WHEREAS there was this day read at the Board a Memorial from the Right Honourable the Lords Commissioners of the Admiralty, dated the 16th day of January, 1918, in the words following, viz. :—

Staff Officers are also stationed, should be not less than the consolidated rates laid down for General Staff Officers of Your Majesty's Army :

“We beg leave humbly to recommend that Your Majesty may be graciously pleased, by Your Order in Council, to approve of these Officers being granted Pay, at the Consolidated Rates applicable to Army General Staff Officers, together with Colonial Allowance at the Army Rate where such is payable, with effect as from the 30th June, 1917, unless it would be to their advantage to receive the Pay and Allowances of their Rank.

“The Lords Commissioners of Your Majesty's Treasury have signified their concurrence in this proposal.”

His Majesty, having taken the said Memorial into consideration, was pleased, by and with the advice of His Privy Council, to approve of what is therein proposed.

ORDER.

TAR OILS.

The words "an additional charge of 3s. 8d. per gallon is permitted" appearing in the Schedule to the above Order in the London Gazette dated 1st February, 1918 (page 1543), should read, "an additional charge of 3d. per gallon is permitted."

In pursuance of powers conferred upon them by the Defence of the Realm (Consolidation) Regulations or otherwise, the Lords Commissioners of the Admiralty hereby make the following Order respecting Navigation of the Caledonian Canal:—

1. From daylight on 10th February, 1918, and until further orders, no vessels other than H.M. Ships, those in Government employ, or those granted special permits (vide pars. 2 & 3), will be permitted to navigate the Caledonian Canal; and entrance thereto, either at Inverness or Corpach, is prohibited as from that date.

2. Owners of Merchant, Fishing or other private vessels, who can show urgent and sufficient reason why their vessels should be allowed to pass through the Canal, may make application to the Divisional Naval Transport Officer at Inverness for a special permit to enable their vessels to do so. Such applications must contain full information as to the length and breadth of the vessel, registered number, destination, why she cannot proceed North-about, and proposed date of entering the Canal; but they will only be entertained in exceptional cases and with full regard to national interests.

3. When the requirements of the Naval Authorities allow of such special permits being issued, they will be granted subject to the following conditions:—

(a) That priority of passage through the Canal is reserved for Admiralty vessels.

(b) That no liability is accepted in respect of demurrage or detention on passage.

(c) That the passage is commenced when ordered by the Divisional Naval Transport

Officer, Inverness, or his representative, and completed in accordance with any instructions issued by these Authorities.

(d) That the regulations governing the navigation of the Canal are strictly complied with.

(e) That the owner of a vessel permitted to navigate the Canal will be held responsible for any damage caused by the vessel, or by the Master, Skipper or members of the crew of such vessels, to the Canal, the machinery or appliances connected therewith, or to other vessels. The value of any such damage to be assessed by representatives of the Admiralty and Canal Commissioners, whose certificates thereof will be final and binding and not subject to review.

Admiralty, 5th February, 1918.

The KING has been pleased to approve of the award of the Albert Medal to

Lieutenant (acting Lieutenant-Commander) Maurice MacMahon, R.N.R., for gallantry in saving life at sea.

The following is the account of the services in respect of which the decoration has been conferred:—

On the 8th November, 1916, a series of fires and explosions occurred at Bakaritsa, Port of Archangel. After the merchant ships had been got away from the wharves, cries and moans were heard from the direction of a 100-ton floating crane moored between the S.S. "Earl of Forfar" and the quay. The "Earl of Forfar" was on fire fore and aft, and it was obvious that any attempt to save life must be accompanied by the greatest risk, the ship having explosives on board and the quay abreast it burning furiously with intermittent explosions from small arm ammunition.

Lieutenant-Commander MacMahon, without a moment's hesitation, volunteered to carry out rescue work, although other rescue parties considered that they had already done all that was humanly possible.

