NOTE.—To avoid these shoals, vessels should not pass less than 4 miles from Cape Monze, and keep Manora Point Light bearing northward of E. by N. (N. 79° E.) until well past them.

Innambán River Light on the Burra Unreliable.

INFORMATION has been received through the Board of Trade, that the Master of the steam-vessel "Saxon," reports that the glass on the northern side of the light (fixed white) at the Burra, southward of entrance to Innambán River, is broken, and consequently the light can only be exhibited when there is no wind.

The light will probably not be repaired until about the middle of the year 1896.

RULES AND REGULATIONS made in the Month of February, 1896, by the Gunmakers' Company and the Guardians of the Birmingham Proof House, under Authority of the Gun Barrel Proof Act, 1868.

WHEREAS in and by section 117 of the Gun Barrel Proof Act, 1868, the Gunmakers'

Company and the Guardians of the Birmingham Proof House in such Act, and hereinafter referred to as "the Two Companies," are empowered, should they deem the proof or the rules, regulations, and scales stated in Schedule "B" to the said Act annexed, or any of them respectively, insufficient or inapplicable or unsuitable, on application to and with the approval of Her Majesty's Principal Secretary of State for the War Department, to repeal or alter all or any of the rules and regulations, and all or any part of the scales respectively from time to time in force under the said Act for the proof of small arms or of any classes of small arms, and to make, repeal, and alter any new rules and regulations, and any new scales in that behalf.

And whereas the rules, regulations, and scales now in force under the said Act are the rules and regulations made in the month of December, 1887, and which were approved by the Right Honourable Edward Stanhope, Her Majesty's then Principal Secretary of State for the War Department, on the 28th December, 1887. And whereas since the approval of the last-mentioned rules and regulations, certain improvements and alterations have been made in the manufacture of explosives for use in small arms, in consequence of which alterations are necessary in the rules, regulations, and scales of proof.

Now, therefore, the Two Companies with the approval of the Most Honourable the Marquis of Lansdowne, K.G., Her Majesty's Principal Secretary of State for the War Department, do hereby repeal the said rules and regulations and scales made in the month of December, 1887, and in lieu thereof do make the following rules, regulations, and scales, that is to say:—

SCHEDULE B.

CLASSIFICATION OF SMALL ARMS.

1. *First Class.*—Comprising single-barrelled muzzle-loading military arms of smooth bore.
2. *Second Class.*—Comprising double-barrelled military arms of smooth bore, and single muzzle-loading rifled arms of every description, except arms of the Seventh and Eighth Classes.
3. *Third Class.*—Comprising every description of single-barrelled Birding, "Danish," "Dutch," "Carolina," and "Spanish" arms, not being breech-loaders.
4. *Fourth Class.*—Comprising every description of double-barrelled fowling-pieces and rifles, and breech-loading arms of every description and system, not being of the Fifth, Sixth, Seventh, or Eighth Classes.
5. *Fifth Class.*—Comprising revolving small arms of every description and system.
6. *Sixth Class.*—Comprising all arms, except those of the Eighth Class, having one or more barrels choke-bored, *i.e.*, barrels whereof the diameter of the bore at the muzzle is less than the diameter of the bore at some point behind the muzzle other than the chamber or recess which contains the charge.
7. *Seventh Class.*—Comprising express rifles, *i.e.*, rifles intended to be fired with a larger charge of powder than ordinary rifles, and which must be so declared in writing when sent for Definitive Proof.
8. *Eighth Class.*—Comprising choke-bored barrels having all or a portion of the smaller diameter of their bore rifled.

RULE OF PROOF.

9. *The Gunpowder* used shall be of strength equal to Waltham Abbey "R.F.G2," but of a

Mixed Grain to pass through Sieves of No. 27 Wire Gauge, varying between 17 and 36 meshes to a lineal inch, and no change shall be made therein without the consent of Her Majesty's Secretary of State for War.

10. Barrels for arms of the Fourth, Sixth, and Eighth Classes, in which nitro powders are intended to be used, shall be so declared in writing by the sender, and shall receive a supplementary proof with the powder now known as Curtis and Harvey's No. "T.S.2," Powder (or a similar powder in all respects), in addition to the ordinary Definitive Proof, and shall be specially marked as hereinafter provided. Scale No. 5 in the Schedule to these rules, sets forth the said supplementary proofs applicable to barrels of various bores. The two Companies are empowered to frame scales of these supplementary proofs, for barrels of any other bores. In case barrels sent for proof for the use of nitro powders, are intended by the senders to shoot charges of powder or shot greater than the ordinary service charges of the respective bores set forth in Scale 6, in the said Schedule, then the quantities of powder and shot so intended to be used, shall be declared in writing, and a proof charge proportionate thereto shall be used.

