Mr. G. C. Anderson, Master of the ship "Conquest," reports having frequently passed in 1875 and 1876, within two miles of the supposed position of this rock, without seeing any indication of shoal water.

A thorough search was also made in 1885 by Captain Phythian, United States ship "Trenton," and latterly in February, 1903, Captain A. A. Dalweritz, of the American schooner "Forester," reports having passed close to the assigned position of this rock, obtaining at the same time a sounding of 55 fathoms, mud bottom, without seeing any sign of shoal water.

of the lights in the entrance to the harbour of Dieppe would be altered in the following manner:—

1. The white fixed light exhibited at the end of the western pier would be altered to an occulting light every four seconds, thus:—light, three seconds; eclipse, one second; it shows red from the bearing of S. 75° E. to the coast westward of Dieppe, and white in other directions, the white light being visible in clear weather from a distance of 13 miles, and the red 8 miles, the light powers being 590 and 140 candles respectively; in other respects this light remains unchanged.