In order to reach the floating crane it was necessary to cross the "Earl of Forfar," the after part of which had blown up, whilst the forepart was on fire and the fore-castle was a mass of smouldering debris. Hearing moans from under the debris of the fore-castle, Lieutenant-Commander MacMahon, with the aid of the crew of a tug, cleared away the wreckage and discovered the mate, with one arm, one leg, and collar-bone fractured. This man was extricated and passed into the tug. Lieutenant-Commander MacMahon then proceeded on to the floating crane by means of a single plank and rescued from beneath the debris of the crane the carpenter of the "Earl of Forfar" and two Russian subjects, part of the crane's crew.

ADMIRALTY NOTICE TO MARINERS.

No. 151 of the year 1918.

ENGLAND, SOUTH COAST.

(1) *Falmouth Harbour Approach—Traffic Regulations.*

Former Notice.—No. 88 of 1918.

All vessels bound to or from Falmouth harbour must pass between the two light-buoys situated at a distance of about 3 miles south-westward from St. Anthony point lighthouse, and maintain a course 0° (*N. 17° E. Mag.*) and 180° (*S. 17° W. Mag.*), respectively, for a dis-

tance of a quarter of a mile from the light-buoys.

Any instructions given by the patrol vessels should be strictly observed. Vessels proceeding eastward must obtain instructions as to the route to be followed before attempting to leave the anchorage.

Inward-bound vessels will have priority over outward-bound vessels in respect of passage through the gateway. Vessels entering Falmouth harbour must close the Drifter, stationed about half a mile to the southward of the two light-buoys defining the gateway.

This Drifter regulates inward-bound and outward-bound traffic. When no signals are exhibited by day or night by this Drifter, inward-bound traffic may proceed to pass through the gateway.

To indicate that the gateway is clear for outward-bound vessels, the Drifter will display by day a black shape and by night two horizontal white lights.

During fog three long blasts on the steam whistle, repeated at intervals of five minutes, will indicate that the gateway is clear for outward-bound traffic.

Vessels approaching Falmouth in foggy weather should be careful to sound the regulation fog-signal and to proceed with great caution when within a depth of 30 fathoms at all states of the tide.

When the gateway is clear for inward-bound traffic, no outward-bound vessel may approach within half a mile of the gateway; and when the signals indicate that outward-bound traffic may pass through the gateway, no inward-bound vessels may approach within half a mile of the gateway.

During the hours of darkness all vessels entering or leaving Falmouth harbour must exhibit their side-lights.

(2) *Penzance Bay—Traffic Regulations.*

All vessels bound to or from Penzance bay must pass between the two light-buoys situated at a distance of about 1½ miles south-eastward from St. Paul church, north-westward of Mousehole and maintain a course 0° (*N. 17° E. Mag.*) and 180° (*S. 17° W. Mag.*), respectively, for a distance of a quarter of a mile from the light-buoys.

Vessels approaching from the eastward must keep to the southward of the parallel of lat. 50° 02' N., until reaching a position about 3 miles southward of the gateway, which should then be steered for.

Any instructions given by the patrol vessels should be strictly observed.

Inward-bound vessels will have priority over outward-bound vessels in respect of passage through the gateway.

Vessels entering Penzance bay must close the Drifter, stationed about half a mile to the southward of the two light-buoys defining the gateway.

This Drifter regulates inward-bound and outward-bound traffic. When no signals are exhibited by day or night by this Drifter, inward-bound traffic may proceed to pass through the gateway.

To indicate that the gateway is clear for outward-bound vessels, the Drifter will display by day a black shape and by night two horizontal white lights.

During fog three long blasts on the steam whistle, repeated at intervals of five minutes, will indicate that the gateway is clear for outward-bound traffic.

Vessels making Mounts bay in foggy weather should be careful to sound the regulation fog-signal and to proceed with great caution when within a depth of 25 fathoms at all states of the tide.

When the gateway is clear for inward-bound traffic, no outward-bound vessel may approach within half a mile of the gateway; and when the signals indicate that outward-bound traffic may pass through the gateway, no inward-bound vessel may approach within half a mile of the gateway.

During the hours of darkness, all vessels entering or leaving Penzance bay must exhibit their side-lights.

Before attempting to leave Penzance bay, outward-bound vessels must obtain instructions as to the route to be followed.

ADMIRALTY NOTICE TO MARINERS.

No. 154 of the year 1918.