11. Barrels for arms of any class, shall, at the request in writing of any person sending the same for Definitive Proof, be proved with "Schultze," "E.C.," or any particular description of gunpowder which may be specified, after and in addition to the ordinary Definitive Proof. The service charges of such powders shall be determined by the two Proof Companies respectively from time to time, and the quantities of the said powders to be used in proof shall be such as the two Companies shall decide to give a stress not less than eighty per cent. nor more than one hundred per cent. over that of the service charges in Scale No. 6 to these rules. The service charges of such powder and shot shall be marked on the barrels. If any new powders shall come into use, or the existing powders be increased in strength, the same regulations shall apply thereto.

12. *The Bullets* used shall be of lead, of the specific gravity 11.352, and of the size and weight prescribed by the respective Scales for Proof. The bullets, except those used for rifled arms, shall be spherical, cylindrical, or conical in shape, and for rifled arms they shall be cylindrical and flat-ended. For arms of the Eighth Class they shall be conical, and of a diameter not more than .005 of an inch less than the muzzle diameter of the barrel.

13. For the Definitive Proof of all shot barrels, except for arms of the Eighth Class, shot shall be used instead of bullets.

14. *The Shot* used shall be of lead, and of the size and description known in the gun trade as "Soft Shot," size No. 6.

15. *The Wads* to be used shall be of solid felt, and shall not exceed in thickness one diameter of the bore, one wad to be placed over the powder and another over the bullet.

16. The charges of powder and lead for Provisional Proof of all arms shall be according to such scale to these rules as may be applicable thereto respectively. The charges for Definitive Proof, except for arms comprised in Rule 17, shall be according to No. 3 scale to these rules.

17. Barrels for rifled arms of the Second Class, and for arms of the Fourth, Sixth, and Seventh Classes, shall be definitively proved with double the quantity of powder and one and one-third the weight of lead of the service charges set forth in the respective scales to these rules. Barrels for arms of the Eighth Class shall be definitively

proved with double the quantity of powder and one and one-half the weight of lead of such service charges. Barrels for rifled arms of .303 diameter, taking a nitro cartridge of the form and dimensions now employed in the British Service Magazine Rifle, shall be proved definitively with 45 grains of the powder known as "Rifleite" (or a similar powder in all respects), and with a lead plug 287 grains in weight, covered with greased paper. Barrels for rifles of larger or smaller diameter than .303, and in which nitro powder, and a bullet four or more calibres in length, are intended to be used, shall be so declared in writing by the sender, and shall be proved with such a proportionate amount of Rifleite and lead as that the excess of proof stress shall be in the same ratio as that for the .303 rifle aforesaid. Nothing in this rule shall prevent the sender of a rifle barrel, on request in writing, from having it definitively proved with a greater charge than is provided in this rule, at a proportionate increase of price—nevertheless it shall be marked in the ordinary way.

18. For all military arms manufactured for the British Government, the scales of proof shall be the same as used by Her Majesty's War Department from time to time.

19. Barrels for breech-loading arms of the Fourth Class, and for arms of the Sixth, Seventh, and Eighth Classes, shall be Proved Provisionally and Definitively. Barrels for arms of the Second Class, and single breech-loading arms and muzzle-loading arms of the Fourth Class, shall be Proved Provisionally and Definitively, or on the request in writing of the person or persons sending the barrels for proof shall be proved once only, in which case such barrels shall be sent in the state for definitive proof, but shall be proved according to the scale for provisional proof, and shall be marked with a special mark denoting that such barrels have been proved in the definitive state according to the scale for provisional proof. Barrels for arms of the First and Third Classes shall be proved once definitively; but the scale used for proving such barrels for arms of the Third Class as have the diameter of the bore in every part one inch and a quarter or upwards shall be the provisional scale.

20. Nevertheless, it shall be sufficient from time to time to prove all breech-loading military barrels in the same manner as breech-loading military barrels made for the use of Her Majesty's Forces, and with the same weight of gunpowder as is now used, or from time to time shall hereafter be used, in the proof of similar barrels at the Government Factories.

