Article III.—Subject to the Public Health Act, 1896, and the enactments therein mentioned, as applied by the Public Health (Regulations as to Food) Act, 1907, any provision in any Act of Parliament which applies to a proceeding under or consequent upon the provincial enactments, or the London enactments shall, according as the District is one in which the provincial enactments, or the London enactments, are or may be put in force, apply, with the necessary modifications and adaptations, to a proceeding under or consequent upon Articles IV to VI in this Part, and as if those Articles were comprised in, and were in force as part of the provincial enactments or the London enactments, as the case may be.

Powers, &c., of Medical Officer of Health in relation to Unsound Food.

Article IV.—(1) The Medical Officer of Health may examine an article of food which has been landed within the District.

Where the circumstances, in his opinion, so require, the Medical Officer of Health may examine the article of food while it is on board a ship within the District, or after it has been delivered overside, and before it has been landed.

(2) The Master of a ship, or a person having the custody of any lands or premises within the District shall, at the request of the Medical Officer of Health, afford him access to the ship, or to the lands or premises, at any reasonable time, for the examination of an article of food which is on board the ship, or which has been deposited on the lands or premises.

(3) The importer, the Master of the ship, or a person having the custody of any lands or premises shall, at the request of the Medical Officer of Health, afford, by the convenient and suitable arrangement, unpacking or uncovering of so much of the cargo, or of any consignment delivered overside or landed, or deposited on the lands or premises, as comprises articles of food, all such facilities as the Medical Officer of Health, may reasonably require for the examination of the article of food.

(4) If, on his examination, the Medical Officer of Health is of opinion that the article of food is unsound or unwholesome, or unfit for human consumption, he may himself, or by an assistant, seize and carry away the article of food, or he may by a notice in writing to the importer, or to the Master of the ship, or to any other person having charge of the article of food, require that, until the article of food has been examined by a Justice, the article of food shall not, without the permission of the Medical Officer of Health, be removed from the place at which the Medical Officer of Health has examined it, or from any other place which he specifies in the notice.

(5) Except where the Medical Officer of Health, at the request, or with the consent of the importer, allows an article of food, in relation to which a notice has been given in pursuance of subdivision (4) of this Article, to be removed for immediate destruction under the supervision of the Medical Officer of Health, or for the application and completion, under the like supervision, of any such process as the Medical Officer of Health approves, and as will effectually prevent the use of the article of food for human consumption, the importer, the Master of the ship, or another person shall not, without the permission of the Medical Officer of Health, remove the article of food from the place at which the Medical Officer of Health has examined it, or from any other place specified in the notice, until the article of food has been examined by a Justice.

Powers, &c., of Justice in relation to unsound Food.

Article V.—On the complaint of the Medical Officer of Health that an article of food seized and carried away in pursuance of subdivision (4) of Article IV., or that an article of food in relation to which a notice has been given in pursuance of that subdivision, is unsound or unwholesome, or unfit for human consumption, a Justice, if satisfied, on his examination of the article of food, and on the evidence adduced before him, that the article of food is unsound or unwholesome,

or unfit for human consumption, and that there is an absence of proof that the article of food is not intended for sale for human consumption, shall condemn the article of food and order it to be destroyed or disposed of under the supervision of the Medical Officer of Health by such means and in such a manner as to prevent its being used for human consumption.

Where, on any such complaint, a Justice, on his examination of the article of food, and on the evidence adduced before him, is satisfied that the article of food is unsound or unwholesome or unfit for human consumption, but that it has been proved that the article of food is not intended for sale for human consumption, the Justice shall make an order of dismissal of the complaint, and shall, in that order, set forth the description of, and such other details as will suffice to identify the article of food; together with the name, description and abode of the importer, and the name, description, and abode of the person to whom the article of food is to be delivered; and shall forthwith furnish the Sanitary Authority with a copy of the order.

Powers, &c., of Medical Officer of Health and Justice in relation to unsound Food in special cases.

Article VI.—(1) Where the Medical Officer of Health has reason to believe that an article of food which has been landed within the District, and has not been examined by the Medical Officer of Health, is deposited on any lands or premises within the District, and access to the lands or premises at a reasonable time, for the examination of the article of food by the Medical Officer of Health, has been refused by the person having the custody of the lands or premises, the Medical Officer of Health may make complaint to a Justice.

The Justice may thereupon by a warrant authorise the Medical Officer of Health to enter the lands or premises, and to search for, seize, and carry away the article of food by an assistant or otherwise.

(2) The person having the custody of the lands or premises named in the warrant shall, at any reasonable time, afford all such facilities as the Medical Officer of Health may reasonably require to enable him, by an assistant or otherwise, to search for, seize, and carry away the article of food.

(3) If, as the result of a search on the authority of a warrant granted in pursuance of subdivision (1) of this Article, the Medical Officer of Health finds and examines the article of food, and, on his examination, is of opinion that the article of food is unsound or unwholesome, or unfit for human consumption, he may himself or by an assistant seize and carry away the article of food, or he may, by a notice in writing to the importer, or to the person having the custody of the lands or premises, require that, until the article of food has been examined by a Justice, the article of food shall not, without the permission of the Medical Officer of Health, be removed from the place at which the Medical Officer of Health has examined it, or from any other place which he specifies in the notice.

(4) Except where the Medical Officer of Health, at the request, or with the consent of the importer, allows an article of food in relation to which a notice has been given in pursuance of subdivision (3) of this Article, to be removed for immediate destruction under the supervision of the Medical

Officer of Health, or for the application and completion, under the like supervision, of any such process as the Medical Officer of Health approves, and as will effectually prevent the use of the article of food for human consumption, the importer or another person shall not, without the permission of the Medical Officer of Health, remove the article of food from the place at which the Medical Officer of Health has examined it, or from any other place specified in the notice, until the article of food has been examined by a Justice.