SCOTLAND, WEST COAST—FIRTH OF CLYDE, ISLE OF ARRAN.

Lamlash Harbour Entrances—Traffic Regulations.

Former Notice.—No. 70 of 1917.

A gateway, 500 feet in width, has been established at the entrance to North channel. It is marked on its northern side by a light-buoy situated about $4\frac{1}{2}$ cables south-eastward from Hamilton rock as shown on chart.

A gateway, 500 feet in width, has also been established at the entrance to South channel. It is marked on its western side by a light-buoy situated about $6\frac{1}{2}$ cables south-eastward from Stone on Kingscross point as shown on chart.

All vessels bound for Lamlash must approach by the Northern channel, and maintain a course 244° (S. 82° W. *Mag.*) for a distance of a quarter of a mile on either side of the light-buoy, which should be left on the starboard hand at a distance not exceeding 75 yards.

Vessels must not attempt to enter by the Southern channel unless they have been definitely ordered by their route instructions or a Clyde Patrol vessel to do so, when they must maintain a course 329° (N. 13° W. *Mag.*) for a distance of a quarter of a mile on either side of the light-buoy, which should be left on the port hand at a distance not exceeding 75 yards.

When using the Northern channel, inward-bound vessels will be given priority over those outward bound.

Vessels entering are not to approach the gateway at a speed exceeding 10 knots.

Vessels entering are to close the drifter, which will be lying off the gateway, for instructions. Any instructions which may be given by Patrol vessels in the outer reaches of the Clyde must also be strictly observed.

No. 30510.

B

The drifter regulates the traffic both inward and outward bound as follows:—

To indicate that the gateway is clear for *inward-bound traffic*, she will display at both yard-arms:

By day—Two black balls hoisted vertically.

By night—One red light.

To indicate that the gateway is clear for *outward-bound traffic*, she will display at both yard-arms:

By day—One black cone, point up.

By night—One green light.

During fog or thick weather, she will sound three long blasts on her steam whistle at intervals of five minutes to indicate that the gateway is clear for outward-bound traffic.

There will be no sound signal for inward-bound traffic.

No vessel, either inward or outward bound, is to approach within half a mile of the gateway unless the drifter is displaying the traffic signal in her favour.

In foggy or thick weather, vessels approaching are to sound the regulation fog-signals, and proceed with great caution.

All vessels entering Lamlash by night are to burn side lights.

Vessels entering Lamlash by day are to anchor to the southward of a line joining the new Pier head and the north end of Holy Island.

Vessels entering during the night may anchor to the northward of this line until the morning.

Before attempting to leave Lamlash, all vessels must obtain instructions as to the route to be followed.

A gateway, marked by two light-buoys shown on the chart, has been established on the northern side of the entrance to Belfast lough, about 8 cables south-eastward from Cloghan point.

When making for this gateway, vessels must maintain a course of 201° (S. 40° W. *Mag.*) or 2° (N. 40° E. *Mag.*) for a distance of a quarter of a mile on either side of the gateway.

The Gobbins head light-and-whistle-buoy, exhibiting a *flashing red* light, situated in lat. $54^{\circ} 48' 10''$ N., long. $5^{\circ} 38' 20''$ W., approximately, serves as an additional aid to vessels.

Vessels approaching Belfast must be careful to look out for and close the Patrol Vessels off the port, and strictly observe any instructions communicated to them by the Patrol.

A drifter will be stationed at a distance of

about half a mile north-eastward of the gateway.

This drifter regulates inward-bound and outward-bound traffic. When no signals are exhibited by day or night by this drifter, inward-bound traffic may proceed to pass through the gateway.

Inward-bound vessels will be given priority over outward-bound vessels in respect of passage through the gateway.

To indicate that the gateway is clear for outward-bound vessels the drifter will display by day a black shape and by night two horizontal white lights.

During fog three long blasts on the steam-whistle, repeated at intervals of five minutes, will indicate that the gateway is clear for outward-bound traffic.

Vessels approaching Belfast lough in foggy weather should be careful to sound the regulation fog-signals, and to proceed with great caution when within a depth of 30 fathoms at all states of the tide.