21. As to any military barrel made for the use of Her Majesty's Forces, or for the late Honourable East India Company, which has ceased to belong to Her Majesty, but which bears in addition to a Proof Mark authorized by Her Majesty's War Department, the letter "O" struck (prior to such cesser) over or upon the broad arrow or some part thereof by the said War Department, it shall, if it be a rifled barrel, be proved with Definitive Proof, or if it be a smooth-bore barrel with half the charge of powder, but with the same weight of bullet which would be applicable to the proof thereof if such barrel were an unproved barrel under the said Act and these Rules, and after either such proof, such barrel shall be marked as Proved Definitively; and as to any military barrel made for the use of Her Majesty's Forces, or for the late Honourable East India Company, which has ceased to belong to Her Majesty, and which does not bear in addition to a Proof Mark authorized by Her Majesty's War Department the letter "O," or the letter "S" struck (prior to

such cesser) over or upon the broad arrow or some part thereof by that Department, it shall (whether it shall or shall not bear a Proof Mark authorized by that Department) be liable to proof as an unproved barrel according to its classification under the said Act and these Rules.

22. All breech-loading shot barrels of 10-bore or less, having chambers of three inches or longer, shall be so declared in writing by the sender, and be proved with one-sixth more powder than the ordinary Definitive Proof Charge.

23. Barrels for arms of the Fourth Class, of larger gauge than four, and for which no service charge is laid down in the Scale, shall have the service charge declared in writing by the person or persons sending the same for proof, and be proved with a charge bearing the same proportion to such service charge as defined by Rule 17. Shot guns, having barrels not less than five and a half feet long, in which a coarse powder is to be used, shall have the intended service charge declared in writing by the sender, and they shall be proved with the powder known as Curtis and Harvey's "Col. Hawker's Duck Gun Powder" (or a powder similar in all respects), and shall be proved with double the amount of powder, and one and one-third the weight of shot of the declared service charge, and the said service charge shall be marked on the barrel. In case a nitro powder is to be used, the provisions in Rules 10 and 11 shall apply thereto.

24. A barrel of any description to which the classification or scales of proof are, in the judgment of either of the two Companies, inapplicable or unsuitable, shall be proved with such a bullet or charge of shot as shall be applicable to the dimensions of the bore of such barrel, and with such a charge of powder as shall give a stress not less than is provided in Rule 11, or in case the barrel shall not be capable of holding such Proof Charge, with as much powder as the barrel is capable of holding.

25. The several powders used in proof, shall at all times be open to the inspection of any officer authorized for the purpose by the Secretary of State for War, who may take samples for examination, or trial of the same, without notice.

CONDITIONS PRECEDENT TO PROOF.

26. Barrels for arms of the First Class shall not be qualified for proof until they shall be in a fit and proper state for setting up, and the thread of the screws sound and full.

27. Barrels for arms of the Third Class shall not be qualified for proof until they shall be bored and ground, and in a fit and proper state for setting up, with the squares set off, looped, and the proper breeches in, and all the threads of the screws sound and full; and all barrels for percussioned arms shall be percussioned, and shall be proved with the proper nipples in.

28. Barrels for arms of the Second, Fourth, Sixth, Seventh, and Eighth Classes:—

For Provisional Proof.—If of plain metal, shall be bored and ground, having plugs attached, with touch-holes drilled in the plugs of a diameter not exceeding one-sixteenth of an inch. Notches in the plugs instead of drilled touch-holes shall disqualify for proof. If of twisted metal they shall be fine-bored and struck up with proving plugs attached and touch-holes drilled as in the case of plain metal barrels.

For Definitive Proof.—The barrels, whether of plain or twisted metal, shall be smoothed in the finished state, with the breeches and barrels in the percussioned state, huts filed up, inside of barrels shall be cleaned, the top and bottom ribs

of double barrels shall be fairly struck up, pipes, loops, and stoppers on, the proper breeches and nipples in, the thread of the screws sound and full, and all rifle barrels shall be rifled.

29. Barrels for breech-loading arms shall receive the final proof after the breech-loading action is attached complete, and both barrels and action are in the finished filed state.

30. Smooth-bored barrels converted into choke-bored barrels shall be subjected to a further Definitive Proof according to the Scale No. 4 provided for the Sixth Class.

31. All choke-bored barrels sent for proof shall be declared in writing before proof to be so, and unless so declared they will be marked as if they were not choke-bored.

