**TRIAL OF THE PYX OF THE LONDON  
MINT.**

**VERDICT.**

WE, whose names are hereunder written, having been sworn on the ninth day of March, one thousand nine hundred and fifteen, before the King's Remembrancer, at Goldsmiths' Hall, in the city of London, have made the assays and trials of His Majesty's Gold and Silver coins in the Pyx of the Royal Mint in London, which, according to accounts produced by the Officers of the Mint, were coined in the said Mint, from the first day of January, one thousand nine hundred and fourteen, to the thirty-first day of December, one thousand nine hundred and fourteen, both days inclusive. We ascertained that the number of coins, both of Gold and Silver, in each packet produced to us, corresponded with the number which the Officers of the Mint represented it to contain, and we took one coin from each of such packets of gold coins, amounting altogether to sixty-one sovereigns or twenty-shilling pieces, and to thirty-nine half-sovereigns or ten-shilling pieces, and we weighed each of the said coins separately, and ascertained that they were within the remedy as to weight prescribed in the First Schedule to the Coinage Act, 1870, as amended by the Coinage Act, 1891. We found that the amount of variation from the standard of weight specified in the said First Schedule to the said Act as so amended was nil on the whole of such coins. We then melted the said Gold coins so taken out and weighed into an ingot, and assayed such ingot, comparing it with the standard Gold Trial Plate produced by the Board of Trade, so as to ascertain whether the metal was within the remedy as to fineness prescribed in the said First Schedule to the said Act amended as aforesaid, and we found that the amount of variation thereof from the

standard of fineness specified in the said First Schedule to the said Act as so amended was plus six hundred thousandths (or + '00006), and that, therefore, the said metal was within the prescribed remedy as to fineness. We weighed the residue of the said Gold coins in bulk, and we ascertained that they were within the remedy as to weight. We then took from such residue six Sovereigns and four Half-Sovereigns, and weighed and assayed them separately, and we found that such Sovereigns weighed respectively—the first 123·195 grains, the second 123·441 grains, the third 123·356 grains, the fourth 123·245 grains, the fifth 123·169 grains, the sixth 123·331 grains, and that such half-sovereigns weighed respectively—the first 61·535 grains, the second 61·588 grains, the third 61·530 grains, and the fourth 61·570 grains. We then assayed the said six sovereigns and four half-sovereigns separately, and we found the millesimal fineness of such sovereigns to be—the first 916·40, the second 916·80, the third 916·92, the fourth 916·68, the fifth 916·77, the sixth 916·87 respectively, and the millesimal fineness of such half-sovereigns to be—the first 916·81, the second 916·73, the third 916·80, and the fourth 916·80 respectively. We also took a coin from each of such packets of silver coins, making altogether eighty-four half-crowns, eighty florins, seventy-two shillings, sixty-one sixpences, one fourpence, twenty-five threepences, one twopence, and one penny, and weighed each of the said silver coins separately, and ascertained that they were within the remedy prescribed in the said First Schedule to the said Coinage Act, 1870, as amended by the said Coinage Act, 1891. We found that the amount of variation from the standard weight specified in the said First Schedule to the said Act as so amended was minus nineteen-thousandths of an ounce (— '019 oz.) on the whole of such coins. We then melted the said Silver coins so taken out and weighed into an ingot, and assayed such ingot, comparing it with the standard Silver Trial Plate produced by the Board of Trade, so as to ascertain whether the metal was within the remedy as to fineness prescribed in the said First Schedule to the said Act amended as aforesaid, and we found that the amount of variation from the standard of fineness specified in the said First Schedule to the said Act as so amended, was minus eight ten-thousandths (or — '0008), and that, therefore, the said metal was within the prescribed remedy as to fineness. We weighed the residue of the said silver coins in bulk, and we ascertained that they were within the remedy as to weight. We then took from such residue three half-crowns, three florins, two shillings, two sixpences, and one threepence, and weighed and assayed them separately, and we found that such half-crowns weighed respectively—the first 218·826 grains, the second 217·930 grains, and the third 218·150 grains; that such florins weighed respectively—the first 174·631 grains, the second 173·905 grains, and the third 174·623 grains; that such shillings weighed respectively—the first 87·097 grains, and the second 87·165 grains; that such sixpences weighed respectively—the first 43·750 grains, and the second 43·458 grains; and that such threepence weighed 21·852 grains. We then assayed the said three half-crowns, the said three florins, the said two shillings, the said two sixpences, and the said threepence

