Rome, Fanuary 23.

He Cardinal de Fourbin had on Sunday last a long Audience of the Pope, on the subject of the Proposals of Peace that have been lately made by the French King. On Monday was held a private Consistory, where several Bishops were preconised. Orders are sent to Civita-Vecchia to hasten out the Popes Galleys, which are to return to the Levant, with 1000 Land Soldiers, for the assistance of the Venetians. The Prince de Fundi is shortly expected here with the Character of Ambassador Extraordinary from the Emperor. The Cardinal de Barberini defigns to go hence on Monday or Tuesday next to his Government of Romania.

Genoua, January 27. The Five Galleys of the Duke of Turfis's Squadron having repaired the damage they received in their Voyage hither from Barcelona, will part from hence the beginning of the next week for Naples, to fetch Recruits for the Spanish Troops in the Milaneze. An Envoy is arrived here from the Governor of Milan to adjust the Contributions demanded of this Républick for the subfishence of the Emperor's Forces in Italy.

Venice, Febr. 5. There will be fent with the next Convoy, which lies ready to fail with the first fair Wind, to the Levant 1500 Soldiers, and a considerable Sum of Money, with great quantities of Ammunition and Provisions; Other Reinforcements are speedily to follow; and it seems to be the Resolution of the Senare to put the Doge into a condition to undertake some great Enterprize the next Summer. The Advices from Turkey say, that the Enemy design to add Defensively this year against the Venetians and the Polanders, and to turn the stress of the War towards Hungary.

Warfaw, Jan. 16. The Count de Martinitz, who was coming hither in the Quality of Envoy Extraordinary from the Emperor to affift at the Dyet appointed to meet here the last Month, having received notice in his Journey of in bing broke up, st pr at Breslaw in Silesia, and still continues there to know his Imperial Majetties Pleasure, whether he shall proceed or return to Visnua. The

thoughts there feem'd to be of calling another Dyet the Spring, are now wholly laid afide, as well because this state of the Kings Health (though its much better at prefent then it has lately been) will not yet permit his removal from Zolkiew, as for other Considerations; But to supply as far as may be, what is wanting by this unhappy breaking up of the Dyet, for the Desence of the Kingdom, a great Council is going to be held at Zolkiew, to which all the Senators and other great Men are summoned in order to take such Resolutions as are necessary in the present Conjuncture. We have advice from Moldavia, that the Tarrars have drawn together 10 or 12000 Men, with a design to Consuct a great Convoy of Provisions to Committee, and after that to make Incustions into Podolis and other Frontier Provinces of this Kingdom; upon which the Crown General has ordered several Troops to march to observe the Enemies morions.

Vienus, Febr. 6. The Lettets from Peters Waradin of the 21th past inform us, that a Party of that Garison had been as far as Cupina near the Save, where they defeated a Turkish Party, and took several Prisoners. The Fortisications of that place, and of Effecke, are almost brought to perfections.

Francfort, Febr. 14. They write from Zurieke of the 30th past, that the Lord Viscount Galway was arrived there in his way to Piedmont. 'Tis said that the Bishop of Munster will send a Body of his Troops to serve with the other Confederate Forces on the Rhine the next Campagne.
