

lands, to appropriate for the purpose of the Provisional Order any lands or tenements already acquired or held by them or on their behalf to erect, maintain, work and use upon such lands, or any of them, all proper and necessary stations, manufactories, store-houses, reservoirs, engines, machinery, apparatus, works, and other appliances that may be necessary or proper for the production, storage, and distribution of electricity.

3. To authorize the Company to make, purchase, hire, sell, or let all necessary and proper machines, accumulators, lamps, meters, fittings, plant, machinery, or appliances, or other matters or things that may be necessary or proper, or required for the purpose of the Provisional Order, and to acquire by purchase, or as undertakers of the proposed undertaking, all patents and licenses, and to work and use the same for the purpose of producing, storing, controlling, and measuring, or otherwise dealing with or relating to the supply of electricity.

4. To authorize the Company to impose, take, collect, and recover rates, rents, and charges for supplying electricity, and for the sale and hire and use of any machines, lamps, meters, fittings or apparatus connected therewith that may be required.

5. To authorize the Company to enter into contracts or agreements with any person or persons, corporate or incorporate, for the execution and maintenance of all proper and necessary works for the supply of electricity, and by any such contract to indemnify the Company against any act or default of any contracting party.

6. To provide for the transfer by the Company (with the consent and approval of the Board of Trade) to any other body or power, corporate or incorporate, of the whole or any part or parts of the rights, powers, liabilities, and duties conferred by or imposed upon them under the Provisional Order, upon such terms and conditions as may be agreed upon with the consent and approval of the Board of Trade.

7. To empower the Company to prescribe and regulate the form and description of the meters, fittings, and fixtures to be used within the area of supply, and to empower the Company to supply, examine, test, and stamp the same, and to license workmen and fitters to carry out and execute all works required within the area, and prohibit any person not licensed by the Company from executing any works in relation thereto, and for all or any of the purposes aforesaid to make and enforce all proper and necessary bye-laws and regulations.

8. To incorporate with the Provisional Order, and to extend and apply to the proposed undertaking and works, and to the Company as the undertakers of the same, with or without any necessary variations or amendments, such of the provisions of the Electric Lighting Acts, 1882 to 1888, and of the Acts incorporated therewith, as may be necessary or required for all or any of the purposes of the Company, and to confer upon the Company, within the area of supply, all or some and such of the powers which, under the Electric Lighting Acts, 1882 to 1888, or either of them, or by any Act or Acts amending the same, or either of them, or incorporated therewith, are or can be conferred upon any undertaking thereunder. The Provisional Order will contain all the regulations and conditions as to the supply of electricity, and as to the matters incidental thereto; or consequent thereon, as are authorized by the said Acts, or either of them, or are prescribed or allowed by the Board of Trade; and the Provisional Order will also alter, vary

or extinguish any rights or privileges which would or might interfere with any of the objects therein contained; and confer on the Company any other rights or privileges that may be necessary or requisite for carrying out the objects of the Provisional Order.

9. To prescribe the limit or boundaries of the area or areas (if any) within which the supply of electricity by the Company shall be compulsory, or to provide for the supply of electricity being permissive throughout the whole of the area of supply.
