NOTICE is hereby given, that the Mayor, Aldermen and Burgesses of the county borough of Huddersfield (hereinafter called "the Corporation") intend to apply to the Board of Trade for a Provisional Order, to be confirmed by Parliament in the ensuing Session, for the following or some of the following among other purposes (that is to say):—

1. To enable the Corporation to make, lay down, form and maintain wholly in the county borough of Huddersfield the tramways hereinafter described, with all necessary and proper rails, plates, sleepers, channels (including in that word where used in this Notice channels, passages and tubes for cables, wires, poles and electric lines), junctions, turntables, turnouts, crossings, passing places and conveniences connected therewith, and where in the description of the proposed tramway any distance is given with reference to any street which intersects or joins the streets in which the tramway is to be laid, the distance is to be taken as measured from

the points at which lines drawn along the centres of the two streets and continued would intersect each other, and a point described as being opposite a street is to be taken (unless otherwise stated) as opposite the centre of the street.

The following are the tramways:—

Tramway No. 1, about 6 furlongs 8.41 chains in length, wholly in the borough of Huddersfield, commencing in Blackmoorfoot-road at a point opposite Crosland-hill-road, passing thence along or over the said Blackmoorfoot-road and Barton-road and there terminating by a junction with the existing tramway of the Corporation at a point about three yards north-east of Park-road.

Tramway No. 1 will be laid as a single line except between the following points, where it will be laid as a double line (that is to say):—

In Barton-road between two points respectively 90 yards and 24 yards south-west of Ivy-street; and between two points respectively 9 yards south-west and 57 yards north-east of Charles-street.

The proposed tramways will be constructed on a gauge of 4 feet 7½ inches, and it is not intended to run thereon carriages or trucks for use on railways.

It is proposed to lay the tramways so that for a distance of 30 feet or upwards a less space than 9 feet 6 inches will intervene between the outside of the footpath on either side of the road and the nearest rail of the tramway at the points hereinafter described, namely:—

Tramway No. 1.—In Barton-road on both sides thereof between two points respectively 85 yards and 30 yards south-west of Ivy-street; on the south-east side thereof between two points respectively 7 yards north-east of the said Ivy-street and 9 yards south-west of Charles-street; on both sides thereof between two points respectively 9 yards south-west and 57 yards north-east of the said Charles-street; and on the south-east side thereof between two points respectively 57 yards north-east of the said Charles-street and 3 yards south-west of Park-road.

The motive power to be used on the intended tramways is animal, steam, compressed air, gas or oil, and haulage by means of wire or rope cables placed underground and worked by stationary engines and electric energy generated at stations and applied by means of motors in the engines or carriages or trucks, and communicated by means of electric lines either in or under the ground or overhead.

2. To empower the Corporation from time to time to erect poles and to make such crossings, passing places, sidings, loops, junctions, and other works in addition to those specified herein as may be necessary or convenient to the efficient working of the said tramways or for effecting

junctions with other tramways of the Corporation or for affording access to works or property of the Corporation, and to substitute single and interlacing lines for double lines, and double and interlacing lines for single lines.

3. 4. To confer on and reserve to the Corporation and their lessees the exclusive right of using on any tramways to be constructed or maintained under the powers of the intended Order, carriages drawn or propelled by any motive power before mentioned, or having wheels adapted to run on or in an edged, grooved or other rail on such tramways.

5. To authorize the Corporation and their lessees or other the person or persons working the said tramways to levy tolls, rates and charges for the use of the said tramways by carriages passing along the same and for the conveyance of passengers, goods, minerals, animals, merchandise and other traffic upon the same, and to confer exemptions from tolls, rates and charges.

8. To empower the Corporation, for all or any of the purposes of the Order, to stop up, break up, alter, remove, cross and interfere with, temporarily or permanently, public and private streets, roads, highways, footways, tramways, sewers, drains, gas, water and electricity mains, valves, hydrants, pipes, tubes and street boxes and telegraph, telephone, electric lighting and other apparatus.
