Lisbon, May 27.

THE Queen of Portugal was this day brought to Bed of a Prince, to the great Joy of this Court.

Turin, May 26. On the 23d instant the Duke of Savoy began to form his Camp within a mile of this place, 2 Regiments of Dragoons, and 4 of Foot, of his Royal Highness's own Troops, with two Battalions of French Protestants of *de Loches* and *Maller* arriving there that day, since which, 2 German Regiments of Foot, and 2 Regiments of Horse, in the Service of the Milanese, are likewise come into the Camp, and the rest of the Forces are marching thither, so that we hope in few days to have an Army together of between 20 and 24000 men; The Train of Artillery stands ready here. The French, we hear, are moving from *Susa* towards *La Veillane*.

Milan, May 30. Our new Governor the Marquis de *Laganz* arrived here on the 26th instant from *Genova*, after having had a long Conference with the Duke of *Savoy at Asti*. The Count de *Fuenfollida*, his Predecessor, gave up the Government to him the same day, and the Nobility, and other Persons of Quality, have since made him their Compliments. He has already begun to reform several things, and has ordered Money to be sent for the payment of our Troops in *Piedmont*, whither the rest of the Forces designed from hence for his Royal Highness's assistance, are likewise on their march.

Vienna, June 7. Their Imperial Majesties, and the King of the *Romans*, went from hence yesterday towards *Göding in Moravia*, to see the Auxiliary Troops of *Brandenburg* in their march towards *Hungary*. Prince *Louis of Baden* will set out the next week. The Troops in the mean time are marching to the General Rendezvous, and will be all in a Body about the 18th of this month; The Count de *Bathiani* is on his march with 1000 Hungarians towards *Eggek*, where 8 Companies of the Regiment of *Salm*, 10 of *Beck*, 5 of *Nigredt*, 12 of *Arantz*, 14 of *Chizzola*, 2 of *Archinto*, 9 of *Harberstein*, and 4 of *Pass*, are now in Garrison. We hear from *Constantinople*, that the *Rascians*, under the command of their famous Captain *Antonio*, have retaken the Island of *Crozza*, and cut off a great number of *Turks* that were posted there, and that they afterwards made an Execution towards *Jagodin*; The same news comes likewise from *Eggek*, and we hope our next Letters will bring the confirmation of it. They write from *Croatia*, that the *Enemies* Troops, which lately approached towards their Frontiers, are retired again; And that the Governor of *Dubitz*, having from that and the neighbouring Garrisons of *Zeni* and *Coffaurza* drawn together 1500 men, he marched with them as far as *Maidm*, a Turkish Garrison, and committed great Spoil thereabouts, but returning with their booty, they were set upon by a Body of *Turks*, with whom they had a very sharp Dispute; In the beginning of the Fight the *Croatians* were forced to give way, and lost part of their Plunder, but they soon regained their Ground and their Booty, and put the Enemy to flight, of whom divers were killed, and many drowned in the River *Gouzzera*, near which this Action happened. The Advices from *Turkey* say, that the *Ottoman* Troops, which have their Rendezvous near *Soptra*, would not decamp from thence till the 7th or 8th of this month; And that the Grand *Vizier* was not expected at *Belgrade* till towards the end of it. On the 5th instant Sir *William Holfy*, Ambassador from Their Majesties of *Great-Britain*, was received at *Belgrade* with great Honour and Respect, the Seraf

quier himself coming to Compliment him, and expressing no little Inclination to a Peace; And on the 10th, he parted again from thence by Water to *Nicopolis*.

Frankfort, June 13. The Troops of *Saxony* are arrived in *Franconia*, and in 2 or 3 days will have joined the Confederate Army, which lies encamped under the command of General *Caprara* at *Wisselock*, about 2 Leagues from *Hudeberg*. The French, to the number of about 10000 men, have lately appeared before *Mentz*, and made a show as if they designed to post themselves there, but found to warm a reception from the Cannon of the Jews, that they were quickly forced to retire, with the loss of divers of their men. A great many French Defectors are come from the French Army to *Mentz*. The *Grisons* have granted passage through their Territories to the Imperial and Bavarian Forces that are going to *Piedmont*, who are to pass in several Bodies about 1000 at a time.

Cologne, June 15. The Landgrave of *Hesse Cassel* went through here this day to join his Forces, which are marched towards the *Muse*. The Confederates fortify *Dueren*. From the Palatinate we have advice; that the Confederate Army lay at *Wisselocke*, composed of about 24000, and when the Saxons, who are 12000, with some other Troops that are yet to join them, are come up; they will make about 45000 men. The French have showed themselves before *Mentz*, but they presently retired again, their design seeming to be only to ravage the Country.

Paris, June 15. The last Letters from *Bress* tell us, that they were making all the haste they could to get out the Men of War that lay ill there, and that they hoped to have them ready about the 20th of this month to join those that are already at *Behelille*. 'Tis reported here, that our Troops in *Piedmont* are marched to *Carmagnole*, which is a place of no strength; and that they have demolished *Roveri* and *La Veillane*. But it seems we are at the same time not without our apprehensions from that side; seeing Orders are given for the fortifying of *Geneve*. The Letters from *Rome* give us yet little prospect of the Election of a Pope.

Brussels, June 17. The King decamped this day from *Anderlecht*, and marched to *Digon* about a League from this place. Our Governor-General, who had his Quarters near *Wood*, repaired likewise thither this morning. They write from *Leige*, that Count *Serclier de Tilly* understanding, that the Marquis de *Boufflers* had repassed the *Meuse* with the Troops under his command, raised his Camp near *Leige*, and having left a good Garrison in *Idre*, marched with 4000 Foot and 3000 Horse, in order to join the Confederate Army in *Flandres*. The Forces of *Hesse*, with the other German Troops under the command of the Count de *Liquor*, lie at present about *Tongres*. The King of *Spain* continuing