separately, and we found the millesimal fineness of such half-crowns to be respectively—the first 923·7, the second 924·1, and the third 925·2; of such florins to be respectively—the first 924·2, the second 924·5, and the third 923·7; of such shillings to be respectively—the first 925·6, and the second 924·6; of such sixpences to be respectively—the first 925·3, and the second 925·3; and of such threepence to be 924·8.

##### VERDICT.

WE, whose names are hereunder written, having been sworn on the ninth day of March, one thousand nine hundred and fifteen, before the King's Remembrancer, at Goldsmiths' Hall, in the City of London, have made the assays and trials of His Majesty's gold coins in the Pyx of the Branch Mint at Perth, in the State of Western Australia, which, according to accounts produced by the Officers of the Mint, were coined in the said Branch Mint from the first day of January, one thousand nine hundred and fourteen, to the thirty-first day of December, one thousand nine hundred and fourteen, both days inclusive. We ascertained that the number of coins in each packet produced to us corresponded with the number which the Officers of the Mint represented it to contain, and we took one coin from each of such packets of gold coins, amounting altogether to one hundred and five sovereigns or twenty shilling pieces, and we weighed each of the said coins separately, and ascertained that they were within the remedy as to weight prescribed in the First Schedule to the Coinage Act, 1870, as amended by the Coinage Act, 1891. We found that the amount of variation from the standard of weight specified in the said First Schedule to the said Act as so amended was plus eight thousandths of an ounce (+ '008 oz.) on the whole of such coins. We then melted the said gold coins so taken out and weighed into an ingot, and assayed such ingot, comparing it with the standard gold Trial Plate produced by the Board of Trade, so as to ascertain whether the metal was within the remedy as to fineness prescribed in the said First Schedule to the said Act amended as aforesaid, and we found that the amount of variation thereof from the standard of fineness specified in the said First Schedule to the said Act as so amended was plus eleven

hundred thousandths (or + '00011), and that, therefore, the said metal was within the prescribed remedy as to fineness. We weighed the residue of the said gold coins in bulk, and we ascertained that they were within the remedy as to weight. We then took from such residue six sovereigns, and weighed and assayed them separately, and we found that such sovereigns weighed respectively: the first 123·247 grains, the second 123·276 grains, the third 123·328 grains, the fourth 123·228 grains, the fifth 123·195 grains, and the sixth 123·245 grains. *Application of Part I of Sheep (Double Dipping) Order of 1914 with modifications.*

1.—(1) Part I (*Restriction on Movement of Sheep out of a Movement Area*) of the Sheep (Double Dipping) Order of 1914 is hereby applied during the period commencing on the fifteenth day of July and terminating on the thirtieth day of September in each year to the Area described in the First Schedule hereto, which shall during such period be a Movement Area for the purposes of that Order, but subject to the modifications contained in this Article.

(2.) The restrictions on movement of sheep applied by the said Order and this Order shall not apply to (i.) sheep moved through the

Movement Area by road if they are not permitted to come in contact with other sheep during the movement through the Area; or (ii.) sheep moved out of the Area for the purpose of being dipped on premises outside the Area under and in accordance with the requirements of a Notice of an Inspector of the Local Authority served under Article 2 of this Order.

Each dipping shall, where practicable, take place on lands to which this Article applies, but where such dipping is not practicable, the Notice may require the dipping to be carried out on other premises specified in the Notice, and may impose any conditions as to movement, detention, isolation and dipping of the sheep which the Inspector may consider desirable and specify in the Notice. Sheep which are required by this Article to be dipped in any year shall be exempt from the general dipping in that year required by Article 3 of the principal Order.

(2.) If the owner or person in charge of sheep to which a Notice served under paragraph (1) of this Article relates fails to comply with any condition specified in such Notice he shall, according to his own acts and defaults, be deemed guilty of an offence against the Diseases of Animals Act, 1894.
