Character of Cape Trafalgar Light.

AS various statements have been made by the Commanders of vessels getting aground near Cape Trafalgar, respecting the character of the light on that cape; enquiries have been addressed to the Spanish Government on this point, with the result that information has been received that no alteration has been made in Cape Trafalgar Light, the apparatus of which is calculated to revolve every half minute.

Attention is however called to the fact, that within a distance variously reported as from 8 to 12 miles, the light appears as fixed, and many passing vessels have reported, that when seen as a revolving light beyond that distance, the period is not regular.

The following note has been placed on the Admiralty Charts:—"Cape Trafalgar Light shows fixed within a distance of about 12 miles. The period of revolution is not regular."
