The Board of Trade have received a copy of a Despatch, dated the 17th August, from His Majesty's Consul-General at Lourenço Marques, transmitting the following translation of a Notice, issued by the local authorities, containing the sanitary measures to be adopted in the ports of the Province of Mozambique, in connection with vessels and passengers arriving from Zanzibar during the prevalence of cholera in that island:—

Government Notice.

Whereas it has become indispensable to adopt special sanitary measures with regard to arrivals from the port of Zanzibar;

And having heard the Board of Health; I hereby deem convenient to determine as follows:—

1. The landing is temporarily prohibited at the ports of the Province of third and fourth class passengers proceeding from Zanzibar, being Indians, negroes, individuals of the yellow race or so-called Levantines.

2. Passengers as above who have embarked before the publication of this Notice in the *Boletim Official*, but who have left Zanzibar within less than eight days of the official declaration of the existence of the epidemic, shall be allowed to land but shall remain for a period of seven days subject to rigorous quarantine.

3. All other passengers shall be subject to strict sanitary supervision in case the ship be deemed free from the epidemic, and shall be subject to quarantine for seven days in case the ship be considered as suspected or infected.

4. No ship proceeding from Zanzibar or that may have called at that port shall be allowed to moor alongside any landing pier or wharf unless it be proved by means of a proper certificate that such ship had no communication with the shore or any vessel at the said port; otherwise all landing and shipping work shall be carried out with the ship anchored away from the shore and become subject to the provisions of the Port Health Regulations of the Province of Mozambique.

5. All water taken on board at Zanzibar shall be discharged after being subject to the application of permanganate of potassium in the proportion of 50 grammes per cubic metre. In case no water has been taken in at that port, the Master of the vessel shall present a certificate issued by the Portuguese Consul to that effect.

6. Water closets on board shall be disinfected by means of sulphate of copper at 5 per cent., and during the stay of the ship in port the use of the water closets shall only be allowed when

provided with water tank containing the prescribed disinfecting solution, it being absolutely prohibited to discharge deleterious matter in the waters of the port without previous disinfection.

7. All importation from the above port into the Province is prohibited not only in respect of merchandise specified under paragraphs 1, 2 and 3 of the said Port Health Regulations, but also in respect of ground fruits and fresh vegetables.
