NOTICES TO MARINERS.

(Nos. 1176 to 1192 of the year 1906.)

[The bearings are magnetic, and those concerning the visibility of lights are given from seaward.]

No. 1176.—CANADA, RIVER ST. LAWRENCE—QUEBEC AND MONTREAL SHIP CHANNEL.

Sainte Anne de Sorel—Leading Lights Established.
Monk Island—Leading Lights Established.

With reference to Notice to Mariners No. 590 of 1906:—

The Government of the Dominion of Canada has given further notice that, on the 22nd August, 1906, two white fixed catoptric leading lights were exhibited at Sainte Anne de Sorel, which when in line, bearing S. 70° W., lead through the centre of the ship channel from the west end of Boat Island to Light-buoy No. 136 L. off Île de Grace.

The front light is elevated 35 feet above the Summer River level, and should be visible from a distance of 2 miles. It is exhibited from a white square wooden building, surmounted by an iron lantern, coloured red, 19 feet in height, erected on a concrete block situated at a distance of about 40 yards, S. 58° E., from Ste. Anne beacon, which has been removed.

Approximate position, lat. 46° 3½' N.; long. 73° 3¼' W.

The rear light is elevated 98 feet above Summer River level, and should be visible from a distance of 5 miles. It is shown from a brown steel framework structure, 80 feet in height, surmounted by a white watch-room and lantern with red roof, erected at a distance of 3½ cables, S. 70° W., from the front light; the side of this
