REGULATION OF FOREIGN EXCHANGES.

LOAN OF SECURITIES TO THE TREASURY— (SCHEME B).

The following securities are all those included in the first five lists of securities subject to the special Income-Tax, i.e., those included in the "taxable lists" which have been issued by the American Dollar Securities Committee.

The prices set against the securities are the respective "deposit-values" as defined in Paragraph (6) of Scheme B. These "deposit-values" will apply to all securities deposited directly under the terms of Scheme B, and also to those transferred from Scheme A to Scheme B.

The "deposit value" of any security to which an asterisk is affixed will be quoted on application. In the case of Registered Bonds, the figures quoted must be reduced by one-quarter of one point in respect of such bonds as are convertible into Bearer Bonds, and by one point where not so convertible. The figures quoted are, except where otherwise stated, pounds sterling per \$500 in the case of bonds, and pounds sterling per 5 shares in the case of stocks.
