to it, to remove to a little more distance from thence. We advanced to Gromme T's Ferr without any opposition, the Enemy quitting that and the Line of Communication they had made to the Church, and retiring within their Retrenchments that are nearer the Town; A Detachement of 80 of our Grenadiers were immediately ordered to Artack one of their Out-works, being a new Fort, guarded by 600 Men, which upon our Men's advancing, they abandoned after one discharge, and fled by the Covered Way into the Town; The Grenadiers entred the Fort, and purficed the Enemy, of whom they killed several, and took about 20 Priloners, with the loss of but one Man on our fide. Golonel Done of the Donish Horse was killed this Night by a Random Shot. The 26th our heavy Cannon and Mortais came up, and we began to work on our Lines of Communication. The 27th a Battery was raised against Thomond-Bridge. The fame day the Prince of Hillstown of Dargoons, and 3 pieces of Cannon, to attack Castle-Gonell. And Lieuenant General Sentenmore went with another Detachement to reduce Carrick a Gromell, which presently Surrendred, and 250 of the Finany in Garison there, were made Prisoners of War. Our light Frigats came and Anchored within sight of the Town, Captain Cole lying with the rest about 6 Miles of; The Irish upon the first appearance of them expected a mighty Joy, believing them to be French, and were as much troubled when they found their Mistake: Most of the Enemies Horse lay encamped near the River, about 4 Miles from Lemorics, but the Cannon or the Town. The 28 Castle-Connell, a very strong Castle, was Serrendred, there being min a Garisin of 100 Men. We have taken for critother Castles h. readouts, and in them show 900 Prisoner. On the 30th we big in to play the found to play on the Bridge, to rulpe it, and to hinder the Enemies Communication with their Camp. That Night we placed in Battery two Morties more of 18 Inches Diameter, and we have now finalliced two Butteries, one of 14 piecer, and the other of 10, all 24 and 18 Pounders. Defi to it, to remove to a little more distance from thence. We this more of 18 Inches Diameter, and we have now in milked two Bitteries, one of 14 pieces, and the other of 10, all 24 and 18 Pounders. Defirters come daily over to us, who fly, there is a frong Gariton in the Town, but that they are not above half Armed, and that they are in want of Proviliens. Co. Lines of Communication are finitized, and we are to begin to work this day on are finified; and we are to begin to work this day on a Line of Circumvallation.
