GENERAL ORDER of the Local Government Board: Vaccination: Amending Instructions to Public Vaccinators :—

To the Guardians of the Poor of the several Poor Law Unions in England and Wales ;—
And to all others whom it may concern.

WHEREAS by an Order issued by Us, the Local Government Board, and dated the 28th day of February, 1887, it was provided that all vaccinations and inspections under Contract should be performed in accordance with the "Instructions for Vaccinators under Contract" contained in the Schedule appended to such Order ;

And whereas by paragraphs (5) and (6) of the Instructions contained in the said Schedule certain directions were given to Vaccinators with regard to lymph to be used or furnished for vaccination ;

And whereas it is expedient that further provision should be made in the matter as hereinafter mentioned :

Now therefore, We hereby order and direct that the said Order dated the twenty-eighth day of February, one thousand eight hundred and eighty-seven, shall be amended by the substitution for the above-cited paragraphs (5) and (6) of the Instructions to Vaccinators contained in the Schedule to such Order of the following paragraphs, namely :—

"(5.) Endeavour to maintain in your district
"such a succession of cases as will enable you
"to vaccinate with liquid lymph directly
"from arm to arm at each of your contract
"attendances. When stored lymph, whether
"humanized lymph or calf lymph, is used, it
"should be preserved either dry on ivory
"points, thickly charged and constantly well
"protected from damp ; or liquid in tubes,
"hermetically sealed at both extremities.
"With all stored lymph caution is necessary,
"lest in time it have become inert, or other-
"wise unfit for use.

"(6.) Consider yourself strictly responsible for
"the quality of whatever lymph you use or
"furnish for vaccination. In storing lymph,
"be careful to keep separate the charges
"obtained from different subjects and to
"affix to each set of charges the name, or
"the number in your Register, of the subject
"from whom the lymph was derived. Keep
"such note of all supplies of lymph, whether
"humanized lymph or calf lymph, which you
"use or furnish as will always enable you to
"identify the origin of the lymph. Do not
"employ lymph supplied by any person who
"does not keep exact record of its source."
