H. 14800.

The Board of Trade have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch, dated December 2, from His Majesty's Representative at Constantinople, intimating that at a supplementary meeting of the Constantinople Board of Health, held on November 28th, reports were read from the Prefecture of that city to the effect that considerable numbers of pilgrims from Russia are daily arriving in Constantinople by railway (from Vienna, Budapest or some other point on the line), and by sea from Kustendje. They thus escaped the measures in force on pilgrims arriving direct by sea from Russian ports.

It was consequently decided that those coming by railway will be stopped at the station of Tchataldja, where they will undergo medical visit and the disinfection of their effects, the delay not to last more than forty-eight hours. They will then be taken by special train or in special carriages to the Sirkedji terminus (Constantinople), whence they will be conducted by agents of the municipality and the police on board ships preparing to start for the Hedjaz.

Ships coming from Kustendje will undergo a medical visit at Kavak, and if pilgrims are found on board coming from Russia they will be landed at the Monastyr Aghzi Lazaret, where they will do forty-eight hours' quarantine, and their clothes and effects will be disinfected.

All the above measures came into practical effect on the 1st of December.

“Article” means Article of this Order.

Notification of Disease.

3. The occupier of any premises on which there is a bush which is diseased or suspected of being diseased shall forthwith notify the fact to the clerk to the Local Authority, or to some person authorised by the Local Authority to receive such notices, and where practicable a specimen showing the disease or suspected disease shall accompany the notice.

Preliminary Investigation by Local Authority.

4.—(1.) The Local Authority on receiving in any manner notice of the existence or supposed existence of disease shall forthwith take such steps as may be necessary to determine on what premises the disease exists, and shall cause notice of such determination to be served on the occupier of each of such premises which shall thereupon become “infected premises” and continue to be infected premises until the notice is altered or withdrawn by the Local Authority in accordance with Article 10.

(2.) The notice shall as far as practicable include in the infected premises only such plantations, gardens or fields as contain bushes which are or recently have been diseased.

Precautions to be Adopted in case of an Outbreak of Disease or Supposed Outbreak.

5.—(1.) The occupier of any plantation, garden or field on which there is a diseased bush shall as soon as is practicable spray all the diseased bushes and all gooseberry and currant bushes on the plantation, garden or field to which the disease is likely to spread with a solution of liver

(2.) No bush shall be removed from any plantation, garden or field on which there is a bush which is diseased or suspected of being diseased, and clippings from diseased or suspected bushes shall be forthwith destroyed by burning or other effective method by the occupier of the premises.

Action to be taken by Local Authority after Preliminary Investigation.

6.—(1.) The Local Authority shall as soon as is practicable cause a notice to be served on each occupier of infected premises requiring him to adopt such measures for prevention of the spread of the disease as are specified in the notice.

(2.) A notice under this Article shall require the occupier of the premises as regards each diseased bush on the premises and every bush immediately adjoining such bush—

(a) to destroy by burning or other effective method and by a date to be specified in the notice, either the whole bush or, if the occupier so prefer, all wood formed in the current or preceding year on the bush, which wood shall for that purpose be pruned to the satisfaction of an Inspector of the Local Authority, and also similarly to destroy the fruit (if any) on each diseased bush ; and

liver of sulphur to thirty-two gallons of water) or with some other fungicide approved by or on behalf of the Local Authority. Provided that this provision shall not apply to bushes which have shed their leaves.

Precautions against Spread of Disease by Bushes.

9.—(1.) No gooseberry or currant bush shall be removed from infected premises except with, and subject to the conditions (if any) inserted in, a licence granted by the Board.
