary line hereinafter set forth (that is to say): A line commencing in Great Marylebone-street, in the parish of St. Marylebone, at a point immediately opposite Welbeck-street in the same parish, and thence running in an easterly direction along Great Marylebone-street, New Cavendish-street, and Upper Marylebone-street, until it reaches Great Titchfield-street, thence running in a southerly direction along Great Titchfield-street as far as the corner of Union-street, thence passing across the western end of Union-street and running in a south-easterly and southerly direction into and along Wells-street until it reaches the boundary of the parish of St. James Westminster in Oxford-street at a point opposite Wells street, then turning westward and following that boundary (excluding the said parish of St. James Westminster, from the area of supply) until it reaches Burlington-gardens, then leaving the said parish boundary and passing in a westerly direction along Burlington-gardens into Old Bond-street and in a southerly direction along that street to Stafford-street, thence along Stafford-street until it reaches Dover-street, thence along Dover-street until it reaches Hay-hill, thence in a south-westerly direction along Hay-hill until it reaches Berkeley-street, thence turning in a north-westerly and westerly direction and skirting the outside of the grounds of Lansdowne House to the south corner of Berkeley-square, thence turning in a north-westerly direction along the south-west side of Berkeley-square to Mount-street, thence along Mount-street until it reaches South Audley-street thence turning in a northerly direction along South Audley-street to Grosvenor-square, thence running along the west and north sides of Grosvenor-square to Duke-street, thence running in a northerly direction along Duke-street until it reaches Oxford-street, thence running in an easterly direction along Oxford-street to James-street, thence in a northerly direction along James-street until it reaches Wigmore-street, thence running in an easterly direction along Wigmore-street until it reaches Welbeck-street and thence in a northerly direction along Welbeck-street and terminating at the point of commencement in Great Marylebone-street.

Where the boundary line as above set forth is stated to run along a street or other public place, or any portion thereof, all the houses or other buildings and the lands occupied therewith having frontage to such street or other public place, or such portion thereof, are to be included within the area of supply.

2. To authorise the Company to acquire, construct, and use, and from time to time to sell, let, and otherwise dispose of the machinery, plant, and apparatus hereinafter described for the production, storage, regulation, measurement, and supply of electricity, and also to acquire, con-

struct, maintain, and enlarge, and to discontinue, sell, or otherwise dispose of all such lands, buildings, machinery appliances, and other property as shall be required for the purpose of containing, manufacturing, and working the machinery, plant, and apparatus to be so used for the production, storage, regulation, measurement, and supply of electricity.

3. The works proposed to be constructed, used, and maintained, are as follows:—

Steam and other engines, boilers, dynamo and other electricity-generating machines, batteries and accumulators, electric and other lines and mains, cables, wires, lines, conductors, lamps, and machines, and other apparatus for producing, regulating, distributing, measuring, and utilising electricity, and also all buildings, works, and appliances required for containing, using, manufacturing, renewing, and repairing such apparatus.

4. To authorise the Company to place, lay down, maintain and use, and to take up, sell, and otherwise dispose of, electric and other mains, storage and other batteries, cables, conductors, services, wires, tubes, pipes, insulators, meters, reservoirs, distributing, cut-out and other boxes, switches and other apparatus for transmitting, storing, measuring, regulating and distributing electricity for lighting or other purposes, public and private, and any pipes, conduits, or other channels of water supply for feed or condensing purposes, or otherwise, to be used for the purposes of, or in connection with, the works and lines to be erected, used, or maintained under such Order (all in this notice hereinafter called electric lines), in, through, under, over, along and across, and either above or beneath the surface of, and for that purpose to cross, open, break up, divert, alter, stop up, or otherwise interfere with, whether temporarily or permanently, all roads, streets, footpaths and other public places, and all railways, tramways, canals, rivers, watercourses, bridges, sewers, drains, gas, water and other pipes, telegraphic, telephone and electric posts, wires and pipes, pneumatic tubes and apparatus, and works of every description within the area of supply.

5. To authorise the Company to acquire, place and use, and to take up, sell, and otherwise dispose of, meters for measuring electricity, switches, resistances, cut-out boxes, lamps, fittings, motors and machines for converting electricity into power, heat, or otherwise, and all other works, matters and things required for the distribution, measurement, and use of electricity.

6. To authorise the Company, on the one hand, and any corporation, vestry, district board, or other local or sanitary or road authority, and any railway dock, canal, or other Company, on the other hand, to enter into and carry into effect and rescind and renew contracts for empowering the Company to enter upon and break up the streets, roads and other places and things before mentioned, and, if thought expedient, to authorise such bodies, authorities and companies to exercise the powers with respect to the breaking up of streets and other places and things before mentioned proposed by the Order to be conferred upon the Company.

7. To authorise the Company, on the one hand, and any corporation, vestry, district board, or other local or sanitary authority, on the other hand, to make and carry into effect and rescind and renew contracts for the supply of electricity, to or for the purposes of such corporation vestry, district board, or other authority, and to authorise such authority to apply for the pur-