(5) On production of the warrant granted in pursuance of subdivision (1) of this Article, and on the complaint of the Medical Officer of Health that an article of food which has been seized and carried away in pursuance of the warrant, or in relation to which a notice has been given in pursuance of subdivision (3) of this Article is unsound or unwholesome, or unfit for human consumption, a Justice, if satisfied on his examination of the article of food and on the evidence adduced before him that the article of food is unsound or unwholesome, or unfit for human consumption, and that there is an absence of proof that the article of food is not intended for sale for human consumption, shall condemn the article of food, and order it to be destroyed or disposed of under the supervision of the Medical Officer of Health by such means and in such a manner as to prevent its being used for human consumption.

Where, on any such complaint, a Justice, on his examination of the article of food, and on the evidence adduced before him, is satisfied that the article of food is unsound or unwholesome or unfit for human consumption, but that it has been proved that the article of food is not intended for sale for human consumption, the Justice shall make an order of dismissal of the complaint, and shall, in that order, set forth the description of, and such other details as will suffice to identify the article of food; together with the name, description and abode of the importer, and the name, description and abode of the person to whom the article of food is to be delivered; and shall forthwith furnish the Sanitary Authority with a copy of the order.

PART III.

Article VII.—Where, in pursuance of these Regulations, an article of food is destroyed or otherwise disposed of under the supervision of the Medical Officer of Health, the Sanitary Authority before the destruction or other disposal of the article of food shall cause the description of, and such other details as will suffice to identify the article of food to be duly recorded, and shall keep the record in their custody for a period of not less than twelve months.

Samples, &c.

Article VIII.—(1) The Medical Officer of Health may take a sample from a consignment of articles of food for any purpose of these Regulations, and, subject to subdivision (2) of this Article, shall dispose of the sample in such manner as the Sanitary Authority direct.

(2) Where the Medical Officer of Health who takes a sample from a consignment of articles of food is of opinion that special procedure is necessary for the examination of the articles of food, or where, at the request of the importer, the Medical Officer of Health who takes any such

sample has recourse to special procedure for the examination of the articles of food, the importer or another person who has the custody or control of the consignment, shall, as regards the convenient and suitable arrangement and the place of deposit of the articles of food comprised in the consignment, afford during such time not exceeding forty-eight hours as the Medical Officer of Health by notice in writing appoints, or during any longer time which the Medical Officer of Health by notice in writing appoints, and to which the importer consents, all such facilities as the Medical Officer of Health may reasonably require for the completion of his examination of the articles of food.

Notice by Post.

Article IX.—A notice which, in pursuance of these Regulations, the Medical Officer of Health is empowered to give may be given by properly addressing, prepaying, and posting a letter containing the notice.

Answers to Questions, &c.

Article X.—A person, in relation to anything within his knowledge, shall answer truly all such questions put to him by, and give all such information to the Medical Officer of Health as are necessary for any purpose of these Regulations; and a person, in relation to anything within his knowledge and material to any purpose of proceedings in pursuance of these Regulations, shall make a true statement, and truly answer any question, when required or put by a Justice or other competent authority in the course and for any purpose of those proceedings.

Appointment and Powers, &c., of Assistants.

Article XI.—(1) The Sanitary Authority may, with Our Consent, appoint and pay a legally qualified Medical Practitioner to act in the execution of these Regulations, either in the place of, or as an Assistant to the Medical Officer of Health.

(2) The Sanitary Authority may also, with Our Consent, appoint or employ and pay a person to act, under the direction of the Medical Officer of Health, in the exercise of any such powers or in the discharge of any such duties of the Medical Officer of Health under these Regulations as the Sanitary Authority assign to the person so appointed.

Combinations.

Article XII.—A Sanitary Authority and a Local Authority, or two or more Sanitary Authorities or Local Authorities shall act together for the purposes of these Regulations in every case in which We, by Order, require any such joint action.

In every such case these Regulations shall, in relation to each Sanitary Authority, to each District of a Sanitary Authority, to each Local Authority, and to each area of a Local Authority to whom and to which the Order applies, have effect subject to such adaptations and modifications as are made by the Order.

Determination of Differences.

Article XIII.—(1) If a difference arises in relation to any subject matter of, or to anything done under these Regulations, the difference may, on the application of all the parties affected, be referred to Us for determination.

(2) It shall be at Our option to determine any such difference as arbitrators or otherwise; and, if We elect to determine the difference as arbitrators, the provisions of the Regulation of Railways Act, 1868, respecting arbitrations by the Board of Trade, and the enactments amending those provisions shall apply, as if they were re-enacted in these Regulations, and in terms made applicable to Us, and to the determination of the difference.

(3) Where We elect to determine any such difference otherwise than as arbitrators, We may by Our Order determine the difference, and Our determination shall be final and conclusive.

(4) Every Order made by Us in pursuance of this Article shall have effect as if the Order were enacted in these Regulations.

Powers to be Cumulative, and to be Exercised subject to Customs Procedure and Co-operation.

Article XIV.—(1) All powers given by these Regulations shall be deemed to be in addition to, and not in derogation of any other powers conferred by Regulations under the Public Health (Regulations as to Food) Act, 1907; and those other powers may be exercised in the same manner as if these Regulations had not been made.

(2) Where the duties of an Officer of Customs with respect to the examination of a cargo or consignment comprising an article of food have not been wholly discharged, an examination of the article of food for the purposes of these Regulations shall not be made without the consent of the Officer of Customs; but every Officer of Customs shall afford such facilities as the circumstances require for the examination of the article of food in pursuance of these Regulations.
