

five men in Hungary the next year, without reckoning the Troops of that Kingdom, and those it will be necessary to keep in Transylvania, towards the making up of which Forces the Elector of Bavaria will furnish 4000 men, 6000 Imperialists are recalled from the Empire, 12000 will be raised by the Hereditary Countries, the rest are now in Hungary and Transylvania, or will be raised by the Emperor this Winter. The Count de Lodron, the Emperors Ambassador Extraordinary to the Swiss Cantons, parted from hence on Wednesday last with full Instructions to raise the 4000 men granted the Emperor some time since by the Cantons.

Mentz, Novemb. 29. General Thungen, who commands here, having advice, that 15000 French were drawn together near Keyserlautern, and that they had some design upon this place, has reinforced our Garrison with 4 Regiments of Hesse, by which we believe the Enemy are disappointed in their Enterprize.

Cologne, Decemb. 1. General Swartz, who commands the Frontier Troops, has at last received Orders to remain with five Regiments in this Diocese, where they are to have their Winter-quarters. The French Troops are in Motion on the Moselle. The Letters from Basle, of the 24th past, tell us, That the Deputies of the 13 Cantons have, in their General Diet held at Baden, unanimously resolved not to suffer the French to go on with their new Works at Hunningen, and that they had communicated this Resolution to the French Ambassador, who had desired three weeks time to receive the King his Masters Directions thereupon; and in the meantime had promised, that a Stop should be put to the said Works.

Paris, Novemb. 27. The French King has lately put out an Edict, declaring, That the Excessive Expences he is engaged in for the defence of the Kingdom against so many Enemies, having obliged him after the great Alienations he has been forced to make of his Revenues, to have recourse to extraordinary ways, for the raising of Monies, he had thought fit to create two new Presidents a mortier, a third Advocate or Attorney General, 16 Counsellors, and divers other Inferiour Officers in the Parliament of Paris. The said Presidents paying each 500000 Livres, the Advocate-General 300000, the Counsellors 100000, and the other Officers proportionably; which by computation will bring into the Kings Coffers two Millions six hundred Livres; and it's believed a like augmentation of Officers will be made in all the other Courts of Judicature. The Letters from Savoy give an account that Monsieur Cabinas being come before Susa, the Town submitted on the 12th instant, and the next day the Governor of the Cittadel capitulated, and the Garrison, consisting of 700 men, marched with their Arms and Baggage, and 3 pieces of Cannon to Turin, where the Governor was secured for not better defending the place; the French having only fired 3 pieces of Cannon, and 3 Bombs against it, and had their Trenches open but 18 hours. About the same time the Marquis de Parede with 4000 men of the Duke's Forces, took Chastellon-Dauphin situated at the entrance into Dauphine, the French in Garrison there being forced, after a stout resistance, to surrender at discretion. We hear since that Monsieur Caron has separated his Troops, in order to put them into their Winter-quarters in Dauphine, Provence, and Languedoc. The Marechal de Lorge who commanded the French Army in Germany under the Dauphin, is returned hither, having left the Marquis d'Uxelles to command in Alsace. Signior N. colini the Pope's Nuncio is likewise arrived here, but has not yet appeared in publick. The Duke of Luxemburg has, it's said, orders to return to Holland.

Brussels, Decemb. 5. The French, by their motions on our Frontiers, seem to have some design in hand; their Garrisons are crowded with men, and they make great provision of Forage between the Samore and the Meuse. The Marquis de Boufflers, who commands in the absence of the Duke of Luxemburg, having been to view Thion on the Sambre (which place the French are fortifying with great diligence) and their other frontier Garrisons, is come to Tournay, where he held on the 2d instant a great Council of War. Our Governour-General at the same time is reinforcing our frontier Garrisons, and has given Orders for the fortifying several Posts for the greater security of our Frontiers. There is a discourse that the Prince of Liege is treating with to raise 4000 Foot, 400 Horse, and 500 Dragoons, for the service of these Countries.

Hague, Decemb. 5. Great Preparations are making here for the Reception of His Majesty of Great Britain. The Deputies of the States and those from the Admiralties continue their Conferences about the Sea Affairs. Prince Waldeck is still at Masfricht.

Dublin, Novemb. 21. The Lords Justices have issued a Proclamation for Regulating the Quarters of the Army, and determining the Rates to be allowed for the Soldiers Dyet, the Taxes of Provisioners, and the manner how the Inhabitants that trust them shall be paid for the same. Their Lordships have likewise issued a Proclamation for preventing the Mischeries occasioned by the Rapparees. We have an account from the County of Wicklow, that Captain Archer, with 20 of the Militia, had, on the 13th instant, taken upon a Party of Rapparees, but finding them much stronger than

he expected, was forced to retire with the loss of 4 of his men, upon which he immediately raised some more of the Militia, and the next morning by break of day again engaged the Rapparees, and put them to flight, killing and wounding about 100 of them, and taking 20 Prisoners.

Portsmouth, Novemb. 27. This day Sir Cloudfly Shovel sailed from St. Helens, with Their Majesties Ships under his Command, to the Westward.

These are to give Notice, That whoever discovers Captain James Campbell, and Archibald Montgomery, (who John Johniton being taken on the 23d past, and the Reward paid accordingly,) Named in Their Majesties Proclamation of the 15th of November last past, so as that they may be apprehended, or either of them, shall, for such Discovery of the said Captain James Campbell, have 1000 Reward, and for such Discovery of the said Archibald Montgomery, have Fifty Pounds Reward paid by Mr. Barclay at his Chamber in the Temple.
