Caliz, December 30.

ON the 17th instant failed from hence the Rotterdam Convoy, commanded by Capt. Foerman, for Lisbon. On the 18th came into this Port the Rebecca, John Payne Commander, from Alicant; On the 20th the Ephraim, George Catesworth Master, from the same place; and on the 21st the Leopard, John Winter Matter, from Dublin. On the 26th the King-Fisher, Capt. Johnson Commander, returned hither from Malaga, with the Canary Merchant, Philip Stafford; the Mary, John Swan, and the William Ketch, under his Convoy. The two Azogues Ships, that lately parted hence for the West-Indies, were 4 or 5 days ago forced back by bad weather, to St. Lucar, where they are repairing the Damage they received, and so soon as that is done, will put to Sea again. We have an account from St. Sebastians, that 4 French Capers belonging to Bayonne and St. John de Luz, were cast away in a great Storm that happened about a Fortnight ago on that Coast. Several Couriers have of late passed between this place and Madrid, about the Matter of the Indulto of the Galeons, which we are assured is at last settled at 4 Millions and a half.

Madrid, Jan. 9. The King has given the President-ship of the Council of Arragon, to the Duke of Ossuna: And has declared Don Pedro Corbete General of the Armada, and Admiral Papachino-Lieutenant-General; the Count D'Azular who Commanded the Fleet the last Year, being sent for to Court, to discharge his Office of Councillor of State. The Marquis de Los Vales has desired leave to resign his Place of Intendant of the Finances; which 'tis thought will be given to the Duke of Montalvo, or the Count of Monterey. The Indulto is finally agreed at 4 Millions, and 600000 pieces of Eight; Two Millions are to be paid down, of which one will be remitted to Flanders, 500000 to Milan, and 400000 to Catalonia; 1400000 goe for Re-payment of the Money that has been advanced to the King, and the rest is to be employed in fitting the Fleet this Year; to which are to be added 3 great Men of War, more than was let out the last. Here is a Discourse, that the King intends to go in the Spring towards Catalonia, and that his Guards have Orders to be in a readines, but what ground there is for it we cannot yet say.

Favero in Poland, Jan. 2. 'Tis at present one of the chiefest Cares of this Court to preserve the Places they possessed themselves of the last Campagne in Moldavia, and particularly Sirocke on the Niester, which will be of great advantage to the Design 'tis generally believed the King has formed of marching the next Summer towards Budziaske, in order to make himself Master of such Ports and Passes as may cut off the Communication between the Tartars and Moldavians; and thereby facilitate the Subjection of that Province to the Crown of Poland, as, well as the recovering of Caminieo, which must have fallen long ago into our hands, had not the Garrison been supplied from time to time by the great Convoys brought them by the Tartars. 'Tis yet uncertain whether a Dyer will be held this Winter; many of the Senators are of opinion to defer it till towards the End of this Year, and the Nobility of Lithuania, have not yet consented to the holding it at Warsaw, claiming their Privilege of having it meet this next time at Grodno, one of the Chief Towns of that Dutchy; which, by reason of the distance of that Place, would be very prejudicial to the Publick Affairs. In the mean time, the King intends to take a Journey of Devotion to our Lady of Czestecowa, and from thence to return to Warsaw. An Envoy is arrived here from Moscow, who has not yet had Audience, by reason of his making several new Pretensions in the Ceremonial part of it, and which are not granted to the Ministers of this Crown at Moscow; However 'tis said, that his Errand hither is to assure the King of the Friendship and good Correspondence of the Czars, and to agree in what manner, and upon what Designs the Forces on both sides shall act the next Summer against the Turks and Tartars.