32. Barrels for revolving arms shall have the cylinders or chambers with the revolving action attached and complete, and shall be proved with a cartridge containing the maximum service charge which the cylinder or chamber of the arm will receive.

MODE OF AFFIXING PROOF MARKS.

36. On Arms of the First, Third, and Fifth Classes the Definitive Proof mark and view mark shall be impressed at the breech end of the barrel, and if the barrel is constructed with a patent breech, or with revolving cylinders or chambers, the view mark shall be also impressed upon the breech or upon every cylinder or chamber, if more than one, with which the barrel is connected.

37. On arms of the Second Class, and single barrelled arms of the Fourth, Sixth, Seventh, and Eighth Classes Proved Provisionally and Definitively, the Provisional Proof mark shall be impressed on the round of the barrel near the breech end, and the Definitive Proof mark and view mark shall be impressed upon the barrel above the Provisional Proof mark, and if the barrel be constructed with a patent breech, or with a breech-loading action, or with a breech block or chamber, the view mark shall be also impressed upon the patent breech, breech-loading action, shoe, breech block, or chamber, with which the barrel is connected.

38. On arms of the Fourth, Sixth, Seventh, and Eighth Classes being double breech-loaders, the barrels for which have been submitted for Provisional Proof before being put together, the Provisional Proof mark shall be impressed upon the round of the barrels near the breech, in front of the flats, or in a corresponding position when there are no flats, and the Definitive Proof mark and view mark shall be impressed upon the flats or in a corresponding position when there are no flats. If Provisionally Proved after being put together, the Provisional Proof mark shall be impressed upon the flats at the breech end, or in a corresponding position, and the Definitive Proof mark and view mark shall be impressed immediately following the Provisional Proof mark. The view mark shall also be impressed upon the action or shoe, breech block or blocks, chamber or chambers, with which the barrels are connected.

39. On arms of the Second, and single breech-loading and muzzle-loading arms of the Fourth, Classes Proved Provisionally in the state for Definitive Proof, the proof mark shall be impressed in the same position as the view mark occupies according to Rules 37 and 38.

40. On all barrels the gauge size of the barrel shall be impressed at the Definitive Proof, and on

all barrels for breech-loading arms of the Fourth, Sixth, and Eighth Classes, the chamber gauge size, together with the letter "C," signifying Chamber, shall also be impressed following the Definitive Proof and view marks, and shall be enclosed in a device, thus:—

41. In all smooth-bore and choke-bored barrels, from 4 to 10 gauge inclusive, the gauge shall be divided into three parts and be marked accordingly: thus the divisions of gauge 8 would be marked 8, $\frac{1}{4}$, $\frac{3}{4}$; from 11 to 17 inclusive, the gauges shall be divided into two parts: thus the divisions of gauge 12 would be 12, $\frac{1}{2}$; all lesser gauges shall be marked as set forth in the schedule hereto. In all smooth-bore and choke-bored breech-loading barrels the gauge size of the barrel shall be taken at a point nine inches from the breech end. In all other barrels the gauge size shall be taken at the muzzle.

42. On barrels for arms of the Sixth Class the additional mark "Choke" shall be impressed, following the chamber gauge. On arms of the Eighth Class the letter "R" shall be impressed immediately preceding the word Choke thus: "R CHOKE."

43. The following illustrates the mode of marking arms of the Sixth Class:—

As to the Gunmakers' Company.

As to the Guardians.

44. The following illustrates the mode of marking arms of the Seventh Class:—

As to the Gunmakers' Company.

47. Barrels proved according to No. 11 of these Rules, shall be marked E.C. for powder known as "E.C.," and SCH. for powder known as "Schultze," and for any other Nitro Powder, a suitable abbreviation indicating the same together with numbers showing the maximum service charges of powder in grains, and shot in ounces, that may be used, as for example: "Maxm. Sch. 45 Grs., Shot, $1\frac{1}{4}$ oz."

48. Barrels Proved according to No. 23 of these Rules shall have the service charge marked in drachms and ounces, following the proof and view marks.

49. When a barrel of any arm, which barrel has been Proved Definitively, or which has been proved in the state for Definitive Proof but according to the scale for Provisional Proof, is brought to the Proof House, or any branch Proof House of either of the said two Companies, to be proved again Definitively, or according to the scale for Provisional Proof, if such barrel upon being so proved again does not stand proof, the person or persons respectively, who, under the said Act, is or are entitled to impress marks of proof on such barrel, shall efface all the existing marks of Definitive Proof therefrom.
