(Translation.)

Vessels which on a previous voyage have been to India and called at cholera-infected ports, frequently arrive at Black Sea Quarantines with clean bills of health granted at British ports. According to the existing regulations issued to the Black Sea Quarantine Authorities, such vessels had to undergo at the Black Sea ports a quarantine of observation irrespective of the length of time which might have elapsed since they had left a cholera-infected port.

Now the Chief of the District, with the consent of the Ministry of the Interior, has granted that those vessels arriving from cholera-infected ports of India which have been cruising about for more than three months since they left a cholera-infected port be exempted from a quarantine of observation, provided that during the voyage nobody on board has been ill with cholera, and that the crews of these vessels on their arrival at a Black Sea quarantine should prove to be in a perfectly satisfactory state of health.

NOTICE is hereby given, that an application made by the Chelsea Electricity Supply Company Limited, of 37, Sloane-square, London, S.W. (hereinafter called "the Company") to the Board of Trade, on 11th March, 1889, under the provisions of the Electric Lighting Acts, 1882 and 1888, or any modifications thereof for the time being subsisting, for a licence for all or some of the following purposes, has been entertained by the Board of Trade.

To authorise and empower the Company to produce, store, and supply electricity, as defined by the said Acts, for all or some of the public and private purposes, as defined by the said Acts, within the area hereinafter mentioned, in the parish of Kensington, in the county of Middlesex, and for those purposes to enter upon, break up, and interfere with all streets, roads, and places, ways, footpaths, railways, tramways, canals, towing paths, bridges, culverts, sewers, gas and water mains and pipes, telegraph and pneumatic tubes

and pipes, telegraph and telephone wires, within the said area, and to lay down, set up, maintain, renew, or remove, either above, or underground, or otherwise, pipes, tubes, wires, posts, apparatus, or other works or things required for enabling the Company to supply, produce, store, convey, transmit, or distribute electricity for the several private and public purposes aforesaid, within the said area, and to confer all such other powers upon the Company as may be necessary for effecting the objects of the proposed undertaking.

To enable the Company to purchase, hold, acquire, or take on lease any lands or interests, or easements in land, and to erect, maintain, use, and work upon such land all necessary stations together with all storehouses, engines, machinery, apparatus, works, and appliances for the production, storage, and distribution of, and to produce, store, and distribute electricity.

To authorize the Company to manufacture, hire, sell, and let all necessary machines, lamps, accumulators, meters, fittings, plant, machinery, and other matters or things required for the purposes of the said Order, and to acquire, work, and use patents and licences for patents, for the making, producing, controlling, and measuring, or otherwise relating to the supply of electricity.

To enable the Company on the one hand, and the London County Council and the Vestry of the parish of Kensington, or either of those bodies, on the other hand, to enter into and fulfil agreements as to the supply of electricity, and as to the breaking up and interfering with any streets, roads, ways, public footpaths, and public places as aforesaid, and otherwise with respect to the objects of the Order, and, if thought fit, to authorize such Council or Vestry to exercise the powers with respect to the breaking up of streets and other places, and all or any of the other powers proposed to be conferred upon the Company, and to confirm and give effect to any agreements which may have been or may be made in that behalf.

To authorize the Company to take, collect, and recover rates, rents, and charges for the supply of electricity, and the use of any machines, lamps, meters, fittings, or apparatus connected therewith.

To incorporate with the licence and to extend and apply to the proposed undertaking and Works, and to the Company as Undertakers of the same, and with or without variation, all or some of the provisions of the "Electric Lighting Acts, 1882 and 1888," and of the Acts or portions of Acts incorporated therewith, and to confer upon the Company all or some of the powers within the area of supply, which, by the "Electric Lighting Acts, 1882 and 1888," or any Act amending the same or incorporated therewith, are or may be conferred upon Undertakers; and the licence will contain all such regulations and conditions as to the supply of electricity, and all matters incidental thereto, as the said Acts authorize or the Board of Trade may prescribe, and will alter, vary, or extinguish all rights and privileges which would or might interfere with any of its objects, and confer all other rights and privileges necessary for carrying such objects into effect.

To limit, if thought fit, the district within the area of supply within which the supply of electricity shall be compulsory, or, if thought fit, to provide for its being permissive throughout the whole area of supply.

The area of supply within which it is proposed that the provisions of the said licence shall be in force and have effect is that part of the parish of St. Mary Abbots, Kensington, which is enclosed by a line starting at a point on the north-east