Vienna, Jan. 17. The new Levies are continued with good Success, and all things are preparing for an early Campagne, and in order to act during it with more numerous Forces than we have yet had at any one time in the Field, since this War with the Turks; who, being wrought upon by the Insinuations of the French Ambassador to lay aside the thoughts of a Peace, which they themselves demanded not long ago upon the consideration of the ill State of their Affairs, are now making on their side all the Efforts they are able for carrying on the War this next Summer. Gen. Warden is certainly reduced to the last Necessities; and we hear that the Sissa Commandant and Aga of the Janisaries, have provided the Garrison that of the
Persons

Persons they have lately sent to *Temeswaer* and *Belgrade*, do not return very quickly with an account that the Succors are actually marching to their Relief, they will Capitulate. In the mean time, they write from *Debrezin* of the 30th past, that Major-General *Coun. d'Aversberg* would return in two or three days to the Blockade of *Great Waradin*, and take with him 400 Bombs to be employed against that place. The Elector of *Bavaria* is expected here the beginning of the next Week. Prince *Eugene* of *Savoy*, has since his arrival had several Conferences with the Ministers of this Court, about the Affairs of *Savoy*, and the necessary disposition of things for the next Campaign. The Emperor has made the Count of *Nostitz* of his Council of State, who took the usual Oath, and was admitted into the same on Tuesday last. The Jubilee that has been Published by the present Pope was begun here the 13th with the usual Processions.

Berne, Jan. 19 Monsieur *Amelot* the French Ambassador Employs all his Skill to remove the Jealousie which the Swiss Cantons have of the Progresses of the French in *Savoy*. He assures them of his Masters good intentions towards the City of *Geneva*, and that he will continue his Favour and Protection to it. That he has a great concern for the welfare of the whole Helvetic Body, and that his Successes shall always turn to their Advantage; That he is willing to enter into an Accommodation with the Duke of *Savoy*, for the securing the Peace of *Italy*, and to receive them as Mediators and Guarands of it. But the French are known to be so liberal of such sort of Professions, when they are of use to them in carrying on their Designs, that these which are now made by Monsieur *Amelot*, carry little weight with them, and are considered no otherwise than as an Artifice to divert the Cantons from taking such Measures as are necessary for their own Security, as well as for the benefit of the Common Interests of Christendom.

Hydelberg, Jan. 22 We continue very quiet in these Parts. They write from *Basle*, that the Magistrates of that City were going to Publish a General Anonistie, and that several of the Burghers, who are Prisoners on account of the late Disorders that happened there, would be discharged. The Advices from *Suisserland* say, That the Canton of *Zuricke* has sent 200 Men more to reinforce the Garrison of *Geneva*. We are told, that the French are drawing Detachements out of their Garrisons in *Alsace*, which are said to be designed for *Flanders*.

Plimouth, Jan. 24 Yesterday sailed from hence Their Majesties Ships the *Monk*, *Saphire*, *Pearl* and *Chatham*, with about 18 Merchant Ships bound for *Bilboa*. Several outward bound Merchant Ships are come in here from the Eastward; as also a Suedes Man of War, called the *Liesland*, bound for *Luton*.

Barnstaple, Jan. 24 Last Night arrived here 4 Transport Ships, with Troopers and their Horses from *Cork*; They are not yet landed, so we know not their number.

Whitehaven, Jan. 17 Last Week arrived here the Remainder of Sir *John Lanier's* Regiment of Horse; and this day two Troops of the Royal Regiment of Dragoons, commanded by Colonel *Atkins*; The rest are expected every Tide.

Chester, Jan. 25 Two or three days ago arrived here a Troop of the Royal Regiment of Dragoons, having been separated from the rest of their Company by stress of Weather; The whole Regiment was Ship'd at *Belfast*, and designed for *Whitehaven*; where it's believed all the other Troops are Landed.

These are to give Notice, That His Majesty has been pleas'd to grant a Fair to be held at the Town of *Wellington* in the County of *Salop*, on the 18th day of *March* every Year for ever, for the Sale of all sorts of Cattle, Goods, and Merchandize whatsoever, unless the said day happens on a Sunday, in which Case the said Fair is to be kept on the Monday following. As also a Market to be held for ever, on Thursday in every Week, being the usual Market Days for Buying and Selling of all sorts of Cattle, Goods and Merchandize whatsoever.
